Source of Inspiration

Prof. Dr. Vishwanath D. Karad

FOUNDER & DIRECTOR GENERAL , MAEER,S MIT

Welcome to MAEER's Faculty of Medicine. In this era of digital technology, the world is at your fingertips. The concept of Global Village is progressing towards fulfilment. Information Technology has become the basic necessity. But still there is a wider arena of our country which is deprived of the basic needs of food, clothing, shelter and healthcare.

I am proud that you have chosen to be successful Medical Professionals where in you gain not only name and fame but also the blessings of the troubled, which you serve. No doubt, it is called a NOBLE PROFESSION. Doctors are the first social workers in society as they serve the ailing – both physically and mentally. A Strong mind is a strong body; this should be the ultimate aim of all.

All the best……. God bless you all!

Source of Inspiration

Late, Dr. Suresh Ghaisas

Founder & Trustee

MIMER Medical College Talegaon Dabhade, Pune

I feel proud to mention that the teaching staffs are experts in their field of education and the students shall undoubtedly derive substantial benefit from their profound knowledge and experience. The students who would graduate from this Institution will keep in mind their responsibilities and obligations to serve the underprivileged and economically backward community, both, in the vicinity and wherever they would practice.

He was a leading and eminent ENT surgeon of Pune, practising for 40 years. The academic qualification and practical expertise is crowned with his administrative excellence. He was trained for Ear Surgery in Tubingen, Germany. He had headed many organizations and chaired a number of committees and conferences, like Chairmanship, ENT Association, Pune, Chairmanship Maharashtra State ENT Association, Head of ENT Department of Pune Municipal Corporation, amongst many others.

Dr Ghaisas was founder trustee and Vice–Chairman of Maharashtra Academy of Engineering and Educational Research (MAEER)'s MIT, Pune It is because of his enthusiasm, dedicated work and motivation that the MIMER Medical College has become reputed, well established and professionally recognized in the field of Medicine.

An administrator par excellence, Dr.Suresh Ghaisas was in the field of Medical education since 1995. He had been instrumental in developing the college and making the vision come true. He had steered the institute as a Medical Director, since its foundation stone was laid in 1995.

He firmly believed in the vast potential of the youth and wished to prepare medical students possessing good ethical and moral values to become well trained doctors to serve humanity.

AWARD AND ACHIEVEMENTS

"Best Library Readers Award -2024' to Dr. Leena Shiboo Professor Department of Anaesthesia

"BEST LIBRARY USER AWARD"

To motivate the students and Faculty Member to make the efficient use of the library and its services, the **'Best Library User Award'** for student and faculty members has been strated.Two students are selected one from the UG and One from PG and one from faculty members, on the basis of the statistical data of library usage accession of books, Utilization of library resources. Every year this award conferred on the occasion of Annual Gathering Day.

BEST LIBRARY USER AWARD SELECTION CRITERIA (Total Points- 50)

The selection criteria for the Best Library User Award are very thorough and focus on a well-rounded evaluation of a user's interaction with the library. Here's a breakdown of the award criteria again, with some potential suggestions for implementation and tracking:

1. **Library Visiting (15 Points)**:
   o Track the number of visits through a library check-in system, where users register their entry and exit times.
   o Alternatively, monitor the number of hours spent using library facilities or attending events (study groups, workshops, etc.).

2. **Books Usage (15 Points)**:
   o Record the number of books borrowed by each user. This could be tracked by library staff or via an online catalogue where users log their borrowed items.
   o Include both textbooks and general reading books, encouraging users to engage with a variety of resources.

3. **Journals Usage (10 Points)**:
   o Keep a record of how many print journals users refer to, or use a system where they can check out or register the journals they've accessed.
   o Consider encouraging the review of academic journals in addition to general reading to align with scholarly usage.

4. **Timely Return of Books (5 Points)**:
   o Track the return dates of borrowed books to ensure they are returned on time. If users frequently return books late, they could lose points, while punctual returners gain maximum points.

