Respected Madam/Sir,

Thank You for registering for the workshop : **Conduct of Journal Club** scheduled on 18th August 2021.

This activity is organized to help the faculty and PG students of MIMER to be able to critically review research articles/papers. It is also aimed to help develop more insights into writing a research paper and improve the quality.

To make the activity more interactive and beneficial, it is recommended that the participants perform an exercise before attending the workshop.

### Pre Workshop Exercise :

1. The participants are requested to read the attached article thoroughly. (attached pdf file - *Lewinson\_2017*)
2. Based on the article, enter (write/type) your comments in the attached word document "Data Table" to the best of your understanding.
3. After filling the table, take a print copy of the same and carry it to the workshop.

Note :

After successful completion of the workshop, e-certificates will be sent to your e-mail id, within seven days.

Please be seated at least 5 minutes before the session commences.

You may kindly direct your queries to [research@mitmimer.com](mailto:research@mitmimer.com)

Regards.

Respected Madam/Sir,

A workshop was conducted on 18th August 2021 to discuss the methodology for reviewing a research article, and conducting a journal club activity.

Based on the above, a working template has been prepared to help the respective departments in carrying out the discussion during the Journal Club.

It is recommended that an A3 printout of the same be made, and displayed in the respective departmental seminar hall. You may also convey in advance the date, time and venue of the journal club activity, so that the Research Consultant/member from DCRIC can also attend the same and give inputs.

Regards.

DCRIC, MIMER

Respected Madam/Sir,

A surge in the cases of Mucormycosis has been observed in COVID-19 patients. A multidisciplinary approach is essential for screening, diagnosis and timely management of this life threatening condition.

An academic session on "Mucormycosis-An emerging challenge on COVID-19" is arranged on 9th June 2021, between 2 to 4pm, at Sushrut Hall for all faculty members, residents and Interns.

The following departments are requested to depute on faculty to speak on the said topic with relevance to their subject.

1. ENT
2. OPHTHALMOLOGY
3. DENTISTRY
4. MICROBIOLOGY
5. PATHOLOGY
6. RADIOLOGY

The time slot allocated to each speaker would be 15 minutes.

Kindly send the names of the speakers by tomorrow (5th June.) to this e mail id.

Respected Madam/Sir,

Department of Clinical Research & Incubation Center will be organizing a workshop titled: "*SELECTION OF JOURNAL: Targeting the right journal for publishing your research*".

This activity is a part of the continuous faculty enrichment programs conducted by the institute. This interactive workshop aims to help the researchers understand the various aspects to look for in a biomedical journal, and find the one that is most appropriate for publishing their research work.

All member of faculty and PG students (MIMER & Physiotherapy College) are invited to participate in the same.

Date : 30<sup>th</sup> March 2021 (Tuesday)

Time : 2:15 PM

Venue : *Sushrut Hall*

The other details, including the active link for registration is mentioned in the attached flyer (soft copy).

Respected Madam/Sir,

1. The MUHS is expected to issue a notification regarding submission of the synopsis for dissertation for the 1<sup>st</sup> year PG students.
2. In lieu with that, a workshop was conducted to orient the PG students on the basics of methods in clinical research, on 4<sup>th</sup> & 5<sup>th</sup> November 2020.
3. In accordance with the feedback received from various students, PG guides and senior faculty members, follow-up meetings with the research committee for the same have been arranged.
4. These meetings are meant to personally/ individually guide the PG students on the methodological aspects of the research. Students would be able to personally discuss their proposals.
5. **We request the PG students to attend the meeting according to the below-mentioned schedule, along with their respective PG guide.**
6. The soft copy of the research proposal should be submitted to [research@mitmimer.com](mailto:research@mitmimer.com) at least THREE DAYS before their scheduled meetings for the RC to study it. Failing this, it would not be possible to discuss the projects in the meetings.
7. The proposals should be submitted to RC only in the below-mentioned format.
8. It is expected that the dissertation titles and proposals are elaborately discussed in the respective departments and inputs from subject experts are taken along with that of the PG guides.
9. Calculation of sample size can be separately done after taking appointment of Dr.Swati Raje madam, Statistician & Asst.Professor, Community Medicine. This can be done either before or after the meetings with the Research Committee.
10. In case of inability to attend/changes, kindly inform three days prior to the meeting.

