**MIMER Medical College, Talegaon (D)**  
**DEPARTMENT OF PATHOLOGY**

**CASE BASED LEARNING**

<b>Sr. No.</b>	<b>Topic</b>
<b>1</b>	<b>Microcytic Anemia</b>
<b>2</b>	<b>Macrocytic Anemia</b>
<b>3</b>	<b>Hemolytic Anemia</b>
<b>4</b>	<b>Multiple Myeloma</b>
<b>5</b>	<b>Hepatitis</b>
<b>6</b>	<b>Obstructive Jaundice</b>
<b>7</b>	<b>Hemolytic Jaundice</b>
<b>8</b>	<b>Nephrotic Syndrome</b>
<b>9</b>	<b>Meningitis</b>

Case based learning – Students were asked to prepared PPT and present clinical findings of microcytic and macrocytic anemia, Hemolytic anemia and Aplastic anemia on 23, 24 & 25/3/21 & 30,31 & 1/4/21

Case based discussion on interpretation of liver function tests on 21.06.21 & 25.06.21.

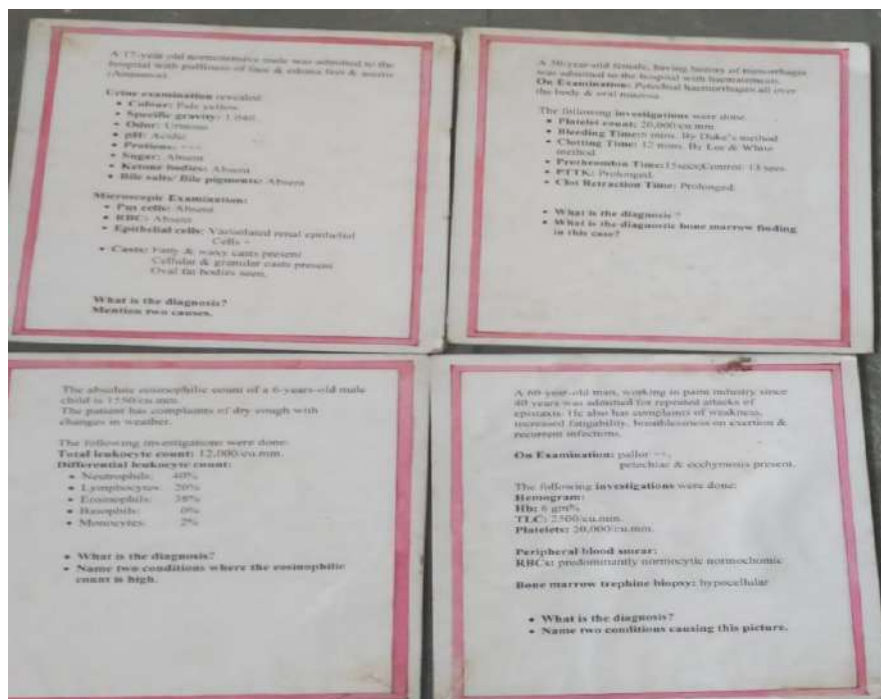

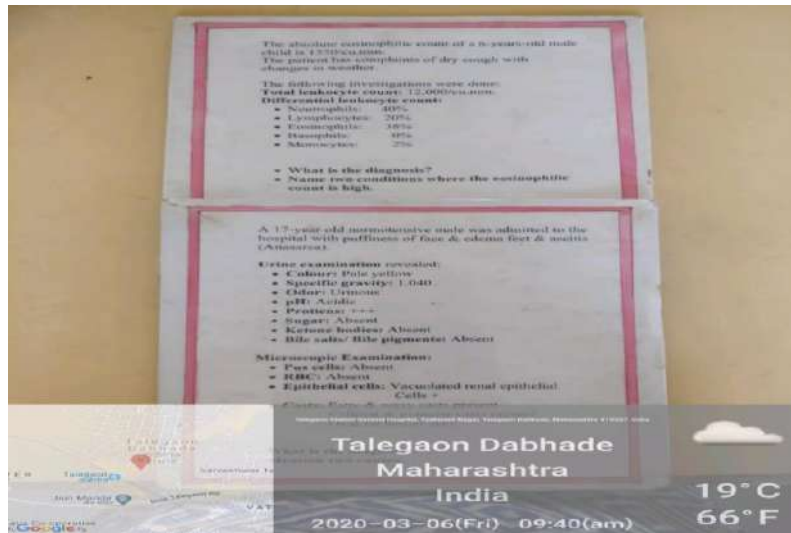

Case based discussion on Multiple myeloma, Leukemia on 22 to 24.06.2021.

## PROBLEM BASED LEARNING

Clinico pathological correlation of the common disease conditions are discussed with the students using clinical problems during practical sessions.

**PROBLEM BASED LEARNING**

## DEPARTMENT OF BIOCHEMISTRY

### PROBLEM BASED LEARNING – CASE NO 1

A female 22 years old, attending the medicine OPD c/o pain in the lower abdomen and low backache for last 1 week. She also complained of passing reddish urine swelling over face and feet for last 3 days. On examination pitting oedema is seen over feet and there was puffiness of face. There was tenderness in the right iliac fossa and in the lower lumbar region posteriorly in the back. Past history revealed that he had an attack of sore throat two weeks back which subsided in 3-4 days.

Lab investigations revealed the following:-

Routine Urine exam- Proteins ++

RBC ++, Urinary casts

BUL – 100mg/dl

Serum Creatinine – 3mg/dl

Albumin 2.8g/dl

Serum Uric Acid – 9mg/dl

Pain in flank, Reddish Urine, Pain in lumbar region posteriorly

Pitting Oedema of feet

Important Past History :- History of sore throat 2 weeks back

**ANATOMY**

**PHYSIOLOGY**

**BIOCHEMISTRY**

**INVESTIGATIONS**

**MICROBIOLOGY**

**PATHOLOGY**

Anatomy of kidney

Renal physiology

**Biochemistry :-** Urine-hematuria, proteinuria and urinary casts  
Increased plasma Urea and Creatinine levels.

Urine -RE,  
Creatinine,  
BUL

immune-complex  
formation, serum complement  
status

Gross  
Pathology:-

Microscopic  
Pathology:-

**DIAGNOSIS – POST  
STREPTOCOCCAL  
GLOMERULONEPHRITIS**

**Treatment –** Mainly supportive, with control of hypertension, edema, and dialysis if required. Antibiotic treatment for streptococcal infection

**Prognosis -good**, with permanent renal failure being very uncommon, and even less so in children. Recurrent poststreptococcal glomerulonephritis is rare.

## DEPARTMENT OF BIOCHEMISTRY

### PROBLEM BASED LEARNING – CASE NO

Maria a 10 year old primary school student is on insulin for her diabetes mellitus, which was diagnosed 2 years ago. Over the last two days, she complained of generalized fatigue, anorexia, nausea, abdominal pain, fever, thirst and frequent urination . She had vomited. As her intake was less, her mother reduced her insulin dose. Her general condition had deteriorated and hence she was brought to hospital. On examination , she appeared , drowsy ,pale, dehydrated and kussmaul breathing, tachycardia were observed.

Blood Investigations revealed :-

BSL-(Random)- 455mg/dl

Na<sup>+</sup> - 130mEq/L K<sup>+</sup>-6.7mEq/L

BUL- 100mg/dl(HIGH)

Creatinine 1.3mg/dl

Routine Urine –Ketone bodies ++ Sugar +++

dizziness, abdominal pain ,nausea ,fatigue , thirst, fever, frequent urination

Fruity odour of breath , Kussmaul respirations, tachycardia

Important Past History :- insulin therapy

**ANATOMY**

**PHYSIOLOGY**

**BIOCHEMISTRY**

**INVESTIGATIONS**BSL R,F

AND PP,URINE –  
RE,ELECTROLYTES

Islet cell auto-antibodies

**PATHOLOGY**

**Pathogenesis**  
of Type I DM

Anatomy of pancreas

Endocrine functions of pancreas

**Biochemistry** :- Type I DM ---  
insulin deficiency. Insulin  
dependent glucose uptake  
affected. So, increased  
glycogenolysis, gluconeogenesis ,  
lipolysis.Beta oxidn. Of fatty acids -  
increased acetyl-CoA - ketosis.

**DIAGNOSIS – DIABETIC  
KETOACIDOSIS IN TYPE I DM**

**Treatment** – Replace fluids ,correct acidosis, give short acting insulin, monitor  
plasma glucose and potassium , give KCl if required.

**Prognosis** – Patient follow up is very important. Do the following  
investigations :- Lipid Profile , Renal Profile, SMBG regularly

**Subject – Report on participation of students in Ethos 2018, 2<sup>nd</sup> National Bioethics, Medical and Research Conference, SGRDUHS, Amritsar.**

Respected Sir,

We, the students of MIMER Medical college, represented our institute in Ethos 2018, 2<sup>nd</sup> National Bioethics, Medical and Research Conference, SGRDUHS, Amritsar.

We're giving you a brief report about the same

## 1. INTRODUCTION OF ETHOS

ETHOS 2018, was the 2<sup>nd</sup> National Bioethics, Medical and Research Conference, held at Sri Guru Ram Das Institute of Medical Sciences & Research, affiliated to Sri Guru Ram Das University of Health Sciences, Amritsar, from 31<sup>st</sup> August to 2<sup>nd</sup> September. ETHOS 2018, was one signature event by the Students' Wing of Indian Program of International Network of UNESCO Chair in Bioethics, Haifa.

## 2. ROLE OF THE INSTITUTION

As we know, the most valuable resource that a student can have, is their teachers. Without a Guru, students' growth is limited to their own perspectives. Very much in coincidence with the previous lines, the entire team was under a constant guidance of the following teachers;

- a. Dr. VaishaliKordeNayak, Professor in Obstetrics & Gynecology, an educator, who also serves as the head of Student's Steering Committee.
- b. Dr. (Col.) Derek D'Souza, Professor in Dentistry, who also serves as the Director of National Bioethics Curriculum Implementation Centre.
- c. Dr. Aneesh Bhat, who serves as Professor & Head in the department of Psychiatry.
- d. Dr. Rupali Bagga, Associate Professor in the department of Community Medicine.

Lastly, Dr. (Col.) R.P. Gupta, Principal, for giving us the permission to attend the conference.

After a few fruitful meetings of the students' steering committee, from one student delegate, the count increased to fifteen delegates. To put it all in a sentence, these teachers placed a baton in the hands of fifteen students, who went all the way to Amritsar and came back as achievers.

## 3. PARTICIPATION

'The future belongs to those who believe in the beauty of their dreams.' Want to know who these dreamers are? Yes, these are the fifteen delegates, the students of their very own MIMER.

- |                       |                       |
|-----------------------|-----------------------|
| 1. Tejas Mhapankar    | (9 <sup>th</sup> Sem) |
| 2. Oshin Behl         | (9 <sup>th</sup> Sem) |
| 3. ShantanuChitale    | (7 <sup>th</sup> Sem) |
| 4. Manalee Das        | (7 <sup>th</sup> Sem) |
| 5. PrajaktaKurade     | (7 <sup>th</sup> Sem) |
| 6. Ritika Mishra      | (7 <sup>th</sup> Sem) |
| 7. AkshitaShrivastava | (7 <sup>th</sup> Sem) |
| 8. TanushreeNahata    | (7 <sup>th</sup> Sem) |
| 9. NishitaManjrekar   | (7 <sup>th</sup> Sem) |

- 10. Kirti Rodge (5<sup>th</sup> Sem)
- 11. Rutuja Khanvilkar (5<sup>th</sup> Sem)
- 12. Simran Kapoor (5<sup>th</sup> Sem)
- 13. Asma Patel (5<sup>th</sup> Sem)
- 14. Prachi Jethwa (5<sup>th</sup> Sem)
- 15. Dhara Darji (5<sup>th</sup> Sem)

Tejas Mhapankar, a student of MBBS Final Year, served as the college ambassador for ETHOS 2018. His role was instrumental in bringing all these fifteen starts together.

These students actively participated in various pre-conference workshops, events like Paper Presentation, Poster Presentation, Sharp Tank, Ethi Scan – Quiz, Debate, Just a Minute and Medical Short Film. As they say, an enthusiastic heart finds opportunities everywhere, these delegates didn't leave a single opportunity to showcase their talent. Their participation in online events like Ethi Shot – Photography, Online Ethi Scan and Sketch it Syndrome is noteworthy.

The journey of these delegates over a period of one month before conference has been full of energy, liveliness, zeal, perseverance and lastly the most important thing, team spirit.

#### 4. WINNERS

Now that one looks back at ETHOS 2018, one can rightly say, the forecast for Team MIMER in Amritsar was 100 percent chance of winning. Amidst 600 national delegates and many participations, Team MIMER has bagged twelve awards and put MIMER at the national forefront in the field of Bioethics and Research.

##### 1) Ethirhythm– Dance Contest – 1st prize

Theme – Transgender

Choreographer – Prajakta

Team – Ritika Mishra, Tanushre, Dhara, Manalee, Shantanu.

<https://drive.google.com/file/d/1UuqZwbYcXcely3DLi6p90CA6ua3uEpVj/view?usp=drivesdk>

##### 2) Medflix – Medical Short Film - 1st prize

Theme – Euthanasia

Team – Sourabh, Asmal, Prachi, Shruti, Rutuja, Kirti, Simran, Vinit  
Sairaja, Dhara

<https://drive.google.com/file/d/1sU6lrEvXgQEAL9vO - wSfYrDkXyPGEg/view?usp=drivesdk>

### 3) Medflix – Medical Short Film 2nd prize

Theme– Doctor patient relationship

Team – Akshita, Ritika, Nishita Manjrekar, Manalee, Satyajeet, Advait

[https://drive.google.com/file/d/1\\_7cNznuOzCSNcKcf08OjPnhKg0btsDk8/view?usp=drivesdk](https://drive.google.com/file/d/1_7cNznuOzCSNcKcf08OjPnhKg0btsDk8/view?usp=drivesdk)

### 4) Apprise – The Debate – 2<sup>nd</sup> Prize

Topic- Surrogacy, the dark side of the moon

Team – Manalee, Shantanu

[https://drive.google.com/folderview?id=1R3oF3Eisn04w8cAFfP0h3G\\_YI1\\_oM53I](https://drive.google.com/folderview?id=1R3oF3Eisn04w8cAFfP0h3G_YI1_oM53I)

### 5) Sharp Tank – Medical Innovation – 1st Prize

Winner – Tanushree

<https://photos.app.goo.gl/e2AuuoSiH2pF84dJ9>

### 6) Sketch it Syndrome

1st prize – Kirti Rodge

2nd prize- Rutuja Khanvilkar

[https://drive.google.com/file/d/1hsOWjRato-QBzS1Ve1J0MHMaE\\_qPVbG3/view?usp=drivesdk](https://drive.google.com/file/d/1hsOWjRato-QBzS1Ve1J0MHMaE_qPVbG3/view?usp=drivesdk)

**ANATOMY LOGBOOK**

For

PHASE I MBBS STUDENTS

AS PER

COMPETENCY BASED CURRICULUM

First Edition:2019

All rights reserved

## Preface

The Medical Council of India has revised the undergraduate medical education curriculum so that the Indian Medical Graduate (IMG) is able to recognize “**Health for all**” as a national goal. He/she should also be able to fulfil his/her societal obligations. The revised curriculum has specified the competencies that a student must attain and clearly defined teaching learning strategies for the same. With this goal in mind, early clinical exposure, integrated teaching, skill development, AETCOM and self-directed learning have been introduced. There would be emphasis on communication skills, basic clinical skills and professionalism. There is a paradigm shift from the traditional didactic classroom-based teaching to learning environments where there is emphasis on learning by exploring, questioning, applying, discussing, analysing, reflecting, collaborating and doing. The recognition of this need is enshrined by a greatly enhanced allocation of time to these methods and also the assessment techniques. With this view in mind the log book has been designed as per the guidelines of competency Based curriculum.

