CODE OF CONDUCT

**MAHARASHTRA INSTITUTE OF
MEDICAL EDUCATION AND RESEARCH
(MEDICAL COLLEGE)
TALEGAON DABHADE-410507**

CODE OF ETHICAL CONDUCT STUDENTS & FACULTY

(Amended date: Jan 2020)

CODE OF ETHICAL CONDUCT FOR STUDENTS AND FACULTY

INTRODUCTION

This Code of Ethical Conduct for Students and Faculty has been prepared to provide a well-defined declaration of the Institution's expectations of students in respect of academic conduct and personal behaviour.

It aims to cover the interdependent duties, rights and responsibilities of faculty and students. In addition, it aims to encourage timely reflection and considerate response to ethical concerns. These are the guiding principles to ethical conduct and to identify major issues.

Code of Ethics for students – Core values

This section aims to presents broad values and ethical principles.

Integrity

Integrity is defined as, "Adherence to moral and ethical principles; soundness of moral character; honesty". A person with integrity is totally honest and truthful in every part of their life.

Students with integrity will work hard to earn their degrees in a fair and honest way by putting in the hours to study and complete assignments. If students use unfair means in their evaluation, their integrity is lost; the value of their degree is reduced and the morals of the individual are compromised. This will also guide the student in the way that he/she will function later in life.

Respect

Respect is a feeling or understanding that someone or something is important, serious, etc., and should be treated in an appropriate way. Being respectful towards people is a key aspect in life in order to form and maintain positive relationships in order to become successful. If you treat them with kindness, they will be respond with kindness. One way to show respect towards other people to treat others the way you would want to be treated. This is the Golden Rule.

Broadmindedness

Being broadminded means you have an openness to other's ideas and opinions and consider the possibility that you may be wrong or need to change your own perspective. An atmosphere of open-

mindedness will encourage mutual understanding, ensuring that students work constructively and co-operate with each other towards attaining shared goals, despite minor personal differences.

Discipline

Discipline means willingness to follow certain rules and orders. Discipline is important to avoid chaos and disorder in society.

It is important for all individual to have self-restraint and to behave in a suitably restrained and regulated manner.

Tolerance

Tolerance is the willingness to accept feelings, habits, or beliefs that are different from your own. Tolerance helps us to see the world from the perspective of others, not just your own.

Tolerance an effective and sustainable way of ensuring that everyone accepts and respects diversity of thought action, religious belief, customs, dress etc.

Team spirit

Team spirit can be defined as when the members of a group want the team to succeed. Team spirit improves the ability of individuals to work together and boosts morale. All students will benefit from committed teamwork. Working as a team means actively listening to each other's ideas and accept constructive criticism.

Responsibility

Responsibility is one of the traits of our character which means that a person is able to respond for his actions, is able to take some duties and to face certain consequences of the actions that may occur. Responsibility should be cultivated and become an integral part of one's personality. Responsible people can be trusted and relied upon by everyone.

These values form the background of the Code of Ethical Conduct for Students and Faculty for this academic institution. This will ensure that every student is aware of what they should and what they should not do. Students are expected to adhere to and practice the Code of Ethical Conduct for Students and Faculty at all times while they are part of this institution.

Student responsibilities towards the institution.

The Code of Ethical Conduct for Students and Faculty defines the rights and students' responsibilities. These rights and responsibilities form the basis of the relationship between faculty, administrative staff and students. Students have responsibilities towards faculty, administrative staff and other students as well. This institution recognizes and values student diversity, experiences and expectations, and is committed to treating students, both academically and personally, in a fair and transparent manner. All students, in return, are required to comply with the requirements set down in this Code of Conduct. The specific responsibilities are further laid down as:

Responsibilities towards faculty:

In order to establish a perfect cohesion within the institution, students have certain obligations towards their faculty. Some of these are:-

Submission of assignments

It is important that students submit all their assignments on time so that the teachers can carry out their assessment and the students are not penalized for late submission.

Punctuality

Punctuality is a principle that is important as it reflects the importance of time management and underlines the respect of each other's time. Being on time means that all events start and end at the designated time and this helps in the smooth conduct of all events and reduces the requirement of reminders and messages to be on-time.

Mutual Respect

Mutual respect for each other, civil behaviour at all times and politeness may seem obsolete and are often ignored. Mutual collaboration, shared responsibilities and harmonious relations are very important values that students should share.