5. **Usage of Online Resources (5 Points)**:
   o Monitor users' engagement with online resources (e-journals, e-books, databases). This could be tracked through the number of downloads, logins, or time spent using these digital materials.

"A Library is infinity under a Roof"

Within the domain of librarianship perspective in librarianship, medical librarian ship has its own historical the global context. In India, the history of medical libraries can be traced back to the period of 2nd century BC. The Nalanda and Taxila Universities housed the Charaka Samhita, Sushruta Samhita and the commentaries on these by their successors. Numbers of medical institutions have started during pre and post-independence period. Indian Council of Medical Research (ICMR), New Delhi.

Came into existence during 1911 which is one among the oldest research institutions in the world. National Medical Library has been started in New Delhi during 1946.Under HO SEARO, HELLIS network project was started during 1982, then 7th ICMR-NIC centre has come into operational during 1988.Number of medical institutions increased rapidly during last two decades.

The global library services from National Library of Medicine (USA), World Health Organization (WHO), Geneva are being made available in the country through networks, with the application of ICT's. Numbers of bio-medical resources comprising on-line, off-line databases, open access resources are also adding to the collection of medical libraries one after another. Best-practices have also come into existence.

As a result of information proliferation, the concept of networking has gained the momentum at all levels; led to establishment of consortia for resource sharing among the medical libraries in India. Those libraries working in the medical institutions are regulated by Medical Council of India (MCI), New Delhi through its standards and guidelines.

All the very best……. God bless you all!

MESSAGE FROM PRINCIPAL DESK

The word "library" is derived from the French term "librairie" and the Latin word "liber," meaning book. Libraries play a crucial role in both our academic and social lives. Their primary purpose is to provide information. Traditionally, libraries have been responsible for collecting, organizing, and providing access to print materials. However, modern libraries have expanded to include a variety of electronic resources, such as online databases, journals, and e-books.

In the rapidly advancing field of medical science, medical libraries are especially vital for students to stay updated with current knowledge and enhance their competence. Medical students cannot rely solely on formal classroom lectures; they must also engage in independent information gathering to develop their professional skills. A well-equipped medical library is indispensable in meeting these educational needs.

However, the mere presence of a well-stocked library does not guarantee its effective use. Various factors, such as personal preferences, the library's environment, operating hours, and proximity to students' residences, can influence library utilization.

Large institutions with thousands of students should regularly assess library usage patterns. Collecting feedback can help in formulating new policies, improving services, and bridging the gap between what is expected and what is available.

"The effectiveness of a library as an instrument of learning is determined by its success in providing users with the information they seek. The library fulfils its function best by constantly self-evaluating and adapting to the changing needs of its users."

All the best for your future endeavours…

MESSAGE FROM LIBRARY IN-CHARGE/CHAIRMAN OF LIBRARY COMMITTEE DESK

Dr. Sachin Naik

Library In-charge

MIMER Medical College
Talegaon (D) – 410507

Medical libraries are not merely supportive adjuncts to medical education, they are its very foundation. In an era of rapidly evolving scientific knowledge, a robust, well-organized medical library is indispensable to the growth of both undergraduate and postgraduate learning.

More than just repositories of books, medical libraries are dynamic centers of knowledge dissemination. They curate, preserve, and make accessible a wealth of information that is critical to academic success and clinical excellence. In doing so, they serve as vital bridges between the wisdom of the past, the demands of the present, and the innovations of the future.

The Mahatma Gandhi Central Library at MIMER Medical College, Talegaon (D), Pune, established in 1995, embodies this philosophy. With an impressive collection of 16,169 printed textbooks and reference works, and subscriptions to 66 national and international journals and periodicals, the library supports a culture of academic curiosity and evidence-based practice. Our ever-expanding suite of e-resources and online databases ensures that students and faculty alike remain connected to global advancements in medical science.

Libraries today must be agile, continuously evolving with the needs of medical education and the digital transformation of learning. At MIMER, we remain committed to thoughtful development, infrastructure planning, and resource curation to ensure our library remains a vibrant academic hub.

