She was in conversation with live audience and answered there queries.</p> <p>This was a very innovative topic and had great response from general public. This platform could reach to remote areas and was a grand success. Thus department of OBGY, MIMER Medical College is always ready to create awareness regarding the role of a girl child to bring positive change in our society.</p>

MESSAGE FROM TEAM POGS

Save the Girl Child is a campaign which is launched to bring gender equality in the country and stop crime against girl child like female foeticide.

The basic mindset has to change & accept that girls are equally supportive to the family. Girls play an important role in building a strong society.

Small initiatives can bring about bigger changes in times to come with awareness. We hope more & more societies like POGS join hands towards creating awareness for not only saving the girl child but also empowering them with right to education.

Warm wishes on **Girl Child Day!**