Academic theft and plagiarism

In this technologically advanced world where 'cut-copy-paste' has become the easy way out it is important to understand and respect academic or intellectual property rights. There are software programmes that allow plagiarism check and students must be trained not to pass off others people's work as their own. This also

helps in development of moral and ethical behaviour of the students. Some of the other good and ethical practices are:

- a. Responsibly conduct research by following all statutory and ethical norms;
- b. Desist from indulging in plagiarism viz. the practice of taking someone else's work or idea and passing them as one's own;
- c. Obtain requisite prior permission from the cited author/publisher, wherever necessary;
- d. Properly attribute and acknowledge the source of information in a manner consistent and compatible with the needs and specifications of the respective discipline and in accordance with the rules, regulations and conventions governing the source;
- e. Ensure that manuscripts are checked for originality using plagiarism check software.
- f. While submitting a dissertation or project report, also submit an Undertaking specifying that the same has been prepared by him/her and that it is original work which is free from plagiarism.

Discrimination and Ragging

The institution has a strict and zero-tolerance policy towards ragging. It supports and adheres to the the Anti-Ragging efforts laid down by the Central Govt and University and the college anti ragging committee is responsible to ensure that ragging does not take place in any form or manner. Any sort of discrimination or a difference in treatment between two persons is neither accepted or practiced in this institution.

Responsibilities towards administrative staff

It is mandatory that Students and their guardians treat all institutional employees, honorary appointees, consultants, volunteers any other members of the public and other students with respect, dignity, impartiality, courtesy and sensitivity and maintain a cooperative and collaborative approach to inter-personal relationships at all times. They should act honestly and ethically in their dealings with any of the appointed staff and follow the orders and instructions as laid-down from time to time.

Dress code

The institution has a 'college uniform' that has to be worn by all students as per the laid down instructions. All students are

expected to be suitably dressed at all times appropriate to an educational institution. In short, the dress code of the students at all times must meet the criteria of decency.

In some parts of the institution additional dress code may be imposed or strictly prohibited. This is in case in laboratories, or sport premises. These are meant as a health and safety issue for students.

Care of college infrastructure and environment

The environment in which the students live is the premises of the college. Students have a moral duty to respect the local and the entire public domain. They should refrain from doing anything to damage or degrade the college infrastructure, not steal any public property etc. Suitable fines or repair costs may be imposed on the student or students if they are found guilty of willful damage to property or surroundings. Students are also expected to maintain general cleanliness of their surroundings both in college and the hostels.

No smoking on campus

Smoking is banned by law in public places and the college premises as well. This is not only to preserve personal health of the students but also save them from the ill-effects of second hand or passive smoking.

Care in use of laboratories and lab materials

Students are allowed to use laboratory equipment, computers or technical equipment as part of their learning process. Due care and precaution to avoid damage to the equipment or to the student themselves is to be ensured and all instructions of the faculty in charge to be followed strictly.

Outside the institution

The application of ethical codes is not confined to internal use at the institution. Students are representatives of their university outside of the university and must therefore behave in the same way even while travelling to and from the college; attending or representing the college at other competitions, events programmes etc. This reflects well and helps to maintain the good reputation of the institution

Students who participate in activities outside the university must behave in a manner consistent with their role as a representative of the university. This can be during stays abroad, as part of exchange in partner universities, internship in other colleges or even abroad. This requires good behavior at home or abroad, showing the knowledge acquired and speaking well of the university and the city of origin.

Code of Ethical Conduct for Faculty

(a) All faculty teacher should strictly adhere to legitimate academic and administrative decisions taken by the authorities of the college/University pertaining to their sphere of responsibility/duties.

(b) No faculty shall discriminate against a student on political grounds for reasons of race, religion, caste, language or sex or for other reason of an arbitrary or personal nature and shall not incite students/teachers against other students or other teachers, colleagues or administration/Governing body of the college.

(c) A teacher shall not remain absent from duty without proper sanction of leave except in case of emergency.

(d) A teacher shall refrain from indulging in any form of scientific publication or presentation in any forum or illegal journal that would prove to be detrimental to the reputation and the progress of the college.

(e) A teacher shall perform his/her academic duties and work related to examinations as assigned. Remuneration, where prescribed shall be payable as per instructions laid-down by the University.

(f) All faculty should ensure that they should not misuse the facilities or forum of the college/University.

(g) A teacher shall not make use of the resources and/or facilities of the Department or College for personal, commercial, political or religious purposes.

(h) A teacher shall not be partial in assessment of a student or deliberately favour, discriminate or victimize a student on any grounds.

(i) A teacher shall not indulge in or resort to directly or indirectly any malpractice or unfair means in teaching/examination/administration.

