## TUMOR BOARD -ANNUAL REPORT-2019

Date-30/12/2019

The tumor board meeting gathered regularly to discuss cancer cases which are difficult and challenging. The goal is to decide the best possible treatment plan for the patient. It included surgeons, pathologist, medical oncologist and onco surgeons. This is a system of multidisciplinary tumor board, where we review every new patient's case with our cancer-specific oncologists to make sure that we formulate an optimal plan for each and every patient based on their own individual needs. This translates to a much more considered, thoughtful and robust treatment plan for patients.
