INTERNATIONAL KANGAROO CARE AWARENESS DAY

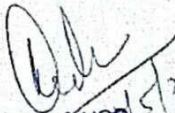

On the occasion of International Kangaroo Care Awareness Day, the department of Obstetrics Gynecology had conducted a educational talk on 14th May 2021 at 11.30 am in the postnatal ward, under the guidance of Dr. Vaishali Korde & Dr. Sushma Sharma .The programme was aimed to educate the patients and caregivers about the benefits of Kangaroo mother care especially to preterm and low birthweight babies.

Dr Vaishali Korde, Professor and HOD, Department of obstetrics & Gynaecology, introduced the talk on Kangaroo Mother Care. The enthusiastic interns of our department presented a wonderful skit demonstrating the Kangaroo Care. A video on the same was played for the benefit for the patients, faculty and nursing staff and interns. A talk was given by Dr. Vijay Bhavari, HOD Paediatrics, explaining the Kangaroo Mother Care from the pediatric point of view. The event was concluded with vote of thanks by Dr. Vaishali Korde.

Inspite of COVID, the event was attended by the patients, their relatives, faculty of other different departments, the nursing staff and the interns with good social distancing. The queries of the patients were attended to diligently by the faculty.

The department of obstetrics & Gynaecology always remains in the forefront to provide proficient maternal and child care and this event was just a step in that direction.

We intent to be a part of such activities in the future too.
