

JANUARY to JUNE 2026

DEPARTMENT OF PSYCHIATRY MIMER MEDICAL COLLEGE

Skit on Bipolar disorders

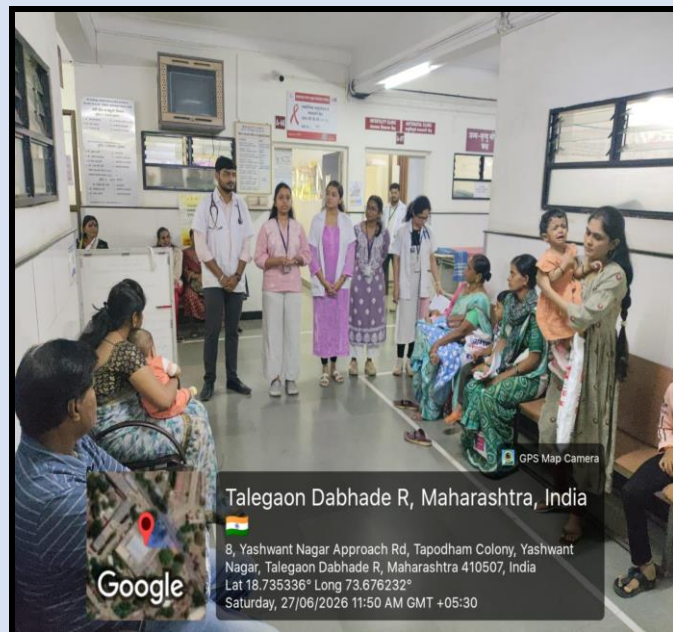

On the occasion of World Bipolar Day 30th March, an awareness program was organized by the Department of Psychiatry MIMER MEDICAL COLLEGE and DR. BSTR HOSPITAL TALEGAON to educate the audience and reduce the stigma surrounding Bipolar Disorder.

The event featured an engaging skit that creatively depicted the lived experiences of individuals with the condition, illustrating the journey through manic and depressive episodes. The performance was followed by a focused talk highlighting the importance of early diagnosis, treatment adherence, and the role of family support.

By blending storytelling with clinical insights, the program successfully fostered empathy, encouraged open dialogue, and promoted a more supportive environment for mental health recovery in society.

Skit on PTSD

On the occasion of PTSD awareness day celebrated on 27th June 2026, The department of Psychiatry organized a street play. The interns posted in psychiatry and the residents took active participation in the play. The play was showcased at the OPD registration counter and IPD ward. it was well received by the attending population and there queries were answered.

MEDICAL CAMP

A medical camp was organized in Prerna Bhavan, in Tathavade, which is run by Charities of the Missionary, Mother Teresa. The beneficiary population was the female destitutes of the society. The multi specialty medical camp consisted of resident doctors from the following departments- Medicine, Surgery, Orthopedics, OBGY, ENT, Ophthalmology, Dermatology, Dentistry, & Psychiatry. The Patients were of variable diagnoses like Cerebral Palsy, Epilepsy, Mental retardation, Psychiatric disorders with multiple co morbidities. Multi disciplinary team was very helpful in handling the co morbidities of the patients. Total beneficiaries: 110.

Guest lecture

A guest lecture on “Doctor–Patient Relationship: Past, Present & Future” was organized by the institution for faculty members, postgraduate residents, and interns. The session was delivered by Dr. Ivan Netto, Ex-Professor in Psychiatry, BJMC, Pune, who provided an academic perspective on the evolution and contemporary dimensions of the doctor–patient relationship.

The lecture emphasized the significance of effective communication, empathy, mutual trust, professional ethics, patient autonomy, and shared decision-making in clinical practice. The changing dynamics of healthcare delivery, including the impact of digital health, telemedicine, and artificial intelligence, were also discussed. The session provided an opportunity for participants to reflect upon the evolving responsibilities of healthcare professionals while reaffirming the centrality of patient-centered and compassionate care. The programme was well received and contributed meaningfully to the academic and professional development of the participants. 79 participants

Skit on Suicide Prevention Day

On the occasion of Suicide prevention day on 10th September 2026, the department of Psychiatry conducted an awareness programme in view of Suicide Prevention. Department organized a small speech on the topic of Suicide prevention covering various aspects like recognizing the symptoms, common myths and facts. They were also informed about how and whom to approach if found such case. Also, the interns displayed toll free 24x7 helpline numbers for contact in emergencies. 50-60 people. Venue: OPD complex. Interns of dept. of Psychiatry made a Reel for awareness.
