

## BIOCHEMISTRY FUN DAY

With the aim of generating interest & better understanding of the subject, Biochemistry Fun Day was celebrated on 29<sup>th</sup> July 2022 for I MBBS students. On this day, the father of modern Biochemistry “Carl Alexander Neuberg was born in the year 1877 (145 years back). An Indian Biochemist and first Indian woman to obtain PhD- Dr Kamala Sohoni had her birthday on 18<sup>th</sup> June (last month). So this day was chosen.

As the part of this event, 4 activities were conducted namely Crossword, Who I am?, Image based question and Poster making competition. Each activity was conducted, planned & executed by one faculty member with the support of volunteers & non – teaching staff. Morning events were held in Physiology lecture hall & the afternoon events were conducted in the corridor of the department.

The I MBBS students participated whole heartedly & completely enjoyed the event. 139 students attended the event. The event was well appreciated by the students as well as the faculty members from other departments who witnessed the program. Dr. Smita Pathak, HOD Pathology department and Dr. Ranjit Wagh HOD Pharmacology department were the judges for the poster competition. The winners were selected by the judges and were given the prizes.
