The theme of this year ‘Act now, protect our present and Secure our future’ set the framework for the programme. Faculty of the Microbiology, Pharmacology, ENT, Surgery, Medicine departments shared their insights in the lecture titled ‘ Preventing Antimicrobial Resistance Together’. They addressed key topics like the global AMR challenge, antibiotic policy and rational antibiotic use. Discussion of case scenarios offered practical perspectives on applying stewardship principles in real-world clinical settings, instilling confidence among budding clinicians that responsible antibiotic use is achievable and beneficial for patient outcomes. The session concluded with a discussion and creative and comprehensive presentation</p>

		emphasising shared responsibilities of all stakeholders, followed by a vote of thanks.
