Brief summary of the event in around 100 words (purpose, conduct, feedback, impact, suggestions)	The Department of Obstetrics and Gynecology organized a Guest Lecture to underscore the vital role of magnesium sulfate in obstetrics. Dr. Gorakh Mandrupkar, a distinguished gynecologist and infertility specialist, known for his commendable contributions to hypertensive disorders in pregnancy, was invited to share insights on the drug. Dr. Gorakh passionately discussed the uses, dosage, and administration routes of magnesium sulfate in the management of hypertensive disorders in pregnancy and preterm labor. The interactive session sparked engaging questions from both the speaker and the audience, including participation from the faculty and residents of the Pharmacology department. In recognition of his contributions, Dr. Gorakh was felicitated by the Head of the Department, Dr. Korde. The session was highly informative and well-received by all attendees. The department is dedicated to enhancing patient care by incorporating the latest advancements in magnesium sulfate utilization.