In conclusion, medical libraries are not only centers for information but also catalysts for discovery, research, and lifelong learning. As we continue to enhance our library services, we reaffirm our commitment to excellence in medical education and to empowering the next generation of healthcare professionals.

Best wishes

MESSAGE FROM LIBRARY COMMITTEE SECRETARY DESK

Dr.Tushar Khachane
Professor of Surgery
Dept. & Secretary of Library
MIMER Medical College, Talegaon Dabhade, Pune

"Mahatma Gandhi Central Library: A Hub of Knowledge and Innovation"

The Mahatma Gandhi Central Library stands as a vital part of the Institute, serving as a fully digitalized knowledge center. All resources have been systematically cataloged using advanced Library Management Software. The library continuously enriches its collection by purchasing

printed books and journals annually, along with subscribing to a wide range of online databases, e-journals, and e-books.

To ensure continuous development, the Library Advisory Committee convened twice during the year to discuss strategic improvements. The library is centrally air-conditioned and benefits from a significant allocation of the Institute's budget, underscoring its importance in academic and research excellence.

In addition to providing resources, the library regularly conducts training sessions and organizes academic events to engage both faculty and students. An annual **Best Library Reader Award** is also presented to encourage and recognize outstanding library usage.

1	Swayam	https://swayam.gov.in/	SWAYAM is indeed a significant initiative by the Government of India aimed at enhancing the accessibility, equity, and quality of education. Launched in 2017, this online platform provides a range of free courses across various disciplines, from the humanities to engineering, to learners across the country. Here's a bit more detail on how SWAYAM aligns with the principles of access, equity, and quality: 1. **Access**: SWAYAM aims to make high-quality educational resources available to everyone, including individuals in remote areas who might not have access to quality educational institutions. By providing online courses, it allows learners from different regions and backgrounds to access the same level of education. 2. **Equity**: The platform is designed to bridge the educational gap by catering to diverse learning needs and providing resources that are free of cost. It also offers courses in multiple languages and includes provisions for people with disabilities, thereby promoting inclusivity. 3. **Quality**: Courses on SWAYAM are developed by top institutions and educators from across India. They adhere to rigorous academic standards and are designed to offer the same quality of education as found in traditional institutions. The platform also incorporates interactive elements like quizzes, assignments, and peer interactions to enhance the learning experience. Overall, SWAYAM represents a progressive step

			towards democratizing education and leveraging technology to improve learning outcomes across diverse segments of society.
2	MOOC	http://mooc.org/	Exactly! MOOCs are a great way for people to access high-quality education from anywhere in the world. They cover a wide range of subjects, from programming and data science to literature and philosophy. Because they're designed to be scalable, they can accommodate thousands of students, making advanced learning more accessible than traditional classroom settings. Plus, they often include various resources like video lectures, discussion forums, and assignments to enhance the learning experience. Whether you're looking to pick up a new hobby, deepen your knowledge in a specific field, or boost your career prospects, MOOCs can be a valuable resource.
3	edx	https://www.edx.org/	edX is the trusted platform for education and learning. Founded by Harvard and MIT, edX is home to more than 20 million learners, the majority of top-ranked universities in the world and industry-leading companies.
4	Coursera	https://www.coursera.org/	Every course on Coursera is taught by top instructors from world-class universities and companies, so you can learn something new anytime, anywhere. Hundreds of free courses give you access to on-demand video lectures, homework exercises, and community discussion forums. Paid courses provide additional quizzes and projects as well as a shareable Course Certificate upon completion.

7.	Faculty / Staff	Mr. Arun Bhalerao - Librarian
8.	Brief summary of the session	The Department of Mahatma Gandhi Central Library, Talegaon (D), Pune-410705, organized a Book Exhibition from 12/08/2024 to 14/08/2024 in celebration of National Librarians Day. The event commenced with the offering of floral tributes to the portrait of Mata Saraswati and the lighting candles by the esteemed Principal, Dr. (Mrs.) Sandhya Kulkarni, and the Head of the Department. Following this, Dr. Sachin Naik (Chairperson of the Library Committee) honoured Principal Dr. Kulkarni with a felicitation. Dr. (Mrs.) Meenakashi Surve delivered the formal welcome address, extending a warm welcome to the Chief Guest, Guest of Honour, and other invited guests and speakers.