Any faculty member/student found guilty of contravening this Code of Ethical Conduct for Students and Faculty shall, after following the due procedure laid down in this regard, be liable for the appropriate penalties as specified by enactments/regulations/guidelines for the time being in force.

Dr (Col) RP Gupta

Activity report

Department :- Anaesthesiology

Name of the activity:- Orientation workshop for Post graduate Students (JR1)

Duration of Activity: 2 Days

1st Day (02/11/2020)

Participants: 1) No. of Faculty: 28
2) No. of trekkers: 23

2nd Day (03/11/2020)

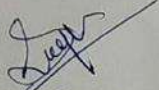

Participants: 1) No. of Faculty: 18
2) No. of trekkers: 17

Brief description of the activity:

Dept. of Anaesthesiology along with the Dept. Of Orthopaedics and Dept. of Surgery had conducted an orientation workshop for PG students (JR1) for two days i.e 2nd & 3rd November 2020 .

The workshop was inaugurated by Executive Director Dr. Suchitra Nagare Madam. Conclusion remarks were given by Dr. Suchitra Nagare Madam and Principal sir Dr. Rajendra Prasad Gupta. The programme was attended by PG students (JR1), faculty and administrators. Dr. Shilpa Gurav (Prof. & HOD) delivered a lecture on 'Sanctity of the Operation Theatre' which included brief orientation regarding OT protocols. Participants were given Hands on training of Basic Life Support & Airway management on mannequin. The programme was successfully conducted to the satisfaction of PG students, the faculty and administrators.

Feedback by post Graduate student is given as excellent workshop with some suggestions and comments – a view that the programme was very educative with workshop dealing with casualty emergency cases of different specialties.

Respected Madam/Sir,

This is a kind reminder about the appeal made by the institute on 2nd October, to submit a research proposal from your department pertaining to COVID-19.

To put some more light on writing of a research proposal, Department of Clinical Research and Incubation Centre has organized a talk titled- **"How to Develop a Research Proposal?"**

Date : 20th October '20, 2.30PM (Tuesday)

Venue: Sushrut Hall

(Details in the attached flyer)

It would be an interactive session that aims to help the faculty and students develop a research proposal that is novel, methodologically robust, and has important clinical and/or public health implications, making it publishable in reputed journals.

You and members from your department are invited to attend the same.

The session is **compulsory** for the **PG students** and **PG guides**, and will help them in the process of submitting the dissertation synopsis.

Respected Madam/Sir,

Department of Clinical Research & Incubation Center is conducting a workshop for PG students (JR-1) and their PG guides on **ORIENTATION TO METHODS IN CLINICAL RESEARCH :**

PART 1 – DEVELOPMENT OF SYNOPSIS on 4th & 5th November 2020.

This is to help the PG students of 2020 batch in developing their respective dissertation for synopsis.

Kindly go through the attachment for details.

Please inform the concerned students and PG Guides in your department and kindly relieve them for their work during the above period.

Regards.

Dr. Janice Jaison

BROCHURE- WORKSHOP TO ORIENTATION TO CRL

Activity Report

Department : Central Research Lab, 3rd Floor, College Building
Activity : Workshop on Orientation to Central Research Laboratory
Duration : Dates: 9th, 11th, 14th & 16th December 2020
Time: 2:45 to 3:30 PM
Participant : No. of Faculty: 4 1. Dr. Shashwat Banerjee (Head)
2. Dr. Yuvraj Patil
3. Dr. Govind Chate
4. Dr. Chinmay Rahane
No. of Students: 22

Objective of the activity:

The objective of the workshop was to introduce PG students of MIMER Medical College to research currently being pursued in Central Research Laboratory (CRL) and the facilities available.

Outcome of the activity:

The students learned about scientific concepts and the basic skills required to work in a lab. Many students showed interest in joining CRL as they were impressed with the facility and research culture in CRL. During the Q&A session, they showed immense interest in knowing more about research and steps they should take to start a career in research.