Note : The proposals will also have to be submitted to the Institutional Ethics Committee in the 'IEC format' at a later date, which will be conveyed by the IEC.

searching for articles

Doubt clearing

way of presentation

The idea itself

Dr Digant and Dr Varoon sir's lectures were crisp and concise. Dr Rathod's lecture could have been slightly shorter. Rest all great

Mainly I wanna highlight ,Literature search and Study designs, it's going to help alot while preparing dissertation And it helped in how to approach one's dissertation. I thank all faculties for their hard work putting for us and making it easily assessable to us.

Time to time discussions and answers

## How would you improve this course?

less time

none

By making things little bit less complicated

It is complete in all aspects. We should have these lectures more regularly since research is very vast and our teachers are very supportive in research.

Instead of giving a well established example try to take a thesis topic of a student and explain in its way

So it will better understand

Not all but few can be done

Presentation by Derek sir and digant sir

Language was easy to understand,lectures were very informative,teachers are very knowledgeable

Points for synopsis of desertion covered

Lecture about various search engine

Lecture on study type

And lecture on how to search attach and save the references

Introducing to endnote

## How would you improve this course?

Should be a little slow

Technical arrangement

Experiment on topics of every individual students .

Statistical things should be started with more basic and through its already has its own difficulty level

And instead of taking random example

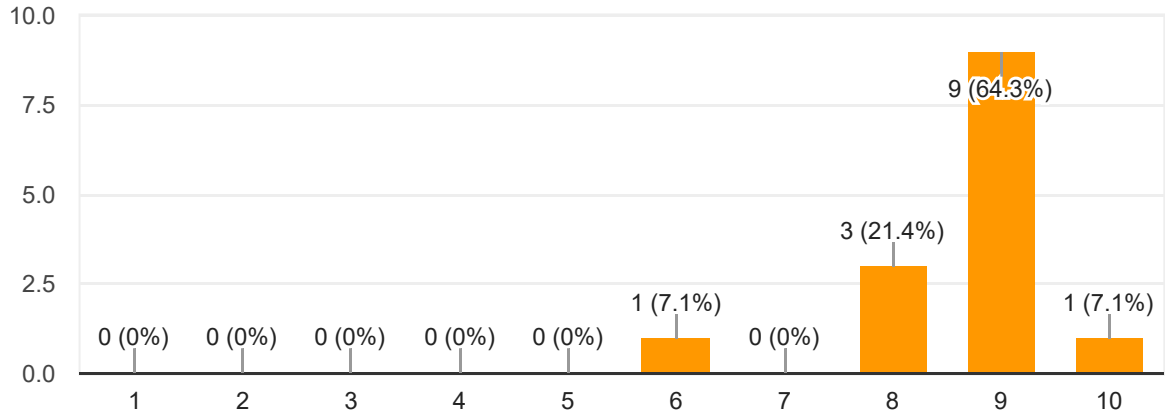

If someone's project sample size and all statistical data may be calculated it would be easy to understand it's limitations and how it really works

More regularly sessions

Respected Madam/Sir,

This is a kind reminder about the appeal made by the institute on 2nd October, to submit a research proposal from your department pertaining to COVID-19.

To put some more light on writing of a research proposal, Department of Clinical Research and Incubation Centre has organized a talk titled- ***"How to Develop a Research Proposal?"***

**Date : 20th October '20, 2.30PM (Tuesday)**

**Venue: Sushrut Hall**

(Details in the attached flyer)

It would be an interactive session that aims to help the faculty and students develop a research proposal that is novel, methodologically robust, and has important clinical and/or public health implications, making it publishable in reputed journals.

You and members from your department are invited to attend the same.

The session is **compulsory** for the **PG students** and **PG guides**, and will help them in the process of submitting the dissertation synopsis.

Kindly send the list of residents/faculty who won't be able to attend the same because of being currently posted on COVID duties.

Regards.

Respected Madam/Sir,

As the world is fighting a war against the pandemic of COVID-19, the medical fraternity is facing some unprecedented challenges. There are many anxieties and doubts among the young and the aspiring doctors as well. To address a few of them, Department of Clinical Research & Incubation Center MIMER Medical College, is organizing a webinar titled - "*The Soldiers in White coats - Bracing for the emerging challenges*" on the **21<sup>st</sup> of July 2020, 3 PM to 4 PM.**

The guest speaker for the session would be :

**Lt Gen (Dr) Madhuri Kanitkar, AVSM, VSM**  
MD, DNB (Paediatrics)  
Dy. Chief Integrated Defence Staff (Medical), HQ IDS  
Prime Minister's Science, Technology & Innovation Advisory Council  
Member, Board of Governors in supersession to Medical Council of India

We invite you and members from your department to join for the same and participate in the session.

