"Our army men are ready to defend the nation even with sticks", said Jawaharlal Nehru during the Indo-China war. Today, doctors in many parts of the country are also doing something similar, but will that help us win this war ?

In these times of extreme uncertainties, let us hear from one of the most decorated and revered officers of the Indian army and a doctor par excellence, on fighting this 'unprecedented war', and try to allay some of our anxieties pertaining to the medical practice.