CIRCULAR-DISSERTATION SYNOPSIS

Respected Madam/Sir,

1. The MUHS is expected to issue a notification regarding submission of the synopsis for dissertation for the 1st year PG students.
2. In lieu with that, a workshop was conducted to orient the PG students on the basics of methods in clinical research, on 4th & 5th November 2020.
3. In accordance with the feedback received from various students, PG guides and senior faculty members, follow-up meetings with the research committee for the same have been arranged.
4. These meetings are meant to personally/ individually guide the PG students on the methodological aspects of the research. Students would be able to personally discuss their proposals.
5. **We request the PG students to attend the meeting according to the below-mentioned schedule, along with their respective PG guide.**
6. The soft copy of the research proposal should be submitted to research@mitmimer.com at least THREE DAYS before their scheduled meetings for the RC to study it. Failing this, it would not be possible to discuss the projects in the meetings.
7. The proposals should be submitted to RC only in the below-mentioned format.
8. It is expected that the dissertation titles and proposals are elaborately discussed in the respective departments and inputs from subject experts are taken along with that of the PG guides.
9. Calculation of sample size can be separately done after taking appointment of Dr.Swati Raje madam, Statistician & Asst.Professor, Community Medicine. This can be done either before or after the meetings with the Research Committee.
10. In case of inability to attend/changes, kindly inform three days prior to the meeting.

Note : The proposals will also have to be submitted to the Institutional Ethics Committee in the 'IEC format' at a later date, which will be conveyed by the IEC.

Research Committee A

- Dr Digant Gupta
- Dr Janice Jaison
- Dr Shashwat Banerjee
- Dr Darpan Maheshgauri

Research Committee B

- Dr Swati Raje
- Prof. Varoon Jaiswal
- Dr Yuvraj Patil

Schedule for the meetings with the Research Committee.

Session 1 : Research Committee A

24th November 2020 (Tuesday), Time : 11 am to 1pm

1. Yadav Sunil Ramgarib (Ortho)
2. Patil Shantanu Hemant (Ortho)
3. Gore Manal Shyam(Ortho)

Session 2 : Research Committee A

24th November 2020 (Tuesday), Time : 2 to 4 pm

1. Bamane Pratik Dattatray (Gen.Surgery)
2. Patil Ajinkya Vishwanath Patil (Gen.Surgery)
3. Borade Kadambari Subhash (Gen.Surgery)

Session 3 : Research Committee B

25th November 2020 (Wednesday), Time : 11am to 1pm

1. Gadkar Shubham Suraj (Dermat)
2. Urvi Narendra Bhai Patel (Medicine)
3. Kanawade Tushar Shrikisan (Medicine)

Session 4 : Research Committee B

25th November 2020, Time : 2 to 4 pm

1. Bahekar Sujit Vishwanath (Ophthal)
2. Kumbhar Varsha Vasudeo (ObGy)

Session 5 : Research Committee A

26th November, Time : 11am to 1pm

1. Kasture Rachana Laxman (Gen.Surgery)
2. Gandhi Rishabh Dilip (Gen.Surgery)
3. Vaidya Shubhada Sanjay (Gen.Surgery)

Session 6 : Research Committee A

26th November, Time : 2pm to 4pm

1. Patil Abhishek Govind(Ortho)
2. Hegde Vijith Balkrishna (Ortho)
3. Iyer Kavya Kumar (Ortho)

Session 7 : Research Committee B

27th November, Time : 11am to 1pm

1. Phulsunge Sunetra Dilip (Medicine)
2. Khan Mohammad Aqib Imtiyaz (Medicine)
3. Nagaonkar Nandan Manishee (ObGy)

Session 8 : Research Committee B

27th November, Time : 2 to 4pm

1. Gulhane Avani Anil (Dermat)
2. Padwal Viraj Sudam (Ophthal)
3. Dhande Sayali Suresh (Patho)

Venue for meetings: A-139, Ortho Dept. Library

E mail for communication : research@mitmimer.com

Respected Madam/Sir,

Department of Clinical Research & Incubation Center will be organizing a workshop titled: "*SELECTION OF JOURNAL: Targeting the right journal for publishing your research*".

This activity is a part of the continuous faculty enrichment programs conducted by the institute. This interactive workshop aims to help the researchers understand the various aspects to look for in a biomedical journal, and find the one that is most appropriate for publishing their research work.

All member of faculty and PG students (MIMER & Physiotherapy College) are invited to participate in the same.

Date : 30th March 2021 (Tuesday)

Time : 2:15 PM

Venue : *Sushrut Hall*

The other details, including the active link for registration is mentioned in the attached flyer (soft copy).

ACTIVITY REPORT - WORKSHOP ON SELECTION OF JOURNAL
 ON 30/03/21

Selecting the right journal

- The process of selecting an appropriate journal has become increasingly complex due to:
 - Proliferation of journals
 - Rise of hybrid journals
 - Emergence of interdisciplinary topics
- Carefully selecting the journal to which to submit your manuscript greatly reduces the chances of rejection of your work and saves you a lot of valuable time.

