Minutes of the IPvC meeting held on 29/06/2018.

- 1) The honorable Principal, Dr. Col. R. P. Gupta Sir, had presided over this meeting. Dr. Wagh welcomed all the members and briefed about the meeting's agenda.
- 2) It was noted that no ADR reporting in the prescribed format was done about two serious ADR events had taken place during the last month. Dr. More briefed the members about a serious ADR case of a child following vaccination, was admitted in the NICU ward of our hospital for a stay of about a week. The DHO was informed about this incidence and the necessary steps to control the ADR was vigorously followed. Dr. More also informed about a case of anaphylaxis following ASV that was managed with ICU care. It was decided that these cases need to be duly followed and reported as per the ADR reporting format to a Pv Centre by the resident in Dept. of Pharmacology.
- 3) Dr. Madhu Bansode, also briefed about 2 cases of ADR viz. fever and chills following IV 3% NS plus Inj. Optoneuron, in Gen. Medicine ward that had occurred on 29/06/2018. The IV administration was stopped in both the cases and the ADR were controlled. These cases would also be reported in proper format to the IPv centre.
- 4) Dr. Col. Gupta Sir, pointed out that all the Incharge of the various clinical units at our hospital and the clinical staff working there should be informed about the urgency of reporting and consequences of not reporting of any serious ADR occurring in the hospital during the following Bed Occupancy Meeting.
- 5) Dr. More also suggested to maintain an ADR reporting register clinical unit wise and to make it compulsory for the Incharge of such clinical units to report the number of ADR whether serious or not, occurring in a week by every Friday.
- 6) Dr. Wagh further told that a brief seminar about ADR reporting will be arranged for the newly admitted post-graduate residents tentatively on Friday, 06/07/2018.
- 7) Dr. Wagh concluded the meeting with a vote of thanks.

Institutional Pharmacovigilance Committee Meeting

An emergency meeting of IPvC was called upon on 25.09.17 in the Dept. of Pharmacology to discuss a serious ADR case (Ref no. Pv 11/03/17) of an IUD that followed after a pregnant mother received i.v. Inj Iron sucrose for treatment of anemia.

1. The detailed case study (attached herewith) was presented by Dr. Jaya Barla of OBGY Dept. The case was discussed by the various IPvC members present and a possible cause of such on ADR was sought. Since the case was scrupulously followed by the attending doctors, any obvious preventable primary cause of such an ADR could not be derived at. It was concluded that this could be due to the secondary effect on foetal heart following maternal hypotension due to an anaphylactic like reaction to the i.v. Iron sucrose. It is further noted that intradermal skin testing of Iron sucrose should be routinely performed while keeping all the resuscitative measures ready and possibility of such an unfortunate incidence must be mentioned in the consent form before administration i.v. iron sucrose.
2. Dept. of Pharmacology has organized a seminar on Indian Pharmacovigilance Programme for the newly admitted PG residents is arranged on 27.09.17. All the concerned clinical departmental Heads were urged to bring it to notice of these students to have a good attendance.
3. Apart from this discussion it was noted that ADR forms in the wards were not kept at visible and accessible place, so all the nursing staff of the various hospital wards were provided new ADR forms to be kept at a right place and do the needful.

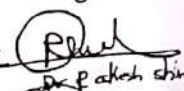

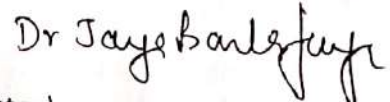

Next meeting of IPVC has been scheduled for 29/12/17, Friday.

Minutes of the IPvC meeting held on 30/06/2017.

1. It was noted that the response of the residents to **Sensitization of Indian Pharmacovigilance Program, ADR Reporting** seminars arranged in 19th & 21st April 2017, was bleak. However such it was well received by the **nursing fraternity** with active interaction. So, it was decided that another such seminar needs to be arranged for the new as well as the old residents in the month of **September 2017**.
2. It was mooted of an urgent need of spreading the awareness about the reporting of ADE, amongst the General Practitioners in and around Talegaon, by organizing a CME.
3. It was also deliberated on how to encourage the reporting of ADE by the general public visiting the BSRTH.
4. A Drug Information Centre has been set up at the Drug Store at the OPD complex and is managed by the Dept. of Pharmacology.