Principal Dr. (Mrs.) Sandhya Kulkarni then addressed the attendees, emphasizing the importance of books and reading. She expressed her belief that books are invaluable companions, providing comfort, knowledge, and a respite from everyday stresses. Dr. Kulkarni highlighted that books offer a refuge from worries and contribute immensely to personal growth and enrichment. She encouraged everyone to embrace reading as a means to enhance imagination and self-confidence, noting that books serve as both companions and teachers.

Dr. Sachin Naik provided an update on the print and non-print resources available in the library and encouraged users to make full use of these resources. Mr. A.L. Bhalerao, the Librarian, introduced Dr. S.R. Ranganathan, the founder of Library Science, celebrating his contributions to the field.

Inauguration: The event began with a heartfelt tribute to Mata Saraswati, during which floral offerings were made, and a candle was ceremoniously lit. Dr. Sandhya Kulkarni, the Principal, along with the faculty members, led this auspicious opening. Dr. Sandesh Gawade, Alumni Committee Coordinator, extended a warm welcome to the chief guest, the guest of honor, and all attendees, setting an optimistic tone for the day's proceedings.

Orientation Session: Dr. Sandesh Gawade, in his address, emphasized the importance of the library for alumni. He encouraged alumni to make regular visits to the library, fostering a continuous connection with the institution.

Mr. Arun Bhalerao, the Librarian, provided a detailed overview of the various services and facilities offered by the library. He discussed the significance of journals, and shared insights into the library's resources, including e-journals, Library Management Software, plagiarism detection software, and e-databases such as Clinical Key, Complete Anatomy, Up-to-Date, DELNET, NDLI, and Knimbus.

Library Tour: Following the orientation session, the alumni were guided on a tour of the library, which included visits to the stack section, journal section, Library OPAC, Digital Library, and Circulation area.

Question and Answer Session: The event concluded with an interactive Q&A session, where alumni inquired about the library's services, including the types of resources available, library hours, and the book borrowing system.

Mr. Arun Bhalerao patiently and clearly addressed all queries, providing additional insights into the library's facilities.

Alumni often have valuable insights and experiences to share about their time at a library. These reflections can provide both current and prospective library users with a sense of its importance in their academic journey. Here's a breakdown of how alumni might express their views:

1. Memories of the Library Environment: Alumni may recall the atmosphere of the library, describing it as a peaceful, quiet place for studying or as a lively center for collaboration. They may mention how the library's design and resources created an inspiring environment.

2. Resources and Services Offered: Many alumni will highlight the library's role in providing essential resources whether it's the books, journals, or digital databases that helped them with their academic work. Some may also appreciate the support of librarians who guided them in their research.

3. Technological Advancements: Some alumni may reflect on the technological resources the library provided, especially if it upgraded during their time there. Access to computers, research databases, and other technological innovations might stand out.

4. Study Groups and Social Interaction: Libraries often serve as hubs for students to meet and collaborate. Alumni might reflect on the social and academic benefits of using library spaces for group studies, discussions, or even

networking.

5. Aesthetic and Ambiance: For some, the physical space and design of the library can be a point of pride. Alumni may describe the architecture, lighting, or even specific features like reading rooms or quiet spaces that contributed to their study habits.

6. Personal Growth and Development: Libraries often shape not just academic growth but personal growth too. Alumni might talk about how the library helped them build skills like research, critical thinking, or even time management.

7. Changes Over Time: Long-time alumni might comment on how the library has evolved since their days as students. They may mention improvements in services, resources, or the physical space that reflect the growing needs of the academic community.

8. Impact on Academic Success: Lastly, alumni may share how the library played a critical role in their academic success, from providing access to study materials to offering a space that encouraged focused work.

These reflections, shared by alumni, can provide a heartfelt and personal perspective on the library's significance in shaping their education and life experiences.

Thanking You