**WORKING TEMPLATE FOR REVIEWING A RESEARCH ARTICLE/
CONDUCT OF A JOURNAL CLUB**

Credits: Dr Digant Gupta, MBBS, MPH (Illinois, USA)
Clinical Research Consultant, MIMER

No.	Questions
1.	Primary objective of the study
2.	Primary research hypothesis
3.	Was the literature review adequate? Why or why not?
4.	Study design
5.	Sample size
6.	Study setting
7.	Study time frame
8.	Key exposure or independent variable with its definition
9.	Key outcome variable with its definition
10.	Statistical technique used for the analysis of the primary objective
11.	Key results pertaining to the primary hypothesis of the study (include both univariate and multivariable results)
12.	Factors adjusted for in the multivariable analysis
13.	What the clinical implications of the study's findings?
14.	Final conclusion of the study
15.	Strengths of the study
16.	Limitations of the study
17.	Did the authors compare their study's findings with findings from other studies?
18.	Is the study reasonably sound? Why or why not?
19.	Does the study make a useful contribution to the literature? Why or why not?
20.	What are the avenues for future research in this area?

Respected Madam/Sir,
A workshop was conducted on 18th August 2021 to discuss the methodology for reviewing a research article, and conducting a journal club activity.
Based on the above, a working template has been prepared to help the respective departments in carrying out the discussion during the Journal Club.
It is recommended that an A3 printout of the same be made, and displayed in the respective departmental seminar hall. You may also convey in advance the date, time and venue of the journal club activity, so that the Research Consultant/member from DCRIC can also attend the same and give inputs.
Regards.

DCRIC, MIMER

ACTIVITY REPORT

1.	Name of the activity	Workshop- Conduct of Journal Club
2.	Organizing department/s	Department of Clinical Research & Incubation Center
3.	Name of the Head of department/ Event in-charge	Dr Janice Jaison Dr Darpan Maheshgauri
4.	Date & Time	18 th Aug 2021, 2.15 to 3.45 pm
5.	Venue / Place	Sushrut Hall, MIMER Medical College
6.	E mail / Circular / Notification about the event (mentioning Date, time, venue, guest, speaker, faculty etc.)	Attached
7.	Pamphlet (if any)	Attached
8.	Total number of participants/beneficiaries	80
9.	Attendance (if applicable)	Attached
10.	Faculty / Medical team	Dr Digant Gupta
11.	Coloured geo-tagged photos (2 to 4)	Attached / Not attached
12.	Brief summary of the event in around 100 words (purpose, conduct, feedback, impact, suggestions)	<p>Objective of the activity: An enrichment activity that aims to train the faculty and PG students on the basic elements of critically reviewing a research paper and on the effective conduct of Journal club. The faculty for this event is Dr Digant Gupta.</p> <p>Outcome of the activity: A Pre- workshop exercise was given to the participants. The Journal article given to the participants was critically reviewed and discussed by all. It was an interactive session with active participation of the faculty members and the PG students. It was decided that the template prepared and used to evaluate a research article be circulated among all the departments. This template needs to be displayed in the Seminar room/Library and for all journal club activities to be used so as to ensure that all points related to the Critical review of a research paper are evaluated in detail.</p>

Family Health Survey and Field visits
Period : September 2020 – Aug 2021

Department of Community Medicine
Report of family Health Survey

Place of Survey:- Siddharth Nagar

Date of Survey:- 26 Feb to 3 March

No of students - 25

Number of families surveyed: 42

Total number of people surveyed: 195

Male: 144

Female: 145

ANC – 1

Under five - 18

Hypertension- 13

Diabetes – 7

1. Counseling for diet and immunization was done for ANC and under five.
2. Importance and regular medicine, proper diet and checkup were told to hypertensive and diabetes. Other diseases were referred to further treatment.
3. Anthropometry of under 5 was done.
4. Health education regarding domestic purification of water, cleanliness and personal hygiene, oral health and COVID appropriate behaviour.

Department of Community Medicine

Report of family Health Survey

Place of Survey:- Thakarwasti, Vattan Nagar

Date of Survey:- 10 to 15 March 2021

No of students - 25

Number of families surveyed:36

Total number of people surveyed: 183

Male: 90

Female: 93

ANC – 0

Under five - 3

Hypertension - 2

Diabetes – 2

Asthama - 1

1. Counseling for diet and immunization was done for ANC and under five.
2. Importance and regular medicine, proper diet and checkup were told to hypertensive and diabetes. Other diseases were referred to further treatment.
3. Anthropometry of under 5 was done.
4. Health education regarding domestic purification of water, cleanliness and personal hygiene, oral health and COVID appropriate behaviour.