## Name of the College

---

---

---

Admission Year : \_\_\_\_\_

### CERTIFICATE

This is to certify that,

Mr/Ms. \_\_\_\_\_

Roll No. \_\_\_\_\_ has satisfactorily attended / completed all assignments mentioned in this logbook as per the guidelines prescribed by Medical Council of India, for Phase I MBBS Competency Based Curriculum in the subject of Anatomy.

Date: \_\_\_/\_\_\_/\_\_\_\_\_

Place: \_\_\_\_\_

Teacher-in-Charge

Professor and Head  
Department of Anatomy

## Instructions

- 1) This logbook is prepared as per the guidelines of MCI for implementation of Competency based curriculum for Phase I MBBS students in the subject of Anatomy.
- 2) Students are instructed to keep their logbook entries up to date.
- 3) Students are expected to write minimum 2 reflections on any two activities each of Early Clinical Exposure (ECE) & Self-Directed Learning (SDL). For ECE, one reflection must be on hospital/community setting.
- 4) Students also have to write reflections on AETCOM Module 1.1 and 1.5
- 5) Reflections should be structured using the following guiding questions:
  - What happened? (What did you learn from this experience)
  - So what? (What are the applications of this learning)
  - What next? (What knowledge or skills do you need to develop so that you can handle this type of situation?)
- 6) The logbook assessment will be based on multiple factors like
  - Attendance
  - Active participation in the sessions,
  - Timely completions
  - Quality of write up of reflections
  - Overall presentation

## INDEX

Sr. No.	Description	Page No's	State	Signature of Teacher
			Complete / Incomplete	
1.	Early Clinical Exposure			
2.	Self-Directed Learning, Seminars, Projects, Quizzes			
3.	AETCOM Module * 1.1 and 1.5			
4.	Attendance Records			
5.	Records of Internal Assessment			

- AETCOM – Competencies for IMG, 2018, Medical Council of India.

# 1. EARLY CLINICAL EXPOSURE (ECE)

## **Introduction:**

Learning from patients is an integral part of health professions training. Exposure to clinical content in the preclinical phase of learning provides a clinical context and relevance to basic sciences learning. It also facilitates early involvement in the healthcare environment that serves as motivation and reference point for students, leading to their professional growth & development. Students will be able to learn the basic and clinical sciences by means of rich integrating learning activities, be these early clinical contact, clinical skills, communication skills or task-based learning sessions. The ECE program in the MBBS curriculum tries to create an opportunity for students to correlate learning in Phase I subjects with their clinical application.

## **Objectives**

- 1) Help students recognize the relevance of anatomy in diagnosis, patient care and treatment.
- 2) Provide a context that will enhance learning and relating to the experience of patients.
- 3) Provide an opportunity for observing basic skills in interviewing patients and doctor-patient communication.
- 4) Recognize attitude, ethics and professionalism as integral part of the doctor-patient relationship.
- 5) Understand the socio-cultural context of disease through the study of humanities.

**Preface**

The Medical Council of India has revised the undergraduate medical education curriculum so that the Indian Medical Graduate (IMG) is able to recognize “**Health for all**” as a national goal. He/she should also be able to fulfil his/her societal obligations. The revised curriculum has specified the competencies that a student must attain and clearly defined teaching learning strategies for the same. With this goal in mind, early clinical exposure, integrated teaching, skill development, AETCOM and self-directed learning have been introduced. There would be emphasis on communication skills, basic clinical skills and professionalism. There is a paradigm shift from the traditional didactic classroom-based teaching to learning environments where there is emphasis on learning by exploring, questioning, applying, discussing, analysing, reflecting, collaborating and doing. The recognition of this need is enshrined by a greatly enhanced allocation of time to these methods and also the assessment techniques. With this view in mind the log book has been designed as per the guidelines of competency Based curriculum.

## Preface

The Medical Council of India has revised the undergraduate medical education curriculum so that the Indian Medical Graduate (IMG) is able to recognize "**Health for all**" as a national goal. He/she should also be able to fulfil his/her societal obligations.

The revised curriculum has specified the competencies that a student must attain and clearly defined teaching learning strategies for the same. With this goal in mind, early clinical exposure, integrated teaching, skill development, AETCOM and self-directed learning have been introduced. There would be emphasis on communication skills, basic clinical skills and professionalism. There is a paradigm shift from the traditional didactic classroom-based teaching to learning environments where there is emphasis on learning by exploring, questioning, applying, discussing, analysing, reflecting, collaborating and doing. The recognition of this need is enshrined by a greatly enhanced allocation of time to these methods and also the assessment techniques. With this view in mind the log book has been designed as per the guidelines of competency Based curriculum.

# CERTIFICATE

This is to certify that,

Mr/Ms. \_\_\_\_\_

Roll No. \_\_\_\_\_ has satisfactorily attended / completed all assignments mentioned in this logbook as per the guidelines prescribed by Medical Council of India, for Phase I MBBS Competency Based Curriculum in the subject of Biochemistry.

Date: \_\_\_/\_\_\_/\_\_\_\_\_

Place: \_\_\_\_\_

**Teacher-in-Charge**

**Professor and Head  
Department of Biochemistry**

## Instructions

- 1) This logbook is prepared as per the guidelines of MCI for implementation of Competency based curriculum for Phase I MBBS students in the subject of Biochemistry.
- 2) Students are instructed to keep their logbook entries up to date.
- 3) Students are expected to write minimum 2 reflections on any two activities each of Early Clinical Exposure (ECE) & Self-Directed Learning (SDL). For ECE, one reflection must be on hospital/community setting.
- 4) Students also have to write reflections on AETCOM Module 1.4.
- 5) Reflections should be structured using the following guiding questions:
  - What happened? (What did you learn from this experience)
  - So what? (What are the applications of this learning)
  - What next? (What knowledge or skills do you need to develop so that you can handle this type of situation?)
- 6) The logbook assessment will be based on multiple factors like
  - Attendance
  - Active participation in the sessions,
  - Timely completions
  - Quality of write up of reflections
  - Overall presentation

## INDEX

5.	Records of Internal Assessment			

- AETCOM – Competencies for IMG, 2018, Medical Council of India.

## **Section 1. EARLY CLINICAL EXPOSURE (ECE)**

### **Introduction:**

Learning from patients is an integral part of health professions training. Exposure to clinical content in the preclinical phase of learning provides a clinical context and relevance to basic sciences learning. It also facilitates early involvement in the healthcare environment that serves as motivation and reference point for students, leading to their professional growth & development. Students will be able to learn the basic and clinical sciences by means of rich integrating learning activities, be these early clinical contact, clinical skills, communication skills or task-based learning sessions. The ECE program in the MBBS curriculum tries to create an opportunity for students to correlate learning in Phase I subjects with their clinical application.

### **Objectives**

- 1) Help students recognize the relevance of Biochemistry in diagnosis, patient care and treatment.
- 2) Provide a context that will enhance learning and relating to the experience of patients.
- 3) Provide an opportunity for observing basic skills in interviewing patients and doctor-patient communication.
- 4) Recognize attitude, ethics and professionalism as integral part of the doctor-patient relationship.
- 5) Understand the socio-cultural context of disease through the study of humanities.

## Preface

The Medical Council of India has revised the undergraduate medical education curriculum so that the Indian Medical Graduate (IMG) is able to recognize “**Health for all**” as a national goal. He/she should also be able to fulfil his/her societal obligations. The revised curriculum has specified the competencies that a student must attain and clearly defined teaching- learning strategies for the same. With this goal in mind, integrated teaching, skill development, AETCOM and self-directed learning have been introduced. There would be emphasis on communication skills, basic clinical skills and professionalism. There is a paradigm shift from the traditional didactic classroom-based teaching to learning environments where there is emphasis on learning by exploring, questioning, applying, discussing, analyzing, reflecting, collaborating and doing. The recognition of this need is enshrined by a greatly enhanced allocation of time to these methods and also the assessment techniques. With this view in mind the log book has been designed as per the guidelines of competency based curriculum.

**Name of the College: MIMER Medical College, Talegaon Dabhade, Pune.**

**Admission Year:**

**CERTIFICATE**

This is to certify that,

Mr/Ms. \_\_\_\_\_

Roll No. \_\_\_\_\_ has satisfactorily attended/completed all assignments mentioned in this logbook as per the guidelines prescribed by Medical Council of India, for First Professional MBBS Competency Based Curriculum in the subject of Community Medicine.

Date: \_\_\_\_/\_\_\_\_/\_\_\_\_

Place: \_\_\_\_\_

**Teacher - Incharge**

**Professor and Head  
Department of Community Medicine**

# INSTRUCTIONS

1. This logbook is prepared as per the guidelines of MCI for implementation of Competency based curriculum for Phase II MBBS students in the subject of Pathology.
2. Students are instructed to keep their logbook entries up to date.
3. Students also have to write reflections on AETCOM Module 2.4 and 2.8) Reflections should be structured using the following guiding questions:
  - x What happened? (What did you learn from this experience)
  - x So what? (What are the applications of this learning)
  - x What next? (What knowledge or skills do you need to develop so that you can handle this type of situation?)
4. The logbook assessment will be based on multiple factors like
  - x Attendance
  - x Active participation in the sessions
  - x Timely completions
  - x Quality of write up of reflections
  - x Overall presentation

## ASSESSMENT OF LOG BOOK

<b>Sr.No</b>	<b>Description</b>	<b>Maximum Marks</b>	<b>Marks obtained</b>	<b>Signature of Teacher</b>

## CASE BASED LEARNING

<b>Sr. No.</b>		<b>Topic</b>	<b>Signature of the Teacher</b>	<b>Remark</b>
1	M	Microcytic Anemia		
2	M	Macrocytic Anemia		
3	H	Hemolytic Anemia		
4	M	Multiple Myeloma		
5	H	Hepatitis		
6	O	Obstructive Jaundice		
7	H	Hemolytic Jaundice		
8	N	Nephrotic Syndrome		
9	M	Meningitis		

## SKILL ASSESSMENT

Sr No	Skill Assessed	Date	Signature
1.	Preparation of peripheral smear		
2.	Interpretation of liver function tests and viral serology panel		
3	Interpretation of CSF in meningitis		

## AETCOM Module

### Module 2.4: Working in a health care team

Competency addressed

<b>The student should be able to</b>	<b>Level</b>
1. Demonstrate ability to work in a team of peers and superiors.	SH
2. Demonstrate respect in relationship with patients, fellow team members, superiors and other health care workers.	

### Module 2.8 : What does it mean to be family member of a sick patient?

Competency addressed

<b>The student should be able to</b>	<b>Level</b>
Demonstrate empathy in patient encounters	SH

**Reflection on AETCOM 2.8**

**Topic: What does it mean to be a family member of a sick patient? Date:**

A series of horizontal dashed lines providing a space for writing a reflection.

## Instructions

- 1) This logbook is prepared as per the guidelines of MCI for implementation of Competency based curriculum for Phase II MBBS students in the subject of Microbiology
- 2) Students are instructed to keep their logbook entries up to date.
- 3) Students are expected to write minimum 1 reflections on Self-Directed Learning (SDL).
- 4) Students also have to write reflections on AETCOM Modules – 2.5, 2.6 and 2.7.
- 5) Reflections should be structured using the following guiding questions:
  - What happened? (What did you learn from this experience)
  - So what? (What are the applications of this learning)
  - What next? (What knowledge or skills do you need to develop so that you can handle **this type of situation?**)
- 6) The logbook assessment will be based on multiple factors like
  - Attendance
  - Active participation in the sessions,
  - Timely completions
  - Quality of write up of reflections
  - Overall presentation

PH1.41	Pharmacology of Oxytocics and tocolytics
PH1.42	Introduction to Chemotherapy-General principles, Pharmacology of Sulfonamides and Trimethoprim Pharmacology of Fluoroquinolones, Pharmacology of Penicillin and its derivatives Pharmacology of Cephalosporins, Pharmacology of other Beta lactam antibiotics
PH1.43	Pharmacology of Aminoglycosides, Pharmacology of Macrolides Pharmacology of Broad spectrum antibiotics, Pharmacology of newer antibacterials

<b>Competency Nos.</b>	<b>Topics &amp; Subtopics</b>
PH1.44	Pharmacology of Antitubercular drugs including MDR and XDR TB
PH1.45	
PH1.46	Pharmacology of Antileptotics
PH1.47	Pharmacology of Antimalarials Pharmacology of Antiamoebic and other Antiprotozoal drugs Pharmacology of Anthelmintics
PH1.48	Pharmacotherapy of UTI Pharmacotherapy of STD Pharmacology of Antiretroviral drugs
PH1.49	Pharmacology of Anticancer drugs
PH1.50	Pharmacology of Immunomodulators
PH1.51	Occupational and environmental toxicology
PH1.53	Pharmacology of Chelating agents
PH1.54	Vaccines and Antisera
PH1.55	National health programs
PH1.56	Geriatric and Pediatric pharmacology
PH1.57	Drugs used in skin disorders
PH1.58	Drugs used in Ocular disorders
PH1.61	Dietary supplements and Nutraceuticals
PH1.62	Antiseptics and Disinfectants
<b>Competency Nos.</b>	<b>Topics &amp; Subtopics</b>
	<b>CLINICAL PHARMACY</b>
PH2.1	Drug dosage forms (Oral, local, parenteral)
PH2.2	ORS preparation
PH2.3	Intravenous drip setting
PH2.4	Dosage calculation
	<b>CLINICAL PHARMACOLOGY</b>

Competency Nos.	Topics & Subtopics
	<b>CLINICAL PHARMACY</b>
PH3.1	Prescription writing and communication
PH3.8	
PH5.1	
PH3.2	Critical appraisal of Prescription
PH3.3	Evaluation of Promotional Drug literature
PH3.4	Adverse drug reaction - Identification and reporting
PH3.5	Introduction to the concept of P – drugs and preparation of P-drug list
PH3.6	Interaction with a pharmaceutical representative and critical evaluation of Drug information
PH3.7	Introduction to the concept of Essential medicines
	<b>EXPERIMENTAL PHARMACOLOGY</b>
PH4.1	Drug administration on Maniquins
PH4.2	Study of effects of drugs on blood pressure using software
	<b>COMMUNICATION TOPICS</b>
PH5.2	Importance of optimal use of drug therapy, storage of medicines
PH5.3	Importance of Drug Compliance
PH5.4	
PH5.5	Problems associated with prescribing drugs with dependence liability
PH5.6	Problems associated with use of OTC drugs
PH5.7	Prescription: legal and ethical aspects
2.1	AETCOM-1
2.2	AETCOM-2
2.3	AETCOM-3

# Paper wise distribution of topics for Prelim & MUHS Annual Examination

Year: Second MBBS Subject: **Pharmacology**

Paper	Section	Topics
I	A	<b>MCQs on all topics of the paper I</b>
	B	General Pharmacology
		Autonomic Nervous system including skeletal muscle relaxants
		Cardiovascular system
		Haematology
		Gastro intestinal drugs
		Respiratory system
		AETCOM- 2.1, 2.2, 2.3 (section B one SAQ)
II	A	<b>MCQs on all topics of the paper II</b>
	B	Central Nervous system including general/local anaesthesia
		Endocrine system
		Chemotherapy system
		Autacoids
		MISC. TOPICS : Chelating agents, Vaccines and Antisera, ocular pharmacology, dermatological pharmacology, nutraceuticals, occupational and environmental pharmacology, toxicology)

**Second MBBS  
Internal Assessment  
Subject: Pharmacology**

**Applicable w.e.f October 2020 onwards examination for batches admitted from June 2019 onwards**

Phase	I-Exam ( Jan )			II-Exam ( May )			Prelim ( July )		
	Theory	Practical (Including 10 Marks for Journal & Log Book )	Total Marks	Theory	Practical Including 10 Marks for Journal & Log Book	Total Marks	Theory	Practical	Total Marks
Second MBBS	100	100	200	100	100	200	Paper 1 -100 Paper 2 -100	100	300

1. There will be 3 internal assessment examinations in Pharmacology. The structure of the internal assessment theory examinations should be similar to the structure of University examinations.
2. It is mandatory for the students to appear for all the internal assessment examinations.
3. First internal assessment examination will be held in January, second internal assessment examination will be held in May and third internal assessment examination will be held in July.
4. A student who has not taken minimum required number of tests for Internal Assessment each in theory and practical will not be eligible for University examinations.
5. There will be only one additional examination for absent students (due to genuine reason) after approval by the Institutional Grievances Committee. It should be taken after preliminary examination and before submission of internal assessment marks to the University.

