7.	Brief summary of the event in around 100 words (purpose, conduct, feedback, impact, suggestions)	As part of postgraduate teaching, an integrated teaching session was conducted in collaboration with the pathology department. Dr. Zope, Professor of Pathology, delivered a lecture on Endometrial Hyperplasia, highlighting the various types of normal and abnormal histopathology. Abnormal uterine bleeding, a prevalent issue among gynecology patients, is closely linked to pathology, making its understanding crucial for determining the appropriate treatment approach. The session fostered active discussions, with students and faculty raising questions and clarifying doubts. Both students and faculty members praised the session, recognizing that such integrated teaching enhances clinical management of patients.