The guest speaker has consented to take a few questions related to the topic from the faculty and students from various medical colleges, and will address them during her talk.

These questions can be sent to the below mentioned e-mail id on or by 19<sup>th</sup> July 2020, 2PM

**WEBINAR**

**TOPIC**

*"The Soldiers in White coats - Bracing for the emerging challenges"*

Tuesday, 21st July 2020 3 to 4 PM

Guest Speaker : **Lt Gen (Dr) Madhuri Kanitkar, AVSM, VSM**

**QUESTIONS FROM THE PARTICIPANTS**

1. *We doctors are neither trained nor prepared to work in life-threatening conditions. We are not complaining, but accept that we are going through an unprecedented stress. How should we deal with it and motivate others as well?*
2. *With the news channels and social media continuously projecting worst case scenarios, there is a fear psychosis among the people as well as the doctors. What can be done to alleviate this fear especially among health care workers?*
3. *Why is there a general perception that the government machinery/hospital administrations are not standing beside the healthcare workers, who are the frontline soldiers in this 'war'?*
4. *How will OPD practice change in the coming times and how to prepare for it?*
5. *How to handle the challenge of managing practice in low resource settings, where materials eg. disposables may not be easily available or affordable*
6. *Will tele-consultations/ telemedicine be the new norm? How far feasible?*
7. *How should doctors prepare themselves to be more tech savvy in regards to patient interactions*

8. *Should a part of the syllabus be taught Online as a routine? So that in a similar situation, both the teacher and student is accustomed to using technology..... same for exam conduction*
9. *In some institute due to COVID workload, very few classes/ no online classes are conducted, whereas some colleges have regular online classes going on. Can there be a common platform where undergraduate students from all colleges can log in and attend classes?*
10. *As an editorial in Lancet stresses: “health-care workers, unlike ventilators or wards, cannot be urgently manufactured or run at 100% occupancy for long periods.” Isn’t it vital that governments see health-workers not simply as pawns to be deployed, but as human individuals? What steps need to be taken?*
11. *Even though the doctors are trying their best but people are not obeying the instructions. Is it possible for our doctors to fight with corona and make a corona free country where people are themselves not much concerned?  
-Ipsita Senapati*
12. *Madam, can u please comment on the conduct of online examinations its pros and cons and if offline examinations have to be taken in future what precautions and safety measures will be taken to ensure student as well as teacher safety during this pandemic.  
- Sudnya Malode*
13. *Madam, can you please brief us about our exams and the way they will be conducted in this pandemic situation? Is there any information about NEXT exam that you would like to share?  
- Chaitanya Bhujbal*
14. *What advice would you like to give to the aspiring medical students of the present generation about joining the defence forces?  
- Mohammad Anas*
15. *Madam, can you please comment on how do you cope up with the stress during emergency major crises?  
- Rutuja Shejul*

*16. Its human tendency to get upset on failures, what was your mantra to stay motivated in the entire process. And how would you guide the youngsters of our nation to stay motivated and be successful in life?*

*- Chaitanya Bhujbal*

*17. You are an inspiration for the girls of our country. As we know the defence sector is fairly male dominated so I'd like to ask you if there were any challenges that you faced as a woman while making your mark and how did you overcome them?*

*18. And how is the field changing, for women in particular in terms of opportunities? (since you have been a part of field for so many years now)*

*- Mrinal Bhor*

*19. It is difficult to be a parent of a medical student in these times. What will be your tips for parenting of a medical student?*

*20. What are the ethical issues being faced currently by the doctors treating COVID patients as we see the medicines and the bed availability is in more favour of VIP and rich than the poor?*

*21. Without graduating from the AFMC, is there any other way for civilians to serve in the Indian Army as medical practitioners?*

## Activity Report

**Department** : Clinical Research and Incubation Center  
**Activity** : Workshop on Reference Management Software  
**Speaker:** Dr Digant Gupta, Dr Varoon Jaiswal, Dr Swati Raje  
**Date:** 2<sup>nd</sup> July 2020  
**Duration** : From 11 am onwards : 36  
**Participant** : No. of Faculty: 36  
No. of Students:

### Objective of the activity:

When writing a manuscript of a research paper, RMS helps the researchers find relevant literature, allows storage in a personal database for later retrieval, and insertion of citations & references in a chosen style. Live demonstration of Mendeley Software and End Note Reference management software's done.

