

A 3D anatomical illustration of a pregnant woman's torso. The woman's body is rendered in a semi-transparent, light brown color, revealing internal organs. The liver is highlighted in a reddish-purple hue, and the gallbladder is shown in a yellowish-orange color. A fetus is visible in the uterus, also rendered in a semi-transparent, light brown color. The background is dark, and the overall lighting is soft, highlighting the anatomical details. The text "Jaundice In Pregnancy" is overlaid in the center of the image in a bold, yellow font with a black outline.

# Jaundice In Pregnancy

A 3D anatomical illustration of a pregnant woman's torso. The woman's skin is semi-transparent, revealing internal organs including the lungs, heart, liver, stomach, and intestines. A fetus is visible in the uterus. The background is dark, and the woman's arms are visible on either side of her torso.