6. Internal assessment marks for theory will be out of 400 and practical will be out of 300.
7. Reduce total theory internal assessment to 40 marks and total practical internal assessment to 40 marks. Students must secure at least 50% marks of the total marks (combined in theory and practical; not less than 40 % marks in theory and practical separately) to be eligible for appearing University examination
8. **Conversion Formula for calculation of marks in internal assessment examinations**

	First IA	Second IA	Third IA (Prelim)	Total	Internal assessment marks: Conversion formula (out of 40)	Eligibility to appear for final University examination (after conversion out of 40) (40% separately in Theory & Practical, 50% Combined)	
Theory	100	100	200	400	<u>Total marks obtained</u> 10	16 (Minimum)	Total of Theory + Practical Must be 40.
Practical	100	100	100	300	<u>Total marks obtained</u> 7.5	16 (Minimum)	

While preparing Final Marks of Internal Assessment, the rounding-off marks shall done as illustrated in following table

Internal Assessment Marks	Final rounded marks
15.01 to 15.49	15
15.50 to 15.99	16

9. Internal assessment marks will reflect as separate head of passing at the summative examination.
10. Internal assessment marks will not to be added to marks of the University examinations and will be shown separately in mark list.

## Practical marks Distribution:

### A. For I<sup>st</sup> and II<sup>nd</sup> term examinations

1. **Journal / Logbook** - 10 Marks
2. **Viva** – 20 marks
3. **Clinical Pharmacy (20 marks)** –
  - a. Dosage form- 10 marks,
  - b. ORS preparation/ IV drip setting- 5 marks
  - c. Dose calculation – 5 marks
4. **Clinical Pharmacology (30 marks)**-
  - a. Prescription writing- 10 marks
  - b. Prescription criticism and rewriting / justification of FDC – 10 marks
  - c. ADR identification / ADR reporting- 5 marks
  - d. P- drug list- 5 marks.
5. **Experimental Pharmacology (10 marks) OSPE** –
  - a. Drug administration using maniquin / drug effect using CAL software (or any other)- 10 marks
6. **Communication (10 marks) OSPE**-
  - a. prescription communication / ethics- legal drug storage/ use of device/drug adherence -compliance / drug dependence/OTC/ interaction with Medical representative- 10 marks

### B. For Preliminary examinations

1. **Viva** – 30 marks
  - a. Viva I- 15 marks
  - b. Viva II- 15 marks
2. **Clinical Pharmacy (20 marks)** –
  - a. Dosage form- 10 marks,
  - b. ORS preparation/ IV drip setting- 5 marks
  - c. Dose calculation – 5 marks
3. **Clinical Pharmacology (30 marks)**-
  - a. Prescription writing- 10 marks
  - b. Prescription criticism and rewriting / justification of FDC – 10 marks
  - c. ADR identification / ADR reporting- 5 marks
  - d. P- drug list- 5 marks.
4. **Experimental Pharmacology (10 marks) OSPE** –
  - a. Drug administration using maniquin / drug effect using CAL software (or any other)- 10 marks
5. **Communication (10 marks) OSPE**-
  - a. prescription communication / ethics- legal drug storage/ use of device/drug adherence - compliance/ drug dependence/OTC/ interaction with Medical representative - 10 marks

# Second MBBS Practical Mark's Structure (I, II & Prelim Exam.)

Applicable w.e.f October 2020 onwards examination for batches admitted from June 2019 onwards

Subject: PHARMACOLOGY								
Practical						VIVA	Log Book/ Journal	Practical & Oral
Seat No.	Clinical Pharmacy	Clinical Pharmacology	Experimental Pharmacology	Communication	Total			
Max. Marks	20	30	10	10	70	20	10	100

## Second MBBS Practical Mark's Structure (M.U.H.S. Final Exam.)

Applicable w.e.f October 2020 onwards examination for batches admitted from June 2019 onwards

Subject: PHARMACOLOGY									
Practical					Oral/Viva			Total	
Seat No.	Clinical Pharmacy	Clinical Pharmacology	Experimental Pharmacology	Communication	Total	VIVA 1	VIVA 2	Total	Practical & Oral (E + H)
	A	B	C	D	E	F	G	H	I
Max. Marks	20	30	10	10	70	15	15	30	100

**MAHARASHTRA UNIVERSITY OF HEALTH SCIENCES, NASHIK**  
**FORMAT / SKELETON OF QUESTION PAPER**

1. Course and Year : <b>Second MBBS</b> <i>(applicable w.e.f. September 2021 &amp; onwards examinations)</i>	2. Subject Code :
3. Subject (PSP) : <b>Pharmacology</b> (TT) :	
4. Paper : <b>I</b>	5. Total Marks : <b>100</b>
6. Total Time : <b>3 Hrs.</b>	7. Remu. (Rs) : <b>Rs. 300/-</b>
	8. Remu. (Rs) : <b>Rs. 350/-</b>
9. Web Pattern : [ ]	10. Web Skeleton : [ ]
11. Web Syllabus : [ ]	12. Web Old QP : [ ]

**SECTION "A" MCQ**

**Instructions:**

- 1) Put in the appropriate box below the question number once only.
- 2) Use blue ball point pen only.
- 3) Each question carries **One mark**.
- 4) Students will not be allotted mark if he/she overwrites strikes or put white ink on the cross once marked.

**SECTION "A" MCQ (20 Marks)**

1. Multiple Choice Questions (Total 20 MCQ of One mark each) (20 x1 = 20)

a)    b)    c)    d)    e)    f)    g)    h)    i)    j)  
k)    l)    m)    n)    o)    p)    q)    r)    s)    t)

**SECTION "B"**

**Instructions:**

- 1) Use **blue/black** ball point pen only.
- 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 3) **All** questions are **compulsory**.
- 4) The number to the **right** indicates **full** marks.
- 5) Draw diagrams **wherever** necessary.
- 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As It is only for the placement sake, the distribution has been done.
- 7) Use a common answerbook for all sections.

**SECTION "B"**

2. Short Answer Questions ( AETCOM(2.1, 2.2, 2.3)(compulsory) (7x1=07)

a)

3. Short Answer Questions (Answer Any 3 out of 4) (7x3=21)

a)    b)    c)    d)

4. Structured Long Answer Questions (Compulsory) (12x1=12)

a)

5. Short Answer Questions (Answer Any 4 out of 5) (7x4=28)

a)    b)    c)    d)    e)

6. Structured Long Answer Questions (Compulsory) (12x1=12)

a)

# Preface

The Medical Council of India has revised the undergraduate medical education curriculum so that the Indian Medical Graduate (IMG) is able to recognize **“Health for all”** as a national goal. He/she should also be able to fulfil his/her societal obligations. The revised curriculum has specified the competencies that a student must attain and clearly defined teaching learning strategies for the same. With this goal in mind, integrated teaching, skill development, AETCOM and self-directed learning have been introduced. There would be emphasis on communication skills, basic clinical skills and professionalism. There is a paradigm shift from the traditional didactic classroom-based teaching to learning environments where there is emphasis on learning by exploring, questioning, applying, discussing, analysing, reflecting, collaborating and doing. The recognition of this need is enshrined by a greatly enhanced allocation of time to these methods and also the assessment techniques. With this view in mind the log book has been designed as per the guidelines of competency Based curriculum.

## Instructions

- 1) This logbook is prepared as per the guidelines of MCI for implementation of Competency based curriculum for Phase II MBBS students in the subject of Pharmacology.
- 2) Students are instructed to keep their logbook entries up to date.
- 3) Students are expected to write minimum 2 reflections on any two activities each of Clinical Pharmacology skills & Self-Directed Learning (SDL).
- 4) Students also have to write reflections on AETCOM Module 2.1 , 2.2, 2.3) Reflections should be structured using the following guiding questions:
  - x What happened? (What did you learn from this experience)
  - x So what? (What are the applications of this learning)
  - x What next? (What knowledge or skills do you need to develop so that you can handle this type of situation?)
- 5) The logbook assessment will be based on multiple factors like
  - x Attendance
  - x Active participation in the sessions
  - x Timely completions
  - x Quality of write up of reflections
  - x Overall presentation

## Code of Medical Ethics

1. I solemnly pledge myself to consecrate my life to the service of humanity.
2. Even under threat, I will not use my medical knowledge contrary to the laws of humanity.
3. I will maintain the utmost respect for human life from the time of conception.
4. I will not permit consideration of religion, nationality, race, party politics or social standing to intervene between my duty and my patient.
5. I will practice my profession with conscience and dignity.
6. The health of my patient is my first consideration.
7. I will respect the secrets, which are confided in me.
8. I will give my teachers the respect and gratitude, which is their due.
9. I will maintain in my power, the honour and the noble tradition of medical profession.
10. My colleagues will be my brothers.

**I make these promises solemnly, freely and upon my honour.**

### Part- IV Common Medico-legal proforma routinely used in medico-legal Practice

Sr. No.	Medico-legal Proforma	Page	Remark	Sign
1	Form used when forwarding Viscera to the Chemical Analyser	197		
2	Forms used when forwarding substance other than viscera to the chemical analyser	201		
3	Form for Dispatch of Viscera for Histopathological Examination	203		
4	Labels for Viscera Bottles	204		
5	Identification form for forwarding samples for DNA Fingerprinting	206		
6	Summon to witness	207		

## **Instructions to the students for Practical work**

1. Punctuality in attending practical classes should be maintained, as 80 % attendance in practical is mandatory to appear for university examinations.
2. Silence and discipline should be observed during practical work.
3. Clean apron should be worn before entering the practical hall.
4. Every student should bring the practical record, a piece of clean linen, a measuring tape, stethoscope, torch, hammer and a hand lens and coloured pencils.
5. Listen carefully to the instructions given by the teacher for the day's work.
6. After finishing the practical work, complete them in the record book, get the record checked by the teacher on the same day.

**Part- I**  
**Medico-legal and Medical**  
**Certificates**

## 01. Examination of Skeletal Remains (Bones) For Medicolegal Purpose

- 1) **List of Bones received** ( Name of Bone ):--
  - a. Gross anatomical characteristic
- 2) **Condition of Bone:** --  
Brittle, Soiled, Stained, Damaged, Partly Burnt
- 3) **Human or not:** --
  - a. Gross anatomical characteristic
  - b. Microscopic examination,
  - c. Chemical analysis of bone ash
  - d. Precipitin test or Antihuman Immunoglobulin
- 4) **Belong to one individual or more?**
  - a. Number, side and size of the bones
  - b. Age and Sex
  - c. Morphological similarities
  - d. Use of short wave ultra violet light
  - e. X-ray comparison or trabecular pattern
  - f. Neutron activation analysis
- 5) **Stature:** --(body Height/ length)
  - a. Use of multiplication Factor/Regression equation
- 6) **Race of Individual:** --
  - a. Racial peculiarities in the individual bones (various indices)
- 7) **Age of Individual:** -
  - a. Dental status if skull or mandible is available
  - b. Ossification status
  - c. Secondary changes in the bones like closure of skull sutures, bony joint surface etc
- 8) **Sex of Individual:** --
  - a. General Characteristic
  - b. Specific Changes in the individual bone
  - c. Examination of soft parts if available
- 9) **Injuries:**  
Ante mortem or Post-mortem or Could not be determined
- 10) **Manner of Separation:** -
  - a. State of soft tissue if available with marks of bite/cut etc.
  - b. Changes due to putrefaction
- 11) **Cause of Death:** -
  - a. Any injuries/ fracture
  - b. Foreign body –bullet, pellets or any piece of weapon
  - c. Chemical analysis for poisoning
  - d. Neutron activation analysis
- 12) **Time since Death:** -
  - a. State of soft tissue if available
  - b. Changes due to putrefaction
  - c. Immunological test
  - d. Precipitin test
  - e. Nitrogen content test.
- 13) **Identification of Subject:** -
  - a. Congenital abnormalities or deformities
  - b. Acquired peculiarities –injuries fractures etc.
  - c. Determination of the blood group from the marrow/ tooth pulp
  - d. Age, sex/ Race and stature of the individual
  - e. Radiological examination.

## Examination of Skeletal Remains (Bones) For Medicolegal Purpose

To,  
**The Investigating Officer**  
\_\_\_\_\_ Police Station \_\_\_\_\_

Subject: - Regarding Examination of Bones (Skeletal remains)

Reference: Your letter No. \_\_\_\_\_ Dated \_\_\_\_\_ received on Date \_\_\_\_\_  
ADR No/ C.R. No. \_\_\_\_\_ u/s \_\_\_\_\_

Here with forwarding opinion regarding Skeletal remains Brought by PC \_\_\_\_\_ B.No. \_\_\_\_\_  
\_\_\_\_\_ Police Station \_\_\_\_\_.

Bones / Skeletal remains received in sealed /not sealed condition. Seal verified and found intact.

