

MIMER Medical College, Talegaon (Dabhade)
Activity Report

Department: Ophthalmology

Name of the activity: Seminar on "OCT- an advanced technology"

Date of Activity: 13th July 2021

Participants: 54

Brief Description of the Seminar:

The Department of Ophthalmology organized a Seminar on "OCT- an advanced technology" on 13.07.2021 at Sushrut Hall to create awareness about availability of OCT, OCT-A along with multicolor imaging in MIMER Medical College. MIMER has become the first institution in Maval Taluka to install this advanced machine. Optical Coherence Tomography is a quick, non-invasive and reproducible imaging tool for macular lesions and has become an essential part of retina practice. OCT is useful in the diagnosis of many retinal conditions, Macular hole, epiretinal membrane, Macular edema, retinal detachments, Choroidal Tumours. This machine can also be utilized in the diagnosis of glaucoma patients.

Dr. Smita Pawar in her address to the faculty, staff and PG Residents emphasized the need to create awareness about the availability of such service in MIMER Medical College, so, that more and more patients could get benefit out of it in addition to utilizing it in the research topics assigned to post graduate students and faculty.