Report of Slum Activity Conducted by Second Year Students.

The students of MIMER Medical college conducted a slum survey in 2 slums near namely Shivaji Chowk slum area and Bhagat chawl from 13/1/2021 to 16/1/2021.

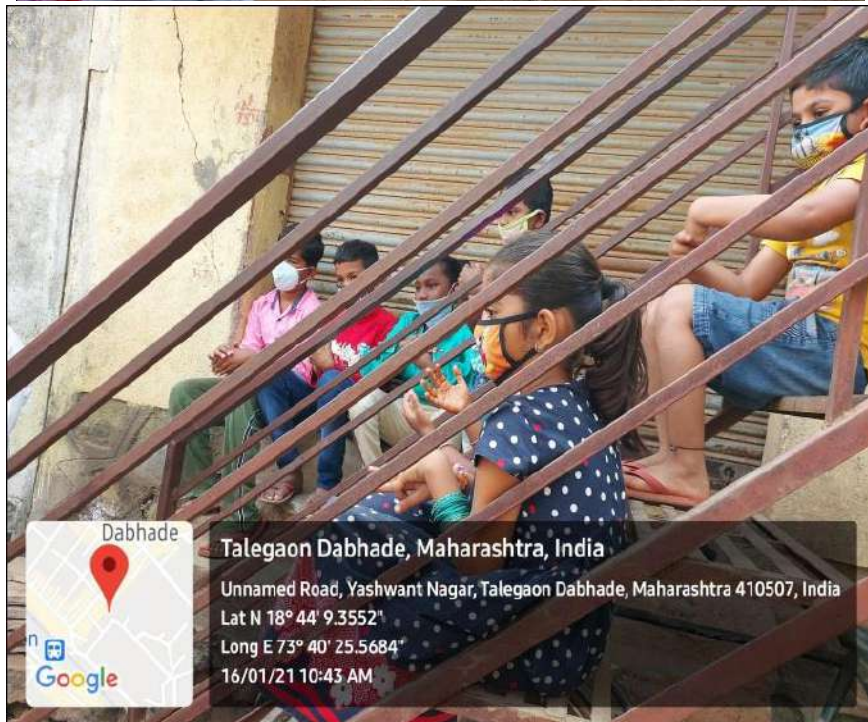

Students were divided in groups of 3-4 and each group was given one family to conduct the survey.

The activity spanned for 4 days and included the following.

1. Survey and information of all the family members
2. Basic health check up of all the school going children.
3. Education regarding ongoing corona virus pandemic and the measures to be taken to prevent infection.
4. Basic hand washing and personal hygiene
5. Street play regarding the importance of physiotherapy in treatment and rehabilitation.

The activity received a very good response from the people living in the slums. Many doubts were cleared, people became more aware of the importance of personal hygiene and routing medical checkup.

2 cases of hypertension were identified and were referred to the hospital for further treatment.

DEPARTMENT OF Community Medicine
 Visit to Nanoli village on 20/02/2021.

Nanoli Tarf Chakan, a village adopted by the MIMER Medical College and BSTR Hospital. A group of 60 students from 1st year MBBS paid a visit to the village on Saturday, 20th February, 2021. The Visit was headed by Dr. Ashlesha Dandekar (Dept of Community Medicine) and social worker Mr. Tilekar. We received great help and co-operation from the village Sarpanch, Mr. Shinde.