### **Observation / Examination Finding**

- 1) List of Bones received: --( Name of Bone )
- 2) Condition of Bone: --  
(Brittle, Soiled, Stained, Damaged, Intact)
- 3) Human or not: --
- 4) Belong to one individual or more?
- 5) Stature: -- (Multiplication factor/Regressive equation)
- 6) Race: --
- 7) Age: -      A) Ossification Status  
                  B) Secondary Changes  
                  C) Dental Status (Skull, Mandible, Face)
- 8) Sex: --      A) General Characteristic  
                  B) Specific Changes
- 9) Injuries: --
- 10) Manner of Separation:-
- 11) Cause of Death: -
- 12) Time since Death: -
- 13) Identification of Subject: -

### **Opinion: -**

- i) From the above finding, I am of opinion that the bone(s) belong to \_\_\_\_\_  
origin of \_\_\_\_\_ Sex and aged about \_\_\_\_\_
- ii.) Cause of death \_\_\_\_\_
- iii) Time since death \_\_\_\_\_

## 02. Age Estimation Report

### Dental eruption and age-

Temporary Teeth	Eruption Time	Permanent Teeth	Eruption Time
Central incisors (Lower)	6-8 months	First molars	6-7 years
Central incisors (Upper)	7-9 months	Central incisors	6-8 years
Lateral incisors (Upper)	7-9 months	Lateral incisors	8-9 years
Lateral incisors (Lower)	10-12 months	First Bicuspid	9-11 years
first molars	12-14 months	Second Bicuspid	10-12 years
Canines	17-18 months	Canines	11-12 years
Second molars	20-30 months	Second molars	12-14 years
		Third molars	17-25 years

### Development of hairs-

#### A) Axillary hair –

- 14 - 15 years : Brownish, soft sparse growth
- 16 –17 years : Thick, black, well grown

#### B) Beard and moustaches –

- 15 – 16 years – Begins to appear as downy, brown hair over chin.  
Moustaches appear earlier than beard.  
1-2 year after eruption hair became blackish and thick.

#### C) Pubic hairs –

- Stage I – Few brownish, downy hair (12-14 years)
- Stage II – darken and more curled pubic hair (14-16 years)
- Stage III - Darker, thicker, curly adult hair but no hair over medial surface of thigh (16-18 years)
- Stage IV – Thick, black curly pubic hair spread both over Mons pubis and medial surface of thighs (>18 years)

### Ossification centres-

Joint	Bone	Appearance of Ossification centres	Fusion of ossification centres
Elbow	Humerus	Lower end- Capitulum-1 year Trochlea- 10 yrs Lateral epicondyle- 11 yrs Medial epicondyle- 6 to 7 yrs	Lower end of humerus complete fusion- 14 to 16 yrs
	Radius	Upper end (head) - 5 yrs	16 yrs
	Ulna	Upper end (Olecranon)- 9 yrs	16 yrs
Wrist	Radius	Lower end- 2 yrs	18-19 yrs
	Ulna	Lower end- 6 yrs	17-18 yrs
	Carpals	Pisiform-11 yrs, Trapezoid, Scaphoid-5yrs	Base of first metacarpal- 15 yrs
Pelvis	Tri-radiate cartilage	Separate centre in acetabulum-13 yrs	Fuses in acetabulum- 15 yrs
	Ischio-Pubic rami	---	Unites with each other- 6 yrs
	Femur	Lesser trochanter – 12 to 14 yrs	Head and both trochanters-17-18 yrs
		Iliac crest- 14 yrs	20-21 yrs
	Ischial tuberosity- 16 yrs	20-21 yrs	

## **Tanner staging- sexual maturity**

### **MALE (Genital development)**

**Stage 1:** Pre-adolescent stage. Testis, penis, scrotum about same size as childhood. No pubic hair.

**Stage 2:** Enlargement of scrotum and testis. Skin of scrotum reddens and changes in texture. Scanty light pubic hair mainly at base of penis. Little enlargement of penis.

**Stage 3:** Further growth of scrotum. Pubic hair darkens and begins to curl. Penis enlarges mainly in length.

**Stage 4:** Increase in breadth of penis. Development of glans. Scrotum enlarges and darkens. Adult type of pubic hair but does not spread to medial part of thigh.

**Stage 5:** Genitalia adult type. (Penis-10-12cm, Volume of testis-20cc, length of testis-4cm or more)  
Pubic hair spreads to medial part of thigh.

### **FEMALE (Breast / Pubic hair development)**

**Stage1:** Preadolescent; breast shows elevation of papilla only. No pubic hair

**Stage2:** Breast bud stage. Elevation of breast and papilla as a small mound. Enlargement of areola diameter. Scanty lightly pigmented pubic hair, mainly at labia.

**Stage3:** Further enlargement of breast and areola, no separation at contours. Pubic hair becomes darker and begins to curl.

**Stage4:** Projection of areola and papilla to form a secondary mound above the level of breast. Adult type of pubic hair less in amount and no spread to medial surface of thigh.

**Stage5:** Mature stage. Projection of nipple only; recession of areola to the level of general contour of breast. Adult feminine triangular type of pubic hair, may spread to medial side of thigh.

# Age Estimation Report

**A. Preliminary Information-** Name: Shri/ Smt/ Kum. \_\_\_\_\_

Age as stated-\_\_\_\_\_ Sex-\_\_\_\_\_ Address-\_\_\_\_\_

Brought by: \_\_\_\_\_

Date:\_\_\_\_\_ Time:\_\_\_\_\_ MLC No:\_\_\_\_\_ Dated: \_\_\_\_\_

**Consent:** I am willing to get examined physically and radiologically for estimation of age.

**Table: Age-related Changes in the Foetus**

Parameter	Age in Lunar Months							
	3 <sup>rd</sup>	4 <sup>th</sup>	5 <sup>th</sup>	6 <sup>th</sup>	7 <sup>th</sup>	8 <sup>th</sup>	9 <sup>th</sup>	10 <sup>th</sup>
Length	About 9 cm	About 16 cm	About 25 cm	About 30 cm	About 35 cm	About 40 cm	About 45 cm	About 45-50 cm
Weight	About 30gm	About 120gm	About 400gm	About 700gm	About 1kg	About 1.5kg	About 2-2.5kg	About 3-3.5kg
Nails	In membranous form	-	Nearing tips of fingers	-	Thicker but do not reach ends of fingers	Reach tips of fingers	Beyond tips of fingers	Beyond tips of fingers but reach only the tips of toes
Lanugo	-	First exhibited between 13 and 16 weeks	Covers face and body	-	Greatest between 28 and 30 weeks	Disappeared from the face	Around shoulders only	-
Scalp Hair	-	-	Appear	Appreciable	About 1.0 cm long	About 1.5 cm long	About 2 cm long	About 2-3cm long
Sex	Indistinguishable	Differentiable	-	-	-	-	-	-
Eyes	-	-	-	Eyelids adherent. Eyelashes Appear	Eyelids non-adherent. Eyelashes Present	Well-Formed	-	-
Pupil Membrane	Appears	Visible	Present	Present	Disappears	-	-	-
Vernix Caseosa	-	-	Appears	Present	-	-	Present over flexures of joints and neck folds	Present over flexures of joints and neck folds
Meconium	-	In the upper part of small intestine	In the beginning of large intestine	In the upper part of large intestine	In the whole of large intestine	-	In the Rectum	-
Testicles	-	-	-	Lie close to respective kidneys	Lt—near the external inguinal ring; Rt—near the internal inguinal ring	Lt—in the scrotum Rt—near the external inguinal ring	Both testicles in the scrotum	-
Centres of ossification	-	-	For calcaneum and ischium	For manubrium & 1st segment of sternum	For talus, 2nd & 3rd segment of sternum	-	For lower end of femur	For cuboid upper end of tibia, etc.

## 04. Medical Certificate of Cause of Death (MCCD)

The data on cause of death contained in the certificate serve many purposes: they help in assessing the effectiveness of public health programmes and provide a feed-back for future policy and implementation. They are essential for better health planning and management and for deciding priorities of health and medical research programmes.

- ❖ Legal Provisions: Registration of Birth & Deaths Act (RBD), 1969 for certification by a medical practitioner who has attended the deceased during the latter's last illness. The relevant sections of the Act are: **Section 10(2), Section 10(3), Section 17(1) (b)**

### 2. SPECIFIC INSTRUCTIONS

#### Name of the deceased

To be given in full. Do not use initials. Also give name of father (or husband in case of married female) after the name of the deceased, using appellation S/o or D/o or W/o. In case of infants not yet named, write son (or daughter) of, followed by names of mother and father.

#### Age

If more than a year old, give age in years last birthday (completed number of years). If under one year, give age in months and days. If under 24 hours, give in hours and minutes. 2.3 Method of certification of cause of death 2.3.1 The medical part of the certificate is designed by the WHO to facilitate reporting the underlying cause of death and to obtain information of the causal and pathological sequence of events leading to death. It consists of two parts, the first relating to the sequence of events leading to death, and the second to other significant conditions that contributed to the death.

This part should be written by the attending physician or a physician having personal knowledge of the case history. The names of the diseases should be written in full and legibly to avoid the risk of their being misread. Abbreviations and short form of disease condition should not be used. He should avoid indefinite or inadequate terms. Inadequate descriptions may put the statistical office in difficulty at the time of classification of the data. Mention of terminal events or mode of dying as the only entry in the statement leaves the certificate incomplete. Similarly, symptomatic remarks will not suffice. A properly completed certificate will show the underlying cause on the lowest used line of part I and the conditions if any, as a consequence thereof will have been entered above it in ascending casual order of sequence.

### **PART – I OF THE CAUSE OF DEATH STATEMENT**

Only one cause is to be entered on each line of Part I. The underlying cause of death should be entered on the lowest line used in this part. The underlying cause of death is the condition that started the sequence of events between normal health and the (direct) immediate cause of death.

#### **Line (a): Immediate cause**

The direct or immediate cause of death is reported on line (a). This is the disease, injury or complication that directly preceded death. It can be the sole entry in the statement if only one condition was present at death. There must always be an entry on line (a). The mode of dying (e.g., heart failure, respiratory failure) should not be stated at all since it is no more than a symptom of the fact that death occurred and provides no useful information. In the case of a violent death, enter the result of the external cause (e.g., fracture of vault or skull, crushed chest).

**Line (b):** Due to (or as a consequence of) If the condition on line (a) was the consequence of another condition, record that in line (b). This condition must be antecedent to the immediate cause of death, both with respect to time and etiological or pathological violence or circumstances of accident is antecedent to an injury entered on line (a) and should be entered on line (b), although the two events are almost simultaneous (e.g., automobile accident, fall from tree). An antecedent condition might have just prepared the way for the immediate cause of death, by damage to tissues or impairment of function, even after a long interval.

**Line (c):** The condition, if any which gave rise to the antecedent condition on line (b) is to be reported here. The remarks given for line (b) apply here also. If the condition on line (b) is the underlying cause, nothing more be entered on this line. However, if the sequence of events comprises more than three stages, extra line (and entries) may be made in part I. However, many conditions are involved; write the full sequence, one condition per line, with the most recent condition (immediate cause) at the top, and the earliest (the condition that started the sequence of event between normal health and death) last. Normally the condition or circumstance on the lowest line used in part I will be taken as the basis for underlying cause statistics, though classification of it may be modified to take account of complications or other conditions entered by special provisions of the ICD.

## **PART-II OTHER SIGNIFICANT CONDITIONS**

Enter, in order of significance, all other diseases or conditions believed to have unfavourably influenced the course of the morbid process and thus contributed to the total outcome but which were not related to the disease or condition directly causing death. There will be cases where it will be difficult to decide whether a condition relevant to death should be recorded as part of the fatal sequence in part I or as a contributory condition in part II. Conditions in part I should represent a distinct sequence so that each condition may be regarded as being the consequence of the condition entered immediately below it. Where a condition does not seem to fit into such a sequence, consider whether it belongs to part II. In certifying the causes of death for Part II, any disease, abnormality, injury or late effects of poisoning, believed to have adversely affected the decedent should be reported, including:

- Use of alcohol and/or other substances.
- Smoking history.
- Environmental factors, such as exposure to toxic fumes, history of working in some specific industry, professional exposure to toxins, specific animals etc.
- Recent pregnancy, if believed to have contributed to the death.
- Late effects of injury, including head injury sequelae
- Surgical information, if applicable.
- Any iatrogenic underlying cause.

## **INTERVAL BETWEEN ONSET AND DEATH**

Space is provided, against each condition recorded on the certificate for the interval between the presumed onset of morbid condition and the date of death. Exact period should be written when it is known; in other cases, approximate periods like “from birth”, “several years” or “unknown” should be indicated. This provides a useful check on the sequence of causes as well as useful information about the duration of illness in certain diseases.

Accidents or suicide or homicide is ruled out, how the fatal injury occurred should be explained indicating briefly the circumstances or cause of the accident. In case of medico-legal cases, the certificate has to be given by the police authorities. However, the Registrar should be informed of such cases, by the hospital.

Female death Information on pregnancy and delivery is needed in case of death of women in the childbearing age (15 to 49 years) even though the pregnancy may have had nothing to do with the death. 2.6 Ensuring completeness of information

While giving the casual chain of events in the statement of cause of death, a complete case history is not required but, if information is available, enough details may be given to enable proper classification of the underlying cause. The certifier cannot always be certain as to what details are required and therefore, a list giving examples of incomplete descriptions and what additional information are required is included in the annexure for guidance.

The terms included in the annexure are those employed usually and are of the following types: - (i) A symptom that may arise from different group of diseases. (ii) A morbid condition that could result from several types of infection, known or unknown. (iii) With connotation of any of several morbid conditions having distinctive categories in the classification list like acute, sub-acute, chronic, simple etc. (iv) Mention of a disease which is generally localised, without indicating the organ or part of the body affected. (v) A morbid condition that requires for its classification, a knowledge of the circumstances in which it arose.

As a general rule, record diagnoses as precisely as the information permits, incorporating relevant details from histological or autopsy reports. Where an important detail is unknown the fact should be stated.

The following gives the pertinent details required to be spelt out in the medical part of the certificate corresponding to the major cause group of mortality;

1. Infections: Acute, sub-acute or chronic, name of the disease and/or infecting organism, the site if localised; mode of transmission, where relevant.
2. Neoplasms: The morphological type if known; malignant, benign etc., site of origin of primary growth and sites of secondary growths.
3. Endocrine disorders: Nature of disease process or disturbance of function: For thyroid diseases, whether toxic: for diabetes, nature of complication or manifestation in particular site.
4. Nutritional disorders: Type of deficiency, etc., and severity.
5. Blood disorders: Nature of disease process; type and nature of any deficiency for anaemias; whether hereditary (where relevant)
6. Nervous system disorders: Disease process; infecting organism (where relevant) whether hereditary (where relevant).
7. Circulatory diseases: Nature of disease process; site, if localized; acute or chronic where relevant, specify rheumatic or other aetiology for valvular heart conditions; any complications.
8. Respiratory diseased: Nature of disease process; acute or chronic; infecting organism, any external cause.
9. Digestive diseased: Nature of disease process; site of ulcers, hernias, diverticula, etc. Acute or chronic where relevant, nature of any complication for ulcers, appendicitis, hernias.
10. Genitourinary disorders: Acute or chronic, clinical syndrome and pathological lesions; site of calculi, infecting organism and site of infections; nature of complications.
11. Maternal deaths: Nature of complication: whether obstruction occurred during labour; timing of death in relation to delivery; for abortions, whether spontaneous or induced, legal or illegal, if induced.
12. Musculoskeletal disorders: Nature of disease process, infecting organism, underlying systemic diseases (where relevant); site; complication, whether congenital or acquired for deformities.
13. Congenital anomalies: Site and type, complications.

