Brief summary of the event in around 100 words (purpose, conduct, feedback, impact, suggestions)	<p>Hypertension is called a silent killer disease. Most people with hypertension are unaware of the problems because it may have no warning signs or symptoms. Over a billion people around the globe live with hypertension which is a major cause of cardio-vascular disease & premature death world wide. While hypertension was usually seen as a health condition found in older people, it has now become quite common in the younger population.</p> <p>This year's theme was 'Measure your BP accurately, Control it, Live longer. Interns & staff of the RHTC observed the World Hypertension Day at Sudumbare with giving detailed information on regarding combating low awareness world wide, accurate BP recording method, live style modification, importance of exercises.</p> <p>This activity was held under the guidance of Prof. & Head Dept. of Community Medicine Dr.S.V.Chincholikar, I/C RHTC Asso. Prof. Dr. Surendra Kulkarni & Medical Officer Dr. Abhay Tophkhane.</p>
