Respected Madam/Sir,

A workshop was conducted on 18th August 2021 to discuss the methodology for reviewing a research article, and conducting a journal club activity.

Based on the above, a working template has been prepared to help the respective departments in carrying out the discussion during the Journal Club.

It is recommended that an A3 printout of the same be made, and displayed in the respective departmental seminar hall. You may also convey in advance the date, time and venue of the journal club activity, so that the Research Consultant/member from DCRIC can also attend the same and give inputs.

Regards.

**INVITATION**

Dear Delegate,

Leprosy is one of the oldest diseases known to man. Despite advances in all spheres of medical science, leprosy continues to be a public health challenge in countries like India. According to WHO, there were 2,08,619 new leprosy cases registered globally in 2018 from 159 countries including India.

The International Federation of Anti-Leprosy Association has declared this year's theme for World Leprosy Day as '**Ending discrimination, stigma and prejudice**'. In alignment with this theme, we at MIMER Medical College thought to take review of the Leprosy scenario in the country. So, the theme chosen for this 8<sup>th</sup> Annual Research Conference is '**Leprosy – Past, Present and Future**'. In India, 'Leprosy Day' is observed on 30<sup>th</sup> January every year to pay homage to Father of the Nation Mahatma Gandhi remembering his dedication towards leprosy patients.

This 8<sup>th</sup> Annual Research Society Conference will be an ideal platform for budding as well as experienced healthcare professionals to deliberate on many facets related to Leprosy. The outcome of this conference will definitely contribute towards a deeper understanding and evidence-based treatment of Leprosy.

We welcome you to the 8<sup>th</sup> Annual Research Society Conference and wish you an academically enriching experience.

## Activity report

Department: OBSTETRICS & GYNAECOLOGY

Name of the Activity: A LIVE ENDOSCOPY SURGICAL SKILLS  
ENHANCEMENT WORKSHOP

Duration of Activity: 21<sup>st</sup> & 28<sup>th</sup> Nov. 2019

Participants: No. of faculty: 13

No. of students: 15

### Brief description of the Activity:

A LIVE ENDOSCOPY SURGICAL SKILLS ENHANCEMENT WORKSHOP was conducted on 21/11/19 as part of Silver Jubilee celebration of MIMER MEDICAL COLLEGE.

Dr Sunita Tandulwarkar, President "IAGE" Indian Association of Gynecological Endoscopists along with her team got the project "EAGLE" to our campus.

Every aspiring gynecologist learns Endoscopy and so did our residents. Dr Tandulwarkar with her team of endoscopy surgeons Dr Manish Machave, Dr Ashish Kale and Dr Abhishek Chandavarkar demonstrated live surgeries and also solved the queries of the budding gynecologists.

The demonstration was impeccable with 3D endoscopy elaborating the anatomy of the pelvis, dissecting through the vessels and the nerves, defining each step of the surgery and getting down to the nitty-gritty of the subject.

After the spectacular endoscopic surgery training session Dr Tandulwarkar delivered an Oration  $E = mc^2$ , that says Endoscopy means mastering challenges. The oration was appreciated and received a standing ovation.

To add up to the skills of the residents, endotraining sessions on pelvitrainers were conducted on 28/11/19 in the Department of OBGY under the guidance of Dr Manish Machave. He also gave a talk on laparoscopic surgeries and instruments in his own charismatic way. He not only taught endoscopy but also gave small tit bits on dealing with patients and the medicolegal aspects in endoscopy. A lecture on "Energy sources" was delivered by Mr Sahil, wherein handling endoscopic instruments and different current modalities were discussed. The ground staff from our operation theatre including nurses working in Ot were the real beneficiaries as they were given hands on training with the instruments n energy source handling. One more successful day was thus spent

with the most amiable people who enriched our lives with the wealth of their knowledge and experience.

One of its own kind, the 3 D laparoscopic surgeries were witnessed for the first time in Talegaon Dabhade and the whole of Maval region.