14. Perinatal deaths: Condition in foetus or infant; conditions in mother or of placenta, cord or membranes, if believed to have affected the foetus or infant; for deaths associated with immaturity, state length of gestation and/or birth weight; type of birth trauma; and complications, etc.
15. Injuries: Type, site, complications.
16. Poisoning: Substance involved; whether accidental (if suicide or homicide is ruled out). 17. Adverse effects of drugs in therapeutic use: State this fact and name or drug, nature of adverse effect, complications; condition treated.
17. External cause of accidents: For transport accidents, state vehicle involved, whether deceased was driver, passenger, etc. Description of accident place of occurrence, for other accidents, specifies circumstances and place of occurrence.
18. Old age or senility: This should not be given if a more specific cause is known. If old age was a contributory factor it should be entered in part II only.

### **ICD classification of diseases**

The International Classification of Diseases (ICD) is the standard classification system for epidemiology, health management and clinical purposes. It contains a finite number of mutually exclusive code categories, describing all disease conditions. The classification is hierarchical in structure with subdivisions to identify broad groups and specific entities.

There are 3 key elements to the structure of ICD-10:

1. It has 3 volumes
  - i. Volume 1 -- a tabular listing of diseases
  - ii. Volume 2 -- an instruction manual
  - iii. Volume 3 -- the comprehensive alphabetical index of diseases
2. It has 22 chapters
3. The structure of the ICD code is alphanumeric

### **Filling ICD code on a death certificate**

The ICD code should be coded for all causes of death (immediate, intermediate and underlying causes) on a death certificate. ICD code for each cause of death should be filled against the particular cause of death in the death certificate.

**Example: Patient XYZ is admitted with Acute Gastroenteritis and Dehydration & then dies in the ward.**

Name of the Deceased				For use of Statistical office
Sex	Age at Death			
	If 1 year or more, age in years	If less than 1 year, age in Months	If less than one month, age in days	
1. Male 2. Female 3. Transgender				
<b>CAUSE OF DEATH</b>				
<b>I</b>				Interval between onset & death approx:
<b>Immediate Cause</b> State the disease, injury or complication which caused death, not the mode of dying such as heart failure, asthenia, etc...		(a)..... <b>Dehydration</b> Due to (or consequences of)		<b>E86</b>
<b>Antecedent Cause</b> Morbid conditions, if any, giving rise to the above Cause, stating underlying conditions last		(b)..... <b>Acute Gastroenteritis</b> Due to (or consequences of) (c).....		<b>A09</b>
<b>II</b>				
Other significant conditions contributing to the death but not related to the disease or conditions causing it

## 08. Examination \ Certificate of the injured (Injury Report)

1. Medico-legal injury cases should be examined without delay after adopting the lifesaving procedure.
2. Valid consent for examination must be obtained from the injured or the competent authority.
3. All observation should be entered at once in the accident register with appropriate sketches and diagrams. Injury should be photographed whenever possible.
4. Relevant information should always be entered in injury certificate or report and be prepared in duplicate.
5. Whenever there is apprehension of death of the injured person *or* he is likely to die from the effect of the injury, arrangement should be made for recording dying declaration.

### **Definitions:**

**Injury:** Legal definition as per sec. 44 IPC.

**Hurt:** Legal definition as per sec. 319 IPC.

**Simple injury:**

**Grievous hurt:** Legal definition as per sec. 320 IPC.

**Sub:** Submission of report of examination of weapon in connection with \_\_\_\_\_

**Reference:**

1) Your letter No. \_\_\_\_\_ Dated \_\_\_\_\_ with sealed packed weapon.

2) Injury Report / MLPM No.: \_\_\_\_\_ issued by \_\_\_\_\_ Date: \_\_\_\_\_

Sir,

With reference to the above letter, I am sending the report about the weapon sent in sealed condition in connection with the injuries of \_\_\_\_\_

**Name of weapon** \_\_\_\_\_

**Kind of weapon** \_\_\_\_\_

**Type of weapon** \_\_\_\_\_

**Description of the weapon:**

Weight of weapon: \_\_\_\_\_ (gm)

Total length of weapon: \_\_\_\_\_ (cms)

Blade: is of \_\_\_\_\_, Texture: \_\_\_\_\_

Length: \_\_\_\_\_, Breadth: \_\_\_\_\_, Thickness: \_\_\_\_\_

Edges / Margins: \_\_\_\_\_ Point: \_\_\_\_\_

Stains / Foreign body if any: \_\_\_\_\_

Joint: Type: \_\_\_\_\_, Hilt: Size: \_\_\_\_\_

Handle: is of \_\_\_\_\_ Texture: \_\_\_\_\_

Length: \_\_\_\_\_, Breadth/ Maximum Circumference: \_\_\_\_\_

Stains / Foreign body if any: \_\_\_\_\_

**Opinion:**

Injuries possible by above weapon:

Identification marks if any on the weapon.

*(Put the signature on the weapon)*

The weapon was packed, sealed and handed over to \_\_\_\_\_ of police station \_\_\_\_\_ for forwarding to FSL for chemical analysis.

Place: \_\_\_\_\_

Date & Time: \_\_\_\_\_

Receipt of weapon and report

(Impression of seal)

Signature

Name of Doctor \_\_\_\_\_

Designation \_\_\_\_\_

**2) Examination of the Weapon in Cases of Injuries (Hard & Blunt weapon)**

To,  
**The Investigating Officer**

## 10. Medico-legal Examination of Survivors / Victims of Sexual Violence

### Definition of Rape:

**CONFIDENTIAL**

**Medico-legal Examination Report of Sexual Violence**

1. Name of the Hospital \_\_\_\_\_ OPD No. \_\_\_\_\_ Inpatient No. \_\_\_\_\_
2. Name \_\_\_\_\_ D/o or S/o (where known) \_\_\_\_\_
3. Address \_\_\_\_\_
4. Age (as reported) \_\_\_\_\_ Date of Birth (if known) \_\_\_\_\_
5. Sex (M/F/Others) \_\_\_\_\_
6. Date and Time of arrival in the hospital \_\_\_\_\_
7. Date and Time of commencement of examination \_\_\_\_\_
8. Brought by \_\_\_\_\_ (Name & signatures)
9. MLC No. \_\_\_\_\_ Police Station \_\_\_\_\_
10. Whether conscious, oriented in time and place and person \_\_\_\_\_
11. Any physical/intellectual/psychosocial disability \_\_\_\_\_

(Interpreters or special educators will be needed where the survivor has special needs such as hearing/speech disability, language barriers, intellectual or psychosocial disability.)

**12. Informed Consent/refusal**

I \_\_\_\_\_ D/o or S/o \_\_\_\_\_

hereby give my consent for:

- |  |        |
|--|--------|
| a) Medical examination for treatment                     | Yes/No |
| b) This medico-legal examination                         | Yes/No |
| c) Sample collection for clinical & forensic examination | Yes/No |

I also understand that as per law the hospital is required to inform police and this has been explained to me. I want the information to be revealed to the police \_\_\_\_\_ Yes/No

I have understood the purpose and the procedure of the examination including the risk and benefit, explained to me by the examining doctor. My right to refuse the examination at any stage and the consequence of such refusal, including that my medical treatment will not be affected by my refusal, has also been explained and may be recorded. Contents of the above have been explained to me in \_\_\_\_\_ language with the help of a special educator/interpreter/support person (circle as appropriate) \_\_\_\_\_.

If special educator/interpreter/support person has helped, then his/her name and signature \_\_\_\_\_

Name & signature/thumb impression of Witness

\_\_\_\_\_  
\_\_\_\_\_

With Date, time and place

Name & signature of survivor or parent/Guardian/person in whom the child reposes trust in case of child (<12 yrs)

\_\_\_\_\_  
\_\_\_\_\_

With Date, time and place

**13. Marks of identification (Any scar/mole):**

(1) \_\_\_\_\_

(2) \_\_\_\_\_

\_\_\_\_\_

Left Thumb impression

**15C.**

- i. Emotional abuse or violence if any (insulting, cursing, belittling, terrorizing) \_\_\_\_\_
- ii. Use of restraints if any \_\_\_\_\_
- iii. Used or threatened the use of weapon(s) or objects if any \_\_\_\_\_
- iv. Verbal threats (for example, threats of killing or hurting survivor or any other person in whom the survivor is interested; use of photographs for blackmailing, etc.) if any: \_\_\_\_\_
- v. Luring (sweets, chocolates, money, job) if any \_\_\_\_\_
- vi. Any other: \_\_\_\_\_

**15D.**

- i. Any H/O drug/alcohol intoxication: \_\_\_\_\_
- ii. Whether sleeping or unconscious at the time of incident: \_\_\_\_\_

**15E.** If survivor has left any marks of injury on assailant/s, enter details: \_\_\_\_\_

**15F.** Details regarding sexual violence:

*Was penetration by penis, fingers or object or other body parts (Write Y=Yes, N=No, DNK=Don't know) Mention and describe body part/s and/or object/s used for penetration.*

Orifice of victim	Penetration			Emission of semen		
	By penis	By body part of self or assailant or third-party finger, tongue or any other)	By object	Yes	No	Don't know
Genitalia (vagina and/or urethra)						
Anus						
Mouth						

Oral sex performed by assailant on survivor	Y	N	DNK
Forced masturbation of self by survivor	Y	N	DNK
Masturbation of assailant by survivor, forced manipulation of genitals of assailant by survivor	Y	N	DNK
Exhibitionism (perpetrator displaying genitals)	Y	N	DNK
Did ejaculation occur outside body orifice (Vagina/anus/mouth/urethra)?	Y	N	DNK
If yes, describe where on body			
Kissing, licking or sucking any part of survivor's body	Y	N	If yes, describe
Touching/ fondling	Y	N	If yes, describe
Condom used*	Y	N	DNK
If yes, status of condom	Y	N	DNK
Lubricant used*	Y	N	DNK
If yes, describe kind of lubricant used			
If object used, describe object:			
Any other form of sexual violence			

\*Explain what condom and lubricant is to the survivor

Post incident has the survivor	Yes/No/Do not know	Remarks
Changed clothes		
Changed undergarments		
Cleaned/washed clothes		
Cleaned/washed clothes undergarments		
Bathed		
Douched		
Passed urine		
Passed stools		
Rinsing of mouth/brushing/vomiting (circle any or all as appropriate)		

Time since incident \_\_\_\_\_  
H/o vaginal/anal/oral bleeding/discharge prior to the incident of sexual violence \_\_\_\_\_  
H/o vaginal/anal/oral bleeding/discharge since the incident of sexual violence \_\_\_\_\_  
H/o painful urination/ painful defecation/ fissures/ abdominal pain/pain in genitals or any other part since the incident of sexual violence \_\_\_\_\_  
\_\_\_\_\_

16. General Physical Examination-

- i. Is this the first examination \_\_\_\_\_
- ii. Pulse \_\_\_\_\_ BP \_\_\_\_\_
- iii. Temp \_\_\_\_\_ Resp. Rate \_\_\_\_\_
- iv. Pupils \_\_\_\_\_
- v. Any observation in terms of general physical wellbeing of the survivor \_\_\_\_\_

17. Examination for injuries on the body if any

The pattern of injuries sustained during an incident of sexual violence may show considerable variation. This may range from complete absence of injuries (more frequently) to grievous injuries (very rare).

*(Look for bruises, physical torture injuries, nail abrasions, teeth bite marks, cuts, lacerations, fracture, tenderness, any other injury, boils, lesions, discharge specially on the scalp, face, neck, shoulders, breast, wrists, forearms, medial aspect of upper arms, thighs and buttocks) Note the Injury type, site, size, shape, colour, swelling signs of healing simple/grievous, dimensions.)*

Scalp examination for areas of tenderness, if hair pulled out/ dragged by hair)	
Facial bone injury: Orbital blackening, tenderness	
Petechial haemorrhages in eyes and other places	
Lips and Buccal mucosa/ gums	
Behind the ears	
Ear drum	
Neck, Shoulders and Breast	
Upper limb	
Inner aspect of upper arms	
Inner aspect of thighs	
Lower limb	
Buttocks	
Other, please specify	

18. Local examination of genital parts/other orifices\*

A. External genitalia: record finding and state NA where not applicable.

Body parts to be examined	Findings
Urethral meatus and vestibule	
Labia majora	
Labia minora	
Fourchette and introitus	
Hymen	
Perineum	
External urethral meatus	
Penis	
Scrotum	
Testes	
Clitoropenis	
Labioscrotum	
Any other	

B. Per Vaginum /Per Speculum examination should not be done unless required for detection of injuries or for medical treatment.

P/S findings if performed \_\_\_\_\_

P/V findings if performed \_\_\_\_\_

Record reasons if P/V of P/S examination performed \_\_\_\_\_

C. Anus and Rectum (encircle the relevant)  
Bleeding/tear/discharge/oedema/tenderness

---

---

D. Oral Cavity - (encircle the relevant)  
Bleeding/ discharge/ tear/oedema/ tenderness

---

---

19. Systemic examination:

- 1) Central Nervous System: \_\_\_\_\_
- 2) Cardio Vascular System: \_\_\_\_\_
- 3) Respiratory System: \_\_\_\_\_
- 4) Chest: \_\_\_\_\_
- 5) Abdomen: \_\_\_\_\_

20. Sample collected/ Investigations for hospital laboratory/ clinical laboratory:

- 1. Blood for HIV, VDRL, HbsAg \_\_\_\_\_
- 2. Urine test for pregnancy \_\_\_\_\_
- 3. Ultrasound for pregnancy/ internal injury \_\_\_\_\_
- 4. X-ray for injury \_\_\_\_\_

21. samples collection for central /state forensic laboratory.

- 1. Debris collection paper \_\_\_\_\_
- 2. Clothing evidence where available-(to be packed in separate paper bags after air drying)

List of Details of clothing worn by the survivor at time of incident of sexual violence

3. Body evidence samples as appropriate (duly labelled and packed separately)

	Collected/ Not collected	Reason for not collecting
Swabs from stains on the body (Blood, semen, foreign material, others)		
Scalp hairs (10-15 strands)		
Head hair combing		
Nail scrapings (Both hands separately)		
Nail clippings (Both hands separately)		
Oral swab		
Blood for grouping, testing drug/ alcohol intoxication (plain vial)		
Blood for alcohol levels (Sodium fluoride vial)		
Blood for DNA analysis (EDTA vial)		
Urine (drug testing)		
Any other (tampon/sanitary napkin/condom/object)		

4. Genital and anal evidence (each sample to be packed, sealed and labelled separately to be placed in bag).

\* swab sticks for collecting samples should be moistened with distilled water provided.

	Collected / Not collected	Reason for not collecting
Matted pubic hair		
Pubic hair combing (mention if shaved)		
Cutting of pubic hair (mention if shaved)		
Two vulval swabs (for semen examination and DNA testing)		
Two vaginal swabs (for semen examination and DNA testing)		
Two anal swabs (for semen examination and DNA testing)		
Vaginal smear (air-dried) for semen examination		
Vaginal washing		
Urethral swab		
Swab from glans penis/ clitoropenis		

\*samples to be preserved as directed till handed over to police along with duly attested sample seal.