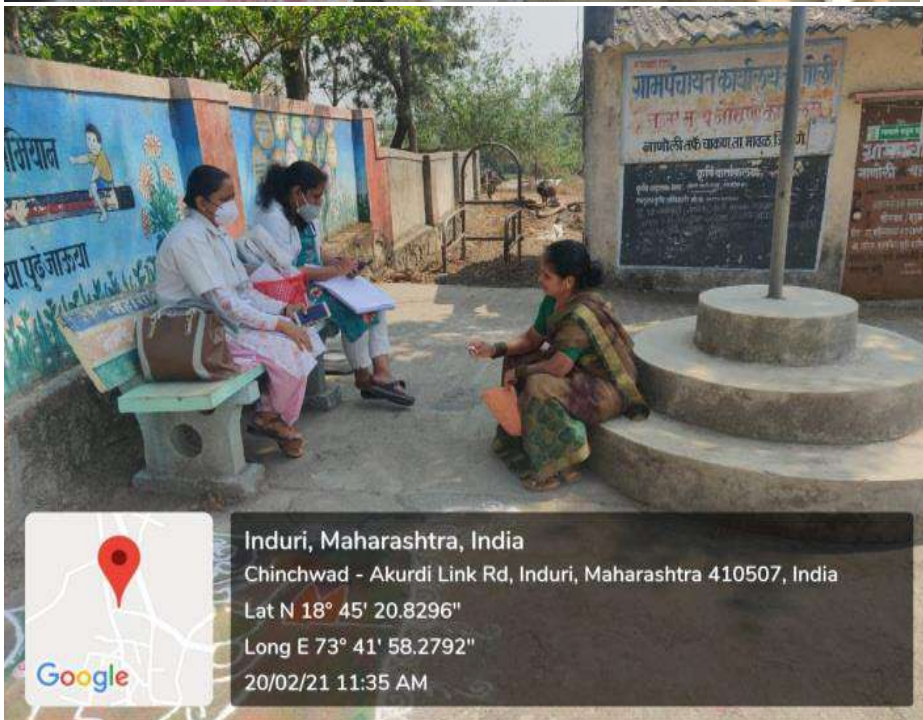

Each student was allotted a family from the village. The students were briefed about to interact with their families, take detailed information of the families, their lifestyle and living conditions, health status, etc. and also educate the families regarding various health issues and it's precautions.

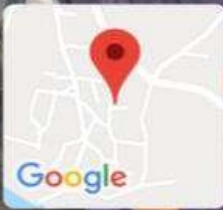

A small OPD Unit was set-up near the Gram Panchayat office wherein about 37 patients were examined and medicines dispensed. About 22 patients were

referred to Dr.BSTR Hospital for further treatment, in the departments of Ophthalmology, Medicine, Dermatology, Orthopaedics and Physiotherapy.

A small session on Oral health and hygiene was conducted by the students and Dr. Dandekar for a group of students from the primary school.

We assured the villagers that such visits would be conducted twice every month. And in case of any health issue, they could contact the respective student.

CIRCULAR-GUEST LECTURE ON BREAST FEEDING ON 05/08/21

M.I.M.E.R. Medical College, Talegaon Dabhade

Activity report

Department: Obstetrics and Gynecology

Name of the Activity: Online / Offline Guest Lecture on

"Protect Breastfeeding: A Shared Responsibility"

Duration of Activity: 3hrs.

Participants: No. of faculty: 22

No. of students: 79

Brief description of the Activity: **Guest Lecture**

"Protect Breastfeeding: A Shared Responsibility"

A guest lecture on "Protect Breastfeeding: A Shared Responsibility" was arranged by the Department of OBGY, MIMER Medical College on 05/08/2021. Professor Dr. Vaishali Korde Nayak welcomed and introduced our guest speaker Dr. Mangala Wani.

IBCLC (International Board Certified Lactation Consultant) awarded Dr. Wani took us detour from our routine obstetric practices. With her we understood "BREASTFEEDING", the natural health supplement in many different and productive ways. Our faculty, nursing staff and all the mothers learnt about the art and science of breastfeeding in a qualitative manner. "BFHI – Baby friendly hospital initiative" was now understood in genuine sense under the guidance of our astute guest speaker. Our principal Dr. Sandhya Kulkarni & Medical Superintendent Dr. P.S. Kamat graced the occasion and expressed the need to talk about breastfeeding. Vote of thanks was given by Dr. Sachin Vedpathak.

BROCHURE OF FORENSIC SCIENCE DAY ON 06/03/21

TRACE EVIDENCE

Any trace substance which could be found in scene of crime that has evidential value to link or investigate crime is trace evidence.

MURDER WEAPON:

- Collected by measuring grooves on other handprinting. It is placed carefully in the 'evidence bag'.
- The direction & depth of wound may help to know the height of offender.
- The broken edge of the weapon can tell about kind of weapon used in crime.

FINGER PRINTS:-

- The latent fingerprints are collected by application of fingerprint powder. Once print is visible on white paper by powder ink.
- It helps to identify the criminal, identity of decomposed or burnt body, identity of a person suffering from memory loss.
- It is also very important for the maintenance of records & criminal database.

HAIR :-

- Collected by plucking, shaking or scraping surface, hair also can be collected by applying tape over it surface.
- It helps to know if the hair was found around or not, if yes, collection rate is it can be used for DNA analysis.
- It also indicates if there was any change between victim & offender before the crime.

FIBRES:

- Collected from the crime scene with tweezers, tape or a vacuum.
- Fibres help to determine the contact between the suspect & victim.
- Any unusual substance present on clothes like drug etc. will help us know if the victim was drugged, that's an absolute very sensitive that actual crime scene is life.