All this was possible with the efforts of Dr Sushma Sharma Proff and HOD, OBGY and Dr Vaishali Korde, Proff OBGY , Dr Dattatraya Gopalghare, Proff OBGY and the OBGY team who toiled day and night to get things in place for the workshop. Nevertheless this would have been impossible without the perpetual support of our Executive Director Dr Suchitra Nagare who always believes that "Learning is a constant process at all ages and at all times." Truly an academic feast that has added feathers to the department of OBGY and MIMER Medical College continues to shine.

OBJECTIVE- To learn the latest laparoscopic procedure with the most learned and experienced surgeons in Pune.

OUTCOME- The residents and faculty learned the newest available modalities in laparoscopy and it encouraged us to further horn our skill

## MIMER MEDICAL COLLEGE

The hallmark of an outstanding healthcare professional is mastery of technical knowledge and skill, allied with a commitment to care with empathy for their patients. In order to fulfill the dream of creating such committed doctors, MAEER'S MIT Pune, established Maharashtra Institute of Medical Education & research (MIMER) Medical College, in the year 1995, at Talegaon Dabhade, near Pune, India. The institute is affiliated to MUHS Nashik and recognised by the Medical Council of India. The college has an intake of 150 MBBS students and also conducts Post-Graduate training in various departments. The institution has been accredited with 'A' Grade by NAAC. The National Bioethics Curriculum Implementation Centre has also been established at MIMER Medical College.

A benevolent Board of Management, highly experienced and dedicated teaching faculty, ample clinical material, state-of-art educational facilities, student-friendly atmosphere, set in an idyllic and scenic ambience, aptly summarise the Talegaon Dabhade campus of MIMER Medical College.

**Dear Delegates**

Nutrition is a critical yet often neglected aspect of comprehensive healthcare management. Nutritional needs of patients whether they be in paediatric or geriatric age group, in pregnancy, diabetes or even as a part of community healthcare must be planned, monitored and ensured to maintain sound health and a quick recovery from disease. The rushed and hectic lifestyle of both children and adults today precludes a healthy nutritional intake and yet the emphasis is to how to lose weight and try out various forms of 'diets'. The consequence of this is an unhealthy lifestyle and poor eating habits with deleterious effects on both mind and body. A well-balanced diet and healthy eating habits can improve mental health, increase concentration, decrease feelings of fatigue, anxiety and depression. It is rightly said "To eat is a necessity.....but to eat intelligently is an art". In keeping with this maxim, MIMER Medical College has taken up the challenge of discussing all aspects of this important theme at its 7<sup>th</sup> Annual Research Conference.

This conference promises to be an enriching experience and will be an ideal platform for budding and experienced health professionals to deliberate on the many facets of nutrition with the ultimate aim of creating healthier lives.

**DR. APARNA ASHISH ATRE**

**MAMMOGRAPHY : A PREVENTIVE TOOL FOR BREAST DISEASES**

Breast cancer incidence is growing at an alarming rate all over the world. In the urban Indian setting the breast cancer incidence is as high as 1 in every 22 females. Breast cancer detected early is COMPLETELY CURABLE!!!

The problems specific to the Indian setting would be the younger predilection for cancer affection (peak age incidence is 43 to 46 years as compared to the western peak of 53 to 56 years).

In addition the preponderance of dense fibro-glandular parenchyma seen in the Indian breasts reduces the sensitivity of routine mammography.

Hence the need for superior imaging techniques for the breast which include the latest FULL FIELD DIGITAL MAMMOGRAPHY AND DIGITAL BREAST TOMOSYNTHESIS.

**PROF . DR. ASHOK KALE**

**VACCINE: BOON OR BANE ?**

Vaccination is like “training exercise” for our body. It uses attenuated organisms to protect against their virulent forms and render the body with the ability to create the specific infection. As per British Medical Bulletin an ideal vaccine should give life-long immunity , be broadly protective against all variants of an organism, prevent disease transmission, induce effective immunity rapidly , be effective in all vaccinated subjects, transmit maternal protection to the fetus , requires few (ideally one) immunizations , be cheap, stable (no requirement for cold chain), and most important point , should be harmless. But, just like “every coin has 2 sides”, even vaccinations have side-effects. The benefit/risk ratio is one of the highest concern of any medical intervention out there. But, like any medical procedure, they carry some risks.