22. Provisional medical opinion:

I have examined (survivor) \_\_\_\_\_ M/F/other aged \_\_\_\_\_  
 reporting (type of sexual violence and circumstances) \_\_\_\_\_ days/hours after incident,  
 after having (bathed/douched) \_\_\_\_\_ my findings are as follows:

\*samples collected (for FSL) awaiting reports \_\_\_\_\_

\*samples collected (for hospital laboratory) \_\_\_\_\_

\*clinical findings \_\_\_\_\_

\*Additional observations (if any) \_\_\_\_\_

23. Treatment prescribed:

Treatment	Yes	No	Type and comments
STI prevention treatment			
Emergency contraception			
Wound treatment			
Tetanus prophylaxis			
Hepatitis B vaccination			
Post exposure prophylaxis for HIV			
Counselling			
Other			

24. Date and time of completion of examination \_\_\_\_\_

This report contains \_\_\_\_\_ number of sheets and \_\_\_\_\_ number of envelopes.

Place: \_\_\_\_\_

Signature of examining doctor/s \_\_\_\_\_

Date: \_\_\_\_\_

Name of examining doctor/s \_\_\_\_\_

Seal

25. **Final opinion:** (After receiving lab reports)

Findings in support of the above opinion, taking into account the history, clinical examination findings and laboratory reports of \_\_\_\_\_ bearing above identification marks described above \_\_\_\_\_ hours/days after the incident of sexual violence, I am opinion that: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Place: \_\_\_\_\_

Signature of examining doctor/s \_\_\_\_\_

Date: \_\_\_\_\_

Name of examining doctor/s \_\_\_\_\_

Seal

**\*copy of the entire report must be given to the survivor/ victim free of cost immediately.**

## 11. Examination of Accused of Sexual Violence

Name of Hospital: \_\_\_\_\_

OPD/ IPD No: \_\_\_\_\_ MLC No : \_\_\_\_\_ Date : \_\_\_\_\_

### 1. Case Particulars:

Requisition from \_\_\_\_\_ vide letter No. \_\_\_\_\_ Dated \_\_\_\_\_  
brought and identified by \_\_\_\_\_

### 2. Particulars of the alleged accused:

- i. Name: \_\_\_\_\_ S/o \_\_\_\_\_
- ii. Address: \_\_\_\_\_
- iii. Age as stated \_\_\_\_\_ iv. Occupation \_\_\_\_\_
- v. Married/Single/Divorcee \_\_\_\_\_ vi. Religion: \_\_\_\_\_
- vii. Marks of Identification:  
(a) \_\_\_\_\_ (b) \_\_\_\_\_
- viii. Examined in presence of (name with signature) \_\_\_\_\_

### 3. Consent given in writing

I \_\_\_\_\_ hereby voluntarily consent and agree to following  
( Mark each that applies)

- a) Medical examination and examination of genitals, examination of other secondary sexual characters and examination of other body parts.
- b) Collection of samples for medical and Forensic examination and treatment.

All this has been explained to me in the manner and language, which I can understand

Left Thumb impression

Signature of accused/ Guardian

*Note: Age estimation is mandatory if the alleged accused is minor*

### 4. Brief History:

- i. As given by police: \_\_\_\_\_  
\_\_\_\_\_
- ii. As given by alleged accused:
  - a. If he admits or denies the incidence(Account of incidence as per his statement)
  - b. Did he know the victim before? \_\_\_\_\_
  - c. Date and time of incidence: \_\_\_\_\_
  - d. Any history of S.T.D : YES / NO \_\_\_\_\_
  - e. Did he take bath, wash etc. after the alleged incidence? : YES / NO \_\_\_\_\_
  - f. Has he changed clothes after the incidence? : YES / NO \_\_\_\_\_
  - g. Condom used while sexual intercourse: YES / NO \_\_\_\_\_
  - h. Frequency and number of sexual intercourse: \_\_\_\_\_
  - i. Brief description of acts of penetration/ejaculation: \_\_\_\_\_
  - j. History of alcohol/other drug abuse: \_\_\_\_\_
  - k. Allergies: \_\_\_\_\_ Current medication: \_\_\_\_\_
  - l. Any Relevant Surgical history: \_\_\_\_\_
  - m. Any other: \_\_\_\_\_

**5. Physical examination:**

**Clothing:** If same was worn during the incidence look for presence of blood stains, semen, vaginal stain, female pubis hair, mud, grass, lipstick, any tear etc. and describe

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**6. General examination:**

Height: \_\_\_\_\_ Weight: \_\_\_\_\_ Body Built: \_\_\_\_\_

Blood Pressure: \_\_\_\_\_ Pulse: \_\_\_\_\_ RR: \_\_\_\_\_

Axillary hair: \_\_\_\_\_

Beard & Moustaches: \_\_\_\_\_

Pubic hair (including tanner staging) \_\_\_\_\_

Dentition: (8/8) \_\_\_\_\_

**7. Systemic Examination**

CNS : (Mental status) \_\_\_\_\_

CVS: \_\_\_\_\_ RS: \_\_\_\_\_

**8. Marks of violence if any (Tick mark if present and describe):**

Bite marks: \_\_\_\_\_

Abrasions: \_\_\_\_\_

Contusions: \_\_\_\_\_

Any other: \_\_\_\_\_

**9. Genital Examination:**

a. (Indicate as Y = Yes, N = No)

Observation	Pubic region	Thigh and adjoining part
Matted hair		
Seminal stain		
Blood		
Loose foreign hair		

**b. Penis:**

Observations	Remark
Development (Tanner Stage)	
Any defect/ Deformity	
Whether foreskin can be freely rolled up or is circumcised	
Evidence of any disease e.g. STD	
Presence of smegma under the foreskin	
Hair under prepuce	
Any stains nearby	

**Injuries over Genital:**

Prepuce: \_\_\_\_\_

Glans penis: \_\_\_\_\_

Frenulum: \_\_\_\_\_

Scrotum: \_\_\_\_\_

Any other: \_\_\_\_\_

### 10. Sample collection for Hospital/Clinical Laboratory

Sr No	Sample Name	Test For	Preservative/ Packing collected?	Yes/No
1.	Urethral Swab	Microscopy& Culture	Plain Sterile Bulb	
2.	Swab from discharge	Microscopy& Culture	Plain Sterile Bulb	
3.	Blood	Serology (For STD and Hep. B)	Plain Sterile Bulb	
4.	Urine (midstream)	Microscopy& Culture	Plain Sterile Bulb	

**Note:** Every forensic examination room should have adjacent laboratory for detection of sperms and vaginal epithelium (Lugol's iodine test).

### 11. Collection of Samples for Forensic Analysis:

- a) Clothing, where available (Each garment to be wrapped separately and packed in paper bags after air drying) \_\_\_\_\_

### b) Sample collection for Forensic science laboratory:

Sr No	Name of sample	Test (for evidence of)	Preservative / Packing	Collected YES/NO
1	Clothes (outer & inner)	For identification of any biological stains/ material from victim and scene of crime	Paper envelope	
2	Matted pubic hair	For detection of semen and identification of any hairs from victim	Paper envelope	
3	Combed pubic hairs	To identify foreign hairs by comparing with victim	Paper envelope	
4	Scalp hairs (10 to 15)	For comparison those found on victim and scene of crime	Paper envelope	
5	One swab & smear from prepuce, coronal sulcus	For detection of vaginal/buccal epithelial cells and DNA	Sterile tube & Paper envelope	
6	One swab & smear from glans and urethral meatus	For detection of vaginal/buccal epithelial cells and DNA	Sterile tube & Paper envelope	
7	Scrotal swab and smear	For detection of any biological stains	Sterile tube	
8	Swab and smear from stains on body	For detection of any biological stains	Sterile tube & Paper envelope	
9	Penile washing	For detection of vaginal/buccal epithelial cells and DNA	Sterile tube	
10	Buccal swab and smear	For detection of any biological stains and DNA	Paper envelope	
11	Nail clipping / scrapping	For detection of skin, blood, hair fiber of victim if human tissue blood group and DNA	Paper envelope	
12	Blood	Blood grouping	Plain bulb	
13	Blood	DNA analysis	EDTA bulb	
14	Blood	Drugs /alcohol	Fluoride and oxalate bulb	
15	Urine	Drugs /alcohol	Fluoride bulb	
16	Other object if any swab and smear	For detection of vaginal/buccal epithelial cells and DNA	Sterile tube & Paper envelope	

**Note:** Samples must be collected as per time elapsed between assault and examination, history received from alleged accused and clinical examination.

**12. Provisional opinion:**

I have examined \_\_\_\_\_ Sex \_\_\_\_\_

Aged \_\_\_\_\_ reporting on dated \_\_\_\_\_, \_\_\_\_\_ days/hours after the incidence.

My findings are as follows:

- Samples collected (for FSL): \_\_\_\_\_
- Samples collected (for hospital laboratory): \_\_\_\_\_
- Significant clinical findings: \_\_\_\_\_
- Additional observations (if any): \_\_\_\_\_

“The Opinion is kept pending awaiting the above laboratory reports”.

(This report contains \_\_\_\_\_ number of sheets and \_\_\_\_\_ number of envelopes.)

Place: \_\_\_\_\_

Signature of examining doctor \_\_\_\_\_

Name of examining doctor \_\_\_\_\_

Seal

**13. Final Opinion (After receiving Lab reports)**

Taking into consideration the history of the case, the data on clinical examination and the report of FSL (all being considered together) and other investigations

- A.** 1. Penetrative sexual assault i.e., of vaginal/ anal/ urethral/ oral penetration by the male sex organ. (*when presence of genital & physical injuries & the subject’s penile washings show vaginal / buccal epithelium or faecal matter*)
2. Sexual assault by objects other than genitals (*when presence of physical injuries & the object shows presence of vaginal /buccal epithelium or faecal matter*)
3. No sexual and penetrative assault.

**B.** Intoxications (*Lab report positive for drugs/alcohol*)

**C.** Injuries suggestive of sexual assault (*when presence of genital & physical injuries over body & the subject’s penile washings are negative for vaginal/buccal epithelium or faecal matter*)

**D.** Any other comments: \_\_\_\_\_

### 13. Examination of Alcoholic Person (Drunkenness)

**AIM:**

- a) To decide whether the subject is under the influence of alcohol, and if so to what extent.
- b) To decide whether his condition is due to illness or injury;
- c) To decide whether it is safe for him to be detained in a police station or to decide whether he is to be admitted to a hospital.

A doctor should attend the case as soon as possible without any delay.

**DEFINITION:**

**Drunkenness:** ‘It is a condition produced in a person who has taken alcohol in a quantity sufficient to cause him to lose control of his faculties to such an extent, that he is unable to execute safely, the occupation in which he is engaged at the particular time.’

**Use of alcohol in human population –**

---

---

**Laboratory investigations –**

---

---

---

---

**Clinical Interpretation**

**a). The individual examined has not consumed alcohol.**

No smell of alcohol in breath and / or lab analysis is negative, clinical examination normal.

**b) The individual examined has consumed alcohol but not under influence of it.**

Smell of alcohol in breath present and / or lab. Analysis reveals the presence of alcohol, but clinical examination reveals normal findings.

**c) The individual examined has consumed alcohol and is under influence of it.**

Smell of alcohol in breath present and / or lab. Analysis reveals the presence of alcohol, and clinical examination reveals *abnormal* findings (definite signs of muscular in co-ordination, dilated pupils with sluggish reaction to light, fine lateral nystagmus, slurred in-coherent speech, staggering gait, delayed reaction time, etc).

**Under the influence** (100 -200mg%) – flushed face, dilated sluggish pupil, euphoria, loss of restrain, increased reaction time, test errors, stagger on sudden turning.

**Drunk** (200-300mg%) - flushed face, dilated sluggish inactive pupils, clouding of intellect, incoordination of thoughts, speech and action, staggering gate with reeling and lurching while making sudden turn.

**Very drunk** – flushed or pale face, pupils inactive contracted or dilated, mental confusion, marked incoordination of thoughts, speech and action, staggering and reeling gate with tendency to lurch and fall, vomiting, amnesia.

### **Differential Diagnosis of Alcohol Intoxication**

Head injury. Cerebral tumour, Incipient C.V.A., Epilepsy, Disseminated sclerosis. Acute aural vertigo. Hypoglycaemia, Hyperglycaemia, Thyrotoxicosis, Delirium. Uraemia, Hepatic failure. Fatigue, Carbon monoxide poisoning, Hypomania, Psychosis, Hysteria and, Drugs esp. *Insulin, Barbiturates, Antihistamines, Narcotics, Sedatives, Antidepressants*.

### **Medico-Legal Aspects of Drunkenness**

#### **Drunkenness and criminal responsibility –**

- **Sec 85 IPC** – act of a person incapable of judgment of reason of intoxication caused against his will.
- **Sec 86 IPC** – offence requiring a particular intent or knowledge, committed by one who is intoxicated.

#### **Drunkenness and consent –**

- **Sec 90 IPC** – the consent given by an insane or intoxicated person who is unable to understand the nature and consequences of that to which he gives his consent is invalid.

#### **Drunkenness and driving –**

- **Sec 185 of Motor Vehicle Act (1988, Amend. 1994)** – 30 mg%
- **Sec 279 IPC** – Rash driving on a public way
- **Sec 287 IPC** – Negligent conduct with respect to machines.

#### **Drunkenness and disturbance of the peace –**

- **Sec 510** – Misconduct in by drunken person

#### **Medico-legal examination**

- **Sec 53 & 54 Cr.P.C**  
Bombay High court ruling – collection of samples does not violate constitutional right to privacy

**Examination of Alcoholic Person (Drunkness)**

Date: \_\_\_\_\_

To,

The Investigating officer,

\_\_\_\_\_ Police station \_\_\_\_\_

**Subject:** Regarding examination of person with alleged history of intoxication.

**Reference:** Your letter No \_\_\_\_\_ Dated \_\_\_\_\_ Police Station \_\_\_\_\_

**Date and Exact time of examination:**

Name of Person examined \_\_\_\_\_, Age \_\_\_\_\_ (in years)

Address: \_\_\_\_\_ Occupation: \_\_\_\_\_

**Consent:** (Informed consent) \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_

(This consent is explained to patient in \_\_\_\_\_ language)

Signature / Thumb impression  
(Subject/Guardian)

Examined in presence of-  
Signature/Thumb impression-

Identification marks: (At least two unique identification marks)

i) \_\_\_\_\_

ii) \_\_\_\_\_

iii) Left Thumb Impression

**History:**

As stated by person examined \_\_\_\_\_

a. Has he consumed alcohol? If so, note the time, nature & quantity of the drink? \_\_\_\_\_

b. What food and drink he took last and when? \_\_\_\_\_

c. H/o fits, illness or other disability? \_\_\_\_\_

d. Is he Chronic alcoholic? Frequency of alcohol intake? \_\_\_\_\_

e. History of any medication? Nature & dose? \_\_\_\_\_

f. H/o Diabetes? Time of insulin taken & dose taken? \_\_\_\_\_

**General appearance and demeanor:**

- a. State of clothing- Decent, disarrayed, soiled
- b. Disposition- Calm, talkative, abusive, obscene
- c. Speech- Incoherent/ slurred/clear
- d. Gait- Steady/ staggering, self-control

**General examination-**

- 1) B.P.: \_\_\_\_\_
- 2) Pulse (rapid & bounding, slow, etc.): \_\_\_\_\_
- 3) Temperature (surface temp. raised, lowered, normal): \_\_\_\_\_
- 4) Skin (dry, moist, flushed or pale): \_\_\_\_\_
- 5) Mouth (smell of alcohol, dribbling of saliva, \_\_\_\_\_  
furred tongue, dry lips, etc.): \_\_\_\_\_
- 6) Eyes (lids swollen or red, conjunctivae congested or \_\_\_\_\_  
not, visual acuity, pupils dilated or contracted, \_\_\_\_\_  
nystagmus (+/-) & reaction of pupil to light & accommodation): \_\_\_\_\_
- 7) Gait:
  - (a) Manner of walking (unsteady/ steady). \_\_\_\_\_
  - (b) Reaction time to a direction to turn. \_\_\_\_\_
  - (c) Manner of turning (normal/ staggering). \_\_\_\_\_
- 8. Muscular coordination: \_\_\_\_\_

(Perform any of the test enumerated below

- a. Walking along a straight line, b. Finger nose test \_\_\_\_\_
- c. Picking up a coin from the floor, d. Romberg's sign/test \_\_\_\_\_
- e. Handwriting, f. Copying simple geometric figures) \_\_\_\_\_

**Examination of System (to exclude any other condition)**

- a. Central Nervous system \_\_\_\_\_
- b. Cardiovascular system \_\_\_\_\_
- c. Respiratory System \_\_\_\_\_
- d. Abdomen \_\_\_\_\_

**Examination of bodily Injuries (If any):** \_\_\_\_\_

## Chapter—XIII—Blood Test

### {136} THE BOMBAY PROHIBITION (MEDICAL EXAMINATION AND BLOOD TEST) RULES, 1959

“**Registered Medical Practitioner**” means any registered medical practitioner authorised by general or special order by the State Government under sub-section (4) of section 129-A of the Act;

“**Testing Officer**” means the Chemical Examiner or assistant Chemical examiner to government or any other officer appointed by the State Government for testing blood under sub-section (1) of section 129-A of the Act.

