**DEPARTMENT OF OBSTETRICS & GYNECOLOGY**

**UG QUIZ**

The department of obstetrics & gynecology has always encouraged students for academic excellence. Keeping in tune with this aim, the undergraduate students of MIMER Medical college Mr Chaitanya Bhujbal and Miss Nupur Chaturvedi participated in the 'POGS-AFMC Intercollegiate rotatory undergraduate quiz competition 2022 (Obstetrics & Gynecology)' held on 19th October 2022 in AFMC Pune. Dr Vaishali Korde, attended this program to encourage our students.

The first round of the quiz was about history and innovations in obstetrics and gynaecology where all teams had to identify some of the most famous personalities and their path-breaking contributions in the field of ObGyn. The next few rounds tested students on their knowledge about labour, medical disorders in pregnancy, high-risk pregnancy, contraception and social obstetrics. The game changing round was the last one which was the buzzer round with negative marking.

Our students performed well from first round giving tough fight to AFMC & BJ team as we were in first 3 teams. It was a nail biting competition where every team was as strong as the other. Few of the questions were of PG level & in negative marking round we lost few points & our team stood 4th in the competition and were given participation certificates.

Congratulations to both our students for preparing so well by putting in hard work, for displaying good team work, presence of mind & risk taking attitude.