BLOOD:-

- Collected in tubes every colour tube if present are found substance, which substance is present.
- Helps in identification of victim or offender, cause of death by detection of factors.
- Time of death, forensic serology, toxicology & forensic all can help to know the exact period of crime scene.

Respected Madam/Sir,

A surge in the cases of Mucormycosis has been observed in COVID-19 patients. A multidisciplinary approach is essential for screening, diagnosis and timely management of this life threatening condition.

An academic session on "Mucormycosis-An emerging challenge on COVID-19" is arranged on 9th June 2021, between 2 to 4pm, at Sushrut Hall for all faculty members, residents and Interns.

The following departments are requested to depute on faculty to speak on the said topic with relevance to their subject.

1. ENT
2. OPHTHALMOLOGY
3. DENTISTRY
4. MICROBIOLOGY
5. PATHOLOGY
6. RADIOLOGY

The time slot allocated to each speaker would be 15 minutes.

Kindly send the names of the speakers by tomorrow (5th June.) to this e mail id.

For more details, please feel free to contact :

Dr Janice Jaison: +917620518016

Thanking You.

Secretary,

Respected Madam,
Following Faculty in our Dept. of Ophthalmology to depute for speak on the Topic- Mucormycosis on 09.06.2021.

CIRCULAR OF CME ON MUCORMYCOSIS ON 09/06/21

9/21/21, 12:24 PM

CME on Mucormycosis - research@mitmimer.com - MAEER's MIMER Medical College Mail

in:sent mucormycosis an emerging challenge

to Department, COLLEGE, Photography, Ganesh, MIMER, it, Suchitra, Virendra, PRINCIPAL, medical

Respected Madam/Sir,

We all are aware that Mucormycosis has wreaked havoc in the country with thousands of infections during the COVID-19 pandemic. The Department of Clinical Research & Incubation Center, MIMER, has organized a CME to sensitize us

Date : 9th June 2021 (Wednesday) 2 to 3.45pm

Venue : Sushrut Hall

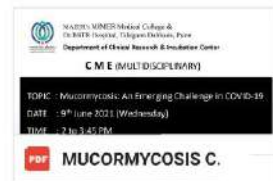

The details are given in the flyer (PFA).

You and members of your department (Faculty, PG students & Interns) are invited to attend the same.

Regards.

Dr. Janice Jaison,

Department of Clinical Research & Incubation Center

C M E (MULTIDISCIPLINARY)

TOPIC : Mucormycosis: An Emerging Challenge in COVID-19

DATE : 9th June 2021 (Wednesday)

TIME : 2 to 3:45 PM

VENUE : *Sushrut* Hall, MIMER

Post-COVID Mucormycosis is a potentially fatal fungal infection that can be devastating for the patient, who is barely recovering from a treacherous viral infection. This is nothing short of - 'from the frying pan - into the fire' scenario. Only an aggressive and a multidisciplinary approach can efficiently manage this potentially fatal condition.

This CME has been organized to present an overview of the condition from the perspective of some of the medical specialties involved in its management.

SPEAKERS :

Thu, Oct 29, 2020 at 4:36 PM

To
Head of Department
Department of Anesthesia

Subject: Request to conduct a BLS workshop for PG students

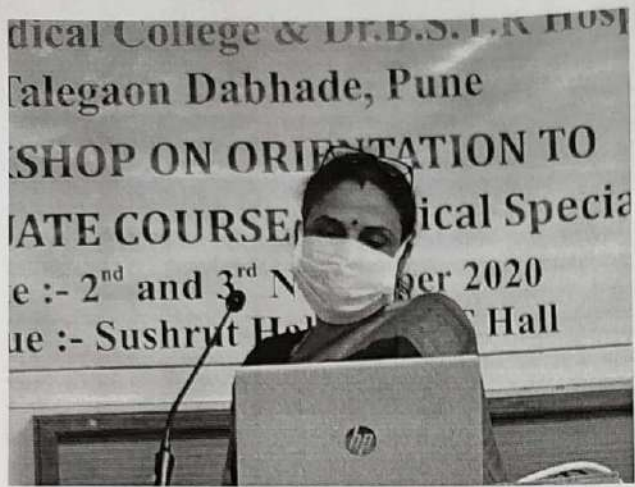

Respected Madam,
We are planning a workshop for the newly joined Post Graduate students to orient them with the working of the institute, on 2nd and 3rd November 2020.
We request you to conduct an Hands-on Training Workshop for the same.
Thanking you.

With regards

Dr Ashok Ohatker
Head of Department
Orthopedics

Request accepted & prepared for the BLS workshop