**Medical examination.**—A registered medical practitioner before whom a person is produced under sub-section (1) of section 129-A of the Act by a Police Officer or a Prohibition Officer for the purpose of medical examination of such person or collection of his blood, shall examine such person and if he deems necessary, collect and forward in the manner prescribed in these Rules, the blood of such person and furnish to the officer by whom such person was produced a certificate in Form ‘A’ containing the result of his examination and shall keep a copy of such certificate on his record.

#### ***Manner of collection and forwarding of blood—***

- (1) The registered medical practitioner shall use a syringe for the collection of the blood of the person produced before him under rule 3 the syringe shall be sterilised by purring in boiling water before it is used for the aforesaid purpose. He shall clean with sterilized water and swab the skin surface of the part of such person’s body from which he intends to withdraw the blood. No alcohol shall be touched at any stage while withdrawing blood from the body of the person. He shall withdraw not less than 5 c. c. of venous blood in the syringe from the body of the person. The blood collected in the syringe shall then be transferred into a phial containing anti-coagulant and preservative and the phial shall then be shaken vigorously to dissolve the anti-coagulant and preservative in the blood. The phial shall be labelled and its cap sealed by means of sealing wax with the official seal or the monogram of the registered medical practitioner.
- (2) The sample blood collected in the phial in the manner stated in sub-rule (1) shall be forward for test to the Testing Officer either by post or with a special messenger so as to reach him within seven days from the date of its collection. It shall be accompanied by a forwarding letter in form ‘B’ which shall bear a facsimile of the seal or monogram used for sealing the phial of the sample blood.

**Certificate of test of sample blood.** —The Testing Officer shall on receipt of the sample blood, test it and shall certify the result of his test in Form ‘C.’ The Testing Officer shall send the certificate in duplicate to the registered medical practitioner by whom the blood was forwarded to him for test and retain a copy thereof on his record. On receipt of the certificate from the Testing Officer, the registered medical practitioner shall forward the original copy of the certificate to the Police Officer or the Prohibition Officer concerned. The duplicate copy of the certificate shall be kept by him on his record.

**FORM 'A'**

(See rule 3)

Certificate by a registered medical practitioner showing whether a person examined by him has or has not consumed an intoxicant.

Serial No. \_\_\_\_\_ (Name and location of the Dispensary or Hospital)

Certified that Shri/Smt./Kumari. \_\_\_\_\_

of \_\_\_\_\_ was brought to this hospital/dispensary by \_\_\_\_\_

\_\_\_\_\_ (here state name and designation of the Officer) on \_\_\_\_\_ 20 \_\_\_\_, at \_\_\_\_\_ A.M./P.M.

and was examined by me on \_\_\_\_\_ 20 \_\_\_\_, at \_\_\_\_\_ A.M./P.M

A clinical examination of the above-named person disclosed the following:

Age \_\_\_\_\_

Weight \_\_\_\_\_

Breath : Smelling  
*(Alcohol / ganja / bhang/ charas / opium)* Not smelling

Speech : Incoherent  
Normal

Gait : Unsteady  
Steady

Pupils : Dilated  
Normal

Additional remarks, if any. : \_\_\_\_\_

I find that the above-named person has consumed alcohol/opium/ charas/ ganja/ bhang.  
has not consumed any intoxicant.

I also find that he is under the influence of alcohol.  
is not

*N. B.—*

(Blood from the body of the above named was collected by me for chemical examination).  
was not

Dated: \_\_\_\_\_ 20 \_\_\_\_ (Signature) \_\_\_\_\_

Place: \_\_\_\_\_ Designation \_\_\_\_\_

Signature/Thumb-impression  
of the person examined.

Marks of identification of the person examined in case he refuses to give his signature or thumb-impression.

**FORM 'B'**  
[See rule 4 (2)]

No. \_\_\_\_\_

From

\_\_\_\_\_  
(Name, designation and address of the registered medical practitioner.)

To,

\_\_\_\_\_  
(Name, designation and address of the Testing Officer.)

Dated \_\_\_\_\_ 20

Sir,

I, forward herewith by post/with Shri\* \_\_\_\_\_  
of \_\_\_\_\_ a phial bearing serial No. \_\_\_\_\_  
containing \_\_\_\_\_ c. c. of venous blood collected by me on \_\_\_\_\_  
at \_\_\_\_\_ A.M./P.M. of \_\_\_\_\_  
who was produced before me for medical examination † and / or collection of blood from his / her body  
‡ by \_\_\_\_\_  
and request you to test the blood and issue a certificate (in duplicate) regarding the result of the test.

Yours faithfully,  
Signature and designation of the  
registered medical practitioner.

Facsimile of the seal or monogram used for  
sealing the phial containing the blood.

\_\_\_\_\_  
\* Here specify the name, designation and address of the messenger with whom the phial containing  
the blood is forwarded for delivery to the Testing Officer.

† Strike off, if these words are not required.

‡ Here state the name and designation of the officer by whom the said person was produced for  
collection of blood.

**FORM 'C'**

(See rule 5)

**Alcohol Examination Certificate**

No. R \_\_\_\_\_ of \_\_\_\_\_

I. Case No. \_\_\_\_\_

Dated \_\_\_\_\_

From,

\_\_\_\_\_  
(Here mention name, designation and address of testing officer.)

To,

\_\_\_\_\_,

(Here mention the name, designation and address of Registered Medical Practitioner.)

Your letter No. \_\_\_\_\_ Dated \_\_\_\_\_, forwarding a phial containing blood of  
Shri/Smt./Kumari. \_\_\_\_\_

of \_\_\_\_\_ bearing Serial No. \_\_\_\_\_  
labelled. \_\_\_\_\_ received here on \_\_\_\_\_

by post/with messenger Shri \_\_\_\_\_ of \_\_\_\_\_

sealed/unsealed, seal perfect and as per copy sent/seals intact device no copy sent.

**Result of the test of the blood**

The blood contained \_\_\_\_\_ per cent. W/V of ethyl-alcohol.

*Method, Factual Data and Reasons leading to the Result of Blood analysis*

(1) *Method of Analysis*—Modified Cavette's Method Journal Analytical Chemistry, 1959, 31, 1908. It is based on oxidation of alcohol by chromic acid as that in Cavette's Method but the oxidation is carried out in vacuum and at room temperature. It takes only a fraction of a minute instead of a few hours to complete the reaction. Ketonic bodies are volatile acids do not interfere in this method. All usual precautions essential in microanalytical work mentioned in the paper referred to above have been strictly followed, e.g., all chemical used in the test were of reagent quality the apparatus was first cleaned with hot chromic acid, then repeatedly with tap water and finally with distilled water. 2[It was then dried in hot air oven.] No grease was used anywhere in the apparatus. The atmosphere of the room where the test was carried out was free from all gases or suspended impurities. Fresh glass-distilled water used throughout the test.

(2) *Factual Data and Reasons for arriving at the findings pertaining to the blood sample in question.*

Analysed on \_\_\_\_\_

Smell: Nothing to note/Has characteristic smell of \_\_\_\_\_

Quantity of blood taken for analysis : 0.5 ml.

Quantity of N/20 dichromate taken : 5.00 ml.

Quantity of N/20 dichromate used up in oxidising alcohol in the sample \_\_\_\_\_ ml.

1 ml. of N/20 dichromate oxidises 0.000575 gramme of ethyl-alcohol.

2[Therefore, 100 ml. of blood contained.  $0.000575 \times$  \_\_\_\_\_ ml. of dichromate used  $\times$  100  
gramme of 0.50 ethyl-alcohol.]

Signature and Designation of testing officer

*Note.*—(1) WV = \_\_\_\_\_ grammes of ethyl-alcohol in 100 c. c. of blood.

(2) The blood sample was stored in refrigerator from the time it was received in the laboratory till it was taken for analysis.

1. Subs. by G. N. of 26-9-1963.

2. Subs. by G. N. of 6-12-1963.

Format of Medico-Legal report of a person in Police, Judicial Custody or Referred by court of Law and Violation of Human rights as requirement of NMRC, who has been brought for Medical Examination.

**14. Medico-Legal Examination of person at the time of entry into in Police / Judicial Custody and periodically thereafter**

1. (a) By whom was the corpse sent?  
(b) Name of place from which sent.  
(c) Distance of place from which sent.
2. By whom was the corpse brought?
3. By whom identified?
  - i.
  - ii
4. (a) The date, hour and minute of its receipt.  
(b) The date, hour and minute of beginning of post mortem Examination  
(c) The date, hour and minute of ending of postmortem examination.
5. Substance of accompanying report from police office or magistrate, together with the date of death, if known.  
Supposed cause of death or reason, for examination.
6. If not examined at dispensary or hospital-  
(a) Name of place where examined -  
(b) Distance from Dispensary or hospital.  
(c) Reason why the body was not sent to the dispensary or hospital.

**II. External Examination: -**

7. Sex, apparent age, race or caste,  
Description of clothes and of ornaments on the body.
8. Condition of the clothes –  
Whether wet with water, stained with blood or soiled with vomit or faecal matter.
9. Special marks on the skin such as scars, tattooing etc, any malformations peculiarities or other marks of identification.  
State of the teeth.

**In newly-born infants: -**

- The length and (if possible), the weight of the body is to be recorded together with the state of the hair, nails and umbilical cord, its length, whether placenta is attached or not, and if present, its size and condition.
10. Condition of Body- Whether well nourished, thin or emaciated warm or cold.
  11. Rigor Mortis- Well-marked, slight or absent whether present

12. Extent and signs of decomposition, presence or post-mortem lividity of buttocks, loins, back and thighs or any other part. Whether bullae present and the nature of the fluid it contains, condition of the cuticle.
13. Feature- Whether natural or swollen, state of eyes, position of tongue; nature of fluid (if any) oozing from mouth, nostrils or ears.
14. Conditions of skin etc.  
In suspected drowning the presence or absence of cutaneous anserine is to be noted.
15. Injuries to external genitals.  
Indication of purging.
16. Position of limbs- Especially of arms and of fingers or on the skin of hands and feet.
17. Surface wounds, and injuries- Their nature, position, dimensions (measured) and directions to be accurately stated- their probable age and causes to be noted.  
If bruises be present, what is the condition of the subcutaneous tissues?  
(N.B- When injuries are numerous and cannot be mentioned within the space available they should be mentioned on a separate paper which should be signed.)

18. Other injuries discovered by external examination or palpation of fractures etc.
- 18a. Can you say definitely that the injuries shown against serial nos. 17 and 18 are *ante-mortem injuries*?

### **III. Internal Examination: -**

19. Head: -

(i) Injuries under the scalp and their nature.

(ii) Skull: vault and base-describe fractures their sites, dimensions, direction etc.

(iii) Brain: The appearance of its coverings, size, weight and general condition of the organ itself and any abnormality found in its examination to be carefully noted.

20. Thorax: -

- (a) Walls, ribs, cartilages
- (b) Pleura
- (c) Larynx, Trachea and bronchi
- (d) Right Lung with weight
- (e) Left Lung with weight
- (f) Pericardium
- (g) Heart with weight
  
- (h) Large vessels
- (i) Additional remarks

21. Abdomen: -

- (a) Walls -
  
- (b) Peritoneum -
- (c) Cavity-
- (d) Buccal cavity, teeth, tongue and pharynx-
- (e) Oesophagus-
- (f) Stomach and its contents-
  
- (g) Small intestine and its contents-
- (h) Large intestine and its contents-
- (i) Liver and gall bladder with weight-
- (j) Pancreas and suprarenals-
- (k) Spleen with weight.
- (l) Kidneys with weights
- (m) Bladder-
- (o) Organ of generation-
  
- (p) Additional remarks with, wherever possible, Medical Officer's deduction from the state of contents of the stomach as to the time of death and last meal.
  
- (q) State which viscera, (if any) have been retained for chemical examination and also quote the numbers on the bottles containing the same-

22. Spine and spinal cord-
23. a) Whether the ante-mortem injuries found on the dead body were sufficient in the ordinary course of nature to cause death?
- (b) If yes, which of the injuries were individually sufficient in the ordinary course of nature to cause death?
- (c) Which of the injuries collectively are sufficient in the ordinary course of nature to cause death?

**Opinion as to the probable/Final cause of death: -**

14. Conditions of skin etc.  
In suspected drowning the presence or absence of cutaneous anserine is to be noted.
15. Injuries to external genitals.  
Indication of purging.
16. Position of limbs- Especially of arms and of fingers or on the skin of hands and feet.
17. Surface wounds, and injuries- Their nature, position, dimensions (measured) and directions to be accurately stated- their probable age and causes to be noted.  
If bruises be present, what is the condition of the subcutaneous tissues?  
(N.B- When injuries are numerous and cannot be mentioned within the space available they should be mentioned on a separate paper which should be signed.)

18. Other injuries discovered by external examination or palpation of fractures etc.
- 18a. Can you say definitely that the injuries shown against serial nos. 17 and 18 are *ante-mortem injuries*?

### **III. Internal Examination: -**

19. Head: -

(i) Injuries under the scalp and their nature.

(ii) Skull: vault and base-describe fractures their sites, dimensions, direction etc.

(iii) Brain: The appearance of its coverings, size, weight and general condition of the organ itself and any abnormality found in its examination to be carefully noted.