### Outcome of the activity:

The participants became aware of the software's available for Reference Management. Hands on experience helped them clarify their doubts better.

## Activity Report

**Department:** Department of Clinical Research and Incubation Centre

**Activity:** Webinar on Data Entry and Analysis

**Duration:** 29<sup>th</sup> Jun 2020, 11:00 am to 12:30 pm

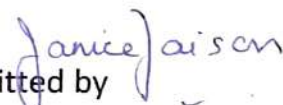

**Participants:** Total registrations 183

**Objective of Activity:** On the occasion of National Statistics Day, Webinar on Data Entry and Analysis was organized by Department of Clinical Research and Incubation Centre to teach basics of Data Entry and Analysis which are the two vital parts of a clinical research in order to make the study more effective.

The Resource faculty were Dr Swati Rajee PhD , Asst prof Dept of Community medicine and Dr Digant Gupta , MBBS, MPH(USA) , Clinical research Consultant MIMER Medical College.

**Outcome of activity:** The Webinar was very well appreciated by all the participants. It was followed by interactive question answer session. Participants also suggested conducting Hands on training for data analysis.

**Subject: MUHS Foundation Day - Webinar on 10<sup>th</sup> June 2020**

Respected Madam/Sir,

The year 2020 will be the watershed line in the history of healthcare, after which the world would realize that 'medical research' is the most potent tool with humanity in its fight for survival. At present, our country is making a significant contribution to the world in terms of medical research, but given its enormous potential, it can contribute much more to the global medical knowledge.

For that, there is an urgent need for all the medical institutes to come together and approach clinical research with a new outlook. Maharashtra, with more than fifty medical colleges (MBBS) and many other institutes of excellence, has all the potential to become a pioneer of medical research in the country.

With the aim of inculcating a research culture and improving the quality of existing work to international standards, our institute has formed a 'Department of Clinical Research and Incubation Center' with a team of some dedicated research scientists. We are also aware of the specialized and well-equipped Central Research Lab that is doing pioneering work in basic medical research – particularly in nano-robots and cancer, with grants from BIRAC, DST, & DBT, Govt. of India.

On the occasion of the 22<sup>nd</sup> foundation day of our university on 10<sup>th</sup> June 2020, and with the support from the MUHS, we are organizing a webinar to sensitize and stimulate the faculty/students of the medical institutes of the state, on the urgent need and the ways of clinical research. We wish to invite you and members of your institute to attend the same.

Hon'ble Vice Chancellor of MUHS, Prof.Dr. Dileep Mhaisekar has consented to give us his valuable guidance on this occasion.

**Date** : 10<sup>th</sup> June 2020 (Wednesday)  
**Time** : **12:15 to 1 PM**  
**Topic** : Role of Medical Institutes in Clinical Research in India - Need for a new outlook in Post-COVID era  
**Recommended for** : All the faculty and students  
**Keynote** : Hon'ble Vice Chancellor, MUHS  
**Speaker** : Dr.Digant Gupta, MBBS, MPH (Illinois,USA)

## **Activity Report**

Department - MIMER Student's Research Council

Activity - Research for All - 2020

Duration - 30th May, 2020

Participant -

No. of faculty - 7

No. of Students - 100

Objective of Activity - To teach the student researchers, how to present their research.

Outcome of Activity - Positive reviews were received from the participating students. The event helped them understand the manner in which a research has to be presented, in the form of a powerpoint and poster. They also received tips and tricks regarding their postures and gestures while presenting research, how to select apt fonts, design styles, images and in what order to arrange the slides to create an impactful presentation for their research. As the organizers, of the first digital symposium, a few technical glitches were face, which were resolved in the subsequent webinar of 6th June, 2020.

Activity - Research for All - 2020

Duration - 6th June, 2020

Participant -

No. of faculty - 7

No. of Students - 24 presenters

Objective of Activity - To encourage and provide student researchers a platform to present their research as a practice, so as to gain constructive criticism from the esteemed panel of judges.

Outcome of Activity - The presenters appreciated the organisation of the event, because they learned a lot from the experiences of the fellow judges. The activity helped researchers acknowledged their mistakes, better their presentation and it also encouraged students to participate in further national/ international events to present their research and to even advance their study. Not only the presenters, but also the viewers of the said webinar appreciated the event and gained a lot of knowledge.