20. Thorax: -

- (a) Walls, ribs, cartilages
- (b) Pleura
- (c) Larynx, Trachea and bronchi
- (d) Right Lung with weight
- (e) Left Lung with weight
- (f) Pericardium
- (g) Heart with weight
  
- (h) Large vessels
- (i) Additional remarks

21. Abdomen: -

- (a) Walls -
  
- (b) Peritoneum -
- (c) Cavity-
- (d) Buccal cavity, teeth, tongue and pharynx-
- (e) Oesophagus-
- (f) Stomach and its contents-
  
- (g) Small intestine and its contents-
- (h) Large intestine and its contents-
- (i) Liver and gall bladder with weight-
- (j) Pancreas and suprarenals-
- (k) Spleen with weight.
- (l) Kidneys with weights
- (m) Bladder-
- (o) Organ of generation-
  
- (p) Additional remarks with, wherever possible, Medical Officer's deduction from the state of contents of the stomach as to the time of death and last meal.
  
- (q) State which viscera, (if any) have been retained for chemical examination and also quote the numbers on the bottles containing the same-

22. Spine and spinal cord-
23. a) Whether the ante-mortem injuries found on the dead body were sufficient in the ordinary course of nature to cause death?
- (b) If yes, which of the injuries were individually sufficient in the ordinary course of nature to cause death?
- (c) Which of the injuries collectively are sufficient in the ordinary course of nature to cause death?

**Opinion as to the probable/Final cause of death: -**

by **Dr** \_\_\_\_\_ / \_\_\_\_\_ Hospital \_\_\_\_\_.

**I. General Particulars: -**

1. (a) By whom was the corpse sent?
  - (b) Name of place from which sent.
  - (c) Distance of place from which sent.
2. By whom was the corpse brought?
3. By whom identified?
  - i.
  - ii
4. (a) The date, hour and minute of its receipt.
  - (b) The date, hour and minute of beginning of post mortem Examination
  - (c) The date, hour and minute of ending of postmortem examination.
5. Substance of accompanying report from police office or magistrate, together with the date of death, if known. Supposed cause of death or reason, for examination.
6. If not examined at dispensary or hospital-
  - (a) Name of place where examined -
  - (b) Distance from Dispensary or hospital.
  - (c) Reason why the body was not sent to the dispensary or hospital.

**II. External Examination: -**

7. Sex, apparent age, race or caste, Description of clothes and of ornaments on the body.
8. Condition of the clothes – Whether wet with water, stained with blood or soiled with vomit or faecal matter.
9. Special marks on the skin such as scars, tattooing etc, any malformations peculiarities or other marks of identification. State of the teeth.

**In newly-born infants: -**

- The length and (if possible), the weight of the body is to be recorded together with the state of the hair, nails and umbilical cord, its length, whether placenta is attached or not, and if present, its size and condition.
10. Condition of Body- Whether well nourished, thin or emaciated warm or cold.
  11. Rigor Mortis- Well-marked, slight or absent whether present

12. Extent and signs of decomposition, presence or post-mortem lividity of buttocks, loins, back and thighs or any other part. Whether bullae present and the nature of the fluid it contains, condition of the cuticle.
13. Feature- Whether natural or swollen, state of eyes, position of tongue; nature of fluid (if any) oozing from mouth, nostrils or ears.
14. Conditions of skin etc.  
In suspected drowning the presence or absence of cutaneous anserine is to be noted.
15. Injuries to external genitals.  
Indication of purging.

## **Instructions for Forwarding Blood/Tissue For DNA Fingerprinting/ Paternity Testing.**

1. Medical officer should collect fresh blood in 2 ml plastic tubes (2 blood samples from each person) provided by Regional Forensic Science Laboratory.
2. Please shake the tube for 7-8 times after collecting blood.
3. Duly labelled tube should be kept in sterile plastic bottle which should be immediately sealed.
4. Duly filled IDENTIFICATION FORM should be sent along with the sample.
5. COPY OF SEAL should be provided at the end of IDENTIFICATION FORM.
6. For each person, a separate IDENTIFICATION FORM should be filled by Medical Officer while forwarding samples for DNA profiling.
7. Photograph of person on IDENTIFICATION FORM should be duly signed and attested by the Medical Officer.
8. IDENTIFICATION FORM should be signed by Witnesses in front of Medical Officer.
9. The samples should be sent to the Regional Forensic Science Laboratory in ice box with ice, if more than 4 Hours are required to submit the samples.
10. Products of abortion/ other tissue should be sealed in a sterile plastic bottle and sent to the Regional Forensic Science Laboratory in ice box with ice. If available, 4% EDTA could be used as preservative.
11. Don't use formalin or other preservatives. Formalin preserved samples are considered unacceptable/ inappropriate for DNA analysis by Forensic Science Laboratories.
12. In case of blood transfusion to donor within last three months, blood sample should not be collected. In such case, donor's blood sample should be collected after four months of blood transfusion.

**Identification form for forwarding samples for DNA Fingerprinting/ Profiling**

To  
**Deputy Director,**  
Regional Forensic Science Laboratory,  
State of Maharashtra, \_\_\_\_\_.

Prefix  
photograph.  
  
Photograph to be  
attested by  
Medical Officer

# LOG BOOK CERTIFICATE

**This is to certify that,**

**Mr/Ms.** \_\_\_\_\_

**Roll No. \_\_\_\_\_ has satisfactorily attended/completed all assignments mentioned in this logbook as per the guidelines prescribed by Medical Council of India, for MBBS Competency Based Curriculum in the subject of Obstetrics and Gynecology.**

**Date:** \_\_\_/\_\_\_/\_\_\_\_\_

**Place:** \_\_\_\_\_

**Teacher -in-Charge**

**Professor and Head**

**Department of Obstetrics and Gynecology**

## **Instructions**

The undergraduate medical education program is designed with a goal to create an “Indian Medical Graduate” (IMG) possessing requisite knowledge, skills, attitudes, values and responsiveness, so that she or he may function appropriately and effectively as a physician of first contact of the community while being globally relevant.

This Logbook gives an opportunity to achieve goals pertaining to skill learning in Obstetrics and Gynecology, so that IMG becomes capable to provide respectful maternity and Gynecology care to the society.

- 1) Logbook is a record of the academic / co-curricular activities of the designated student, who would be responsible for maintaining his/her logbook.
- 2) The student is responsible for getting the entries in the logbook verified by the Faculty in charge regularly. Certifications for competencies to be taken on same day.
- 3) Refer to university course content for skill to ensure which competencies to be covered in which phase
- 4) Entries in the logbook will reflect the activities undertaken in the department & have to be scrutinized by the, teacher in charge of session, Head of the concerned unit and department.
- 5) The logbook is a record of various activities by the student like:
  - Overall participation & performance
  - Attendance
  - Participation in sessions
  - Record of completion of pre-determined activities.
  - Acquisition of selected competencies

6) The logbook is the record of work done by the candidate in that department / specialty and should be verified by the college before submitting the application of the students for the University examination.

## **CLINICAL SKILLS : LIST OF COMPETENCIES**

Clinical skills can be assessed by case presentation, case-based discussion, objective structured clinical assessment the checklist, MiniCex, as per the institutional preference.

<b>Competency # addressed</b>	<b>Name of Activity</b>
OG5.1	Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care
OG5.2	Determine maternal high risk factors and verify immunization status
OG6.1	Describe, discuss and demonstrate the clinical features of pregnancy, derive and discuss its differential diagnosis, elaborate the principles underlying and interpret pregnancy tests.
OG8.2	Elicit, document and present history in a OBGY patient including obstetric and menstrual history, last menstrual period, co morbid conditions and past medical history
OG8.3	Describe, demonstrate, document and perform a general, systemic and abdominal examination including obstetrical examinations and clinical monitoring of maternal and fetal well-being.
OG8.4	Describe and demonstrate clinical monitoring of maternal and fetal well-being
OG8.5	Describe and demonstrate pelvic assessment in a model

OG35.1	Obtain a logical sequence of history, and perform a humane and thorough clinical examination, excluding internal examinations (per rectal and per-vaginal)
OG35.2	Arrive at a logical provisional diagnosis after examination.
OG35.3	Recognize situations, which call for urgent or early treatment at secondary and tertiary centres and make a prompt referral of such patients after giving first aid or emergency treatment.
OG35.5	Determine gestational age, EDD and obstetric formula
OG36.1	Plan and institute a line of treatment, which is need based, cost effective and appropriate for common conditions taking into consideration (a) Patient (b) Disease (c) Socio-economic status (d) Institution/ Governmental guidelines.
OG36.2	Organise antenatal, postnatal, well-baby and family welfare clinics
OG38.4	Assess the need for and issue proper medical certificates to patients for various purposes

## **PSYCHOMOTOR / PERFORMANCE SKILLS:**

Skills can be assessed by objective structured clinical assessment with checklist, Global Rating Scale, Simulated patients as per the institutional preference.

Colleges are instructed prepare modules for skill training as per NMC guidelines.

Module 5 Skill Training.

I – independent certification

D - demonstration

## **LIST OF COMPETENCIES**

<b>Competency # addressed</b>	<b>Name of Activity</b>
OG9.2	Describe the steps and observe/ assist in the performance of an MTP evacuation
OG13.3	Observe/ assist in the performance of an artificial rupture of membranes

OG13.4	Demonstrate the stages of normal labor in a simulated environment / mannequin
OG13.5	Observe and assist the conduct of a normal vaginal delivery
OG15.2	Observe and assist in the performance of an episiotomy and demonstrate the correct suturing technique of an episiotomy in a simulated environment. Observe/Assist in operative obstetrics cases – including - CS, Forceps, vacuum extraction, and breech delivery
OG18.2	Demonstrate the steps of neonatal resuscitation in a simulated environment
OG19.3	Observe/ assist in the performance of tubal ligation
OG19.4	Enumerate the indications for, describe the steps in and insert and remove an intrauterine device in a simulated environment
OG33.3	Describe and demonstrate the screening for cervical cancer in a simulated environment
OG34.4	Operative Gynaecology : Understand and describe the technique and complications: Dilatation & Curettage (D&C); EA-ECC, cervical biopsy; abdominal hysterectomy; myomectomy; surgery for ovarian tumours; staging laparotomy; vaginal hysterectomy including pelvic floor repair; Fothergill's operation, Laparoscopy; hysteroscopy; management of postoperative complications
OG35.7	Obtain informed consent for any examination / procedure
OG35.8	Write a complete case record with all necessary details
OG35.9	Write a proper discharge summary with all relevant information

OG35.10.	Write a proper referral note to secondary or tertiary centres or to other physicians with all necessary details
OG35.11	Demonstrate the correct use of appropriate universal precautions for self-protection against HIV and hepatitis
OG35.12	Obtain a PAP smear in a stimulated environment
OG35.13	Demonstrate the correct technique to perform artificial rupture of membranes in a simulated / supervised environment
OG35.14	Demonstrate the correct technique to perform and suture episiotomies in a simulated/ supervised environment
OG35.15	Demonstrate the correct technique to insert and remove an IUD in a simulated/ supervised environment
OG35.16	Diagnose and provide emergency management of antepartum and postpartum hemorrhage in a simulated / guided environment
OG35.17	Demonstrate the correct technique of urinary catheterisation in a simulated/ supervised environment
OG36.3	Demonstrate the correct technique of punch biopsy of uterus in a simulated/ supervised environment
OG37.1	Observe and assist in the performance of a Caesarean section
OG37.2	Observe and assist in the performance of Laparotomy
OG37.3	Observe and assist in the performance of Hysterectomy – abdominal/vaginal
OG37.4	Observe and assist in the performance of Dilatation & Curettage (D&C)

OG37.5	Observe and assist in the performance of Endometrial aspiration - endocervical curettage (EA-ECC)
OG37.6	Observe and assist in the performance of outlet forceps application of vacuum and breech delivery
OG37.7	Observe and assist in the performance of MTP in the first trimester and evacuation in incomplete abortion
OG38.1	Laparoscopy :observe
OG38.2	Hysteroscopy ;observe
OG38.3	Lap sterilization: observe

## AETCOM SKILLS

Counselling for Investigation, Treatment, Prognosis, Blood donation, Organ Donation, Breaking Bad news. All types of consent. Medicolegal aspects and Ethics, Empathy and professionalism as per the Phase of the MBBS. Include cases of Allied branches also.

Competency to be assessed during Clinical postings and /or small group discussions.

### LIST OF COMPETENCIES

<b>Competency addressed</b>	<b>Name of Activity</b>
OG8.6	Assess and counsel a patient in a simulated environment regarding appropriate nutrition in pregnancy
OG13.4	Counsel on methods of safe abortion.
OG17.2	Counsel in a simulated environment, care of the breast, importance and the technique of breast feeding
OG19.2	Counsel in a simulated environment, contraception and puerperal sterilisation

OG20.2	In a simulated environment administer informed consent to a person wishing to undergo Medical Termination of Pregnancy
OG35.4	Demonstrate interpersonal and communication skills befitting a physician in order to discuss illness and its outcome with patient and family
OG35.6	Demonstrate ethical behavior in all aspects of medical practice.
OG35.11	HIV and hepatitis- counselling patients

# REFLECTION ON AETCOM MODULE For PHASE IV

Module 4.2- Case studies in medico-legal and ethical situations

Competency addressed	Level
Identify and discuss medico-legal, socio-economic and ethical issues as it pertains to abortion/ Medical Termination of pregnancy and reproductive rights	KH

Reflection (minimum 200 words) -1

Date:

Signature of Teacher-in-charge

## REFLECTION ON AETCOM MODULE

### Module 4.9- Medical Negligence

DECEMBER 2019

# THE GREY MATTER

---

OFFICIAL QUARTERLY NEWSLETTER OF  
M.I.M.E.R MEDICAL COLLEGE

# Vakratunda

# INSIGHT

Ganeshotsav is celebrated with great zest all over the country and our college is no exception. Every member of our college, be it the organizing batch or the teaching and non teaching staff, all eagerly await Ganesh Chaturthi to seek Bappa's blessings.

Within a span of one week, the auditorium underwent a drastic makeover to welcome Lord Ganesh. Right from the drapes to Bappa's favorite flowers - everything was in hues of vermilion. The theme this year was based on 'Ashtavinayak'-the Eight Ganpati idols. The glittering lanterns added to the charm of the atmosphere. The magnificent and vivacious rangolis adorned the auditorium.

On the day of Bappa's aagaman, the air was thick with gulal. Everyone brimming with excitement, was dancing to the rhythm of the drums. Hymns of Mahaarati elevated everyone's mood and the Mahaprasad was relished by all.

'Vakratunda' not only celebrates cultural traditions, but also promotes students' participation in sports like cricket, dodgeball and football. This gives us the much needed breather from our hectic college schedule and rejuvenates our spirits.

Various activities like a Marvel based treasure hunt, sports quiz, mehendi competition, antakshari and a few more task-games were organized. On the occasion of teachers' day, some fun activities were arranged for the teachers that brought back their college memories and gave them a good opportunity to bond with each other. The most awaited event was the garba night where all the students grooved to the beats of some traditional folk music. Each day was assigned a different dress code and the vibrant outfits added to the glamour of the event.

Right from the auditorium decorations to the backstage arrangement, all the work was done with great enthusiasm which made the event seamlessly grand.

On the last day, students bid Bappa goodbye with a heavy heart eagerly awaiting Bappa's return next year.

- Jahnavi Purohit, II/I M.B.B.S.

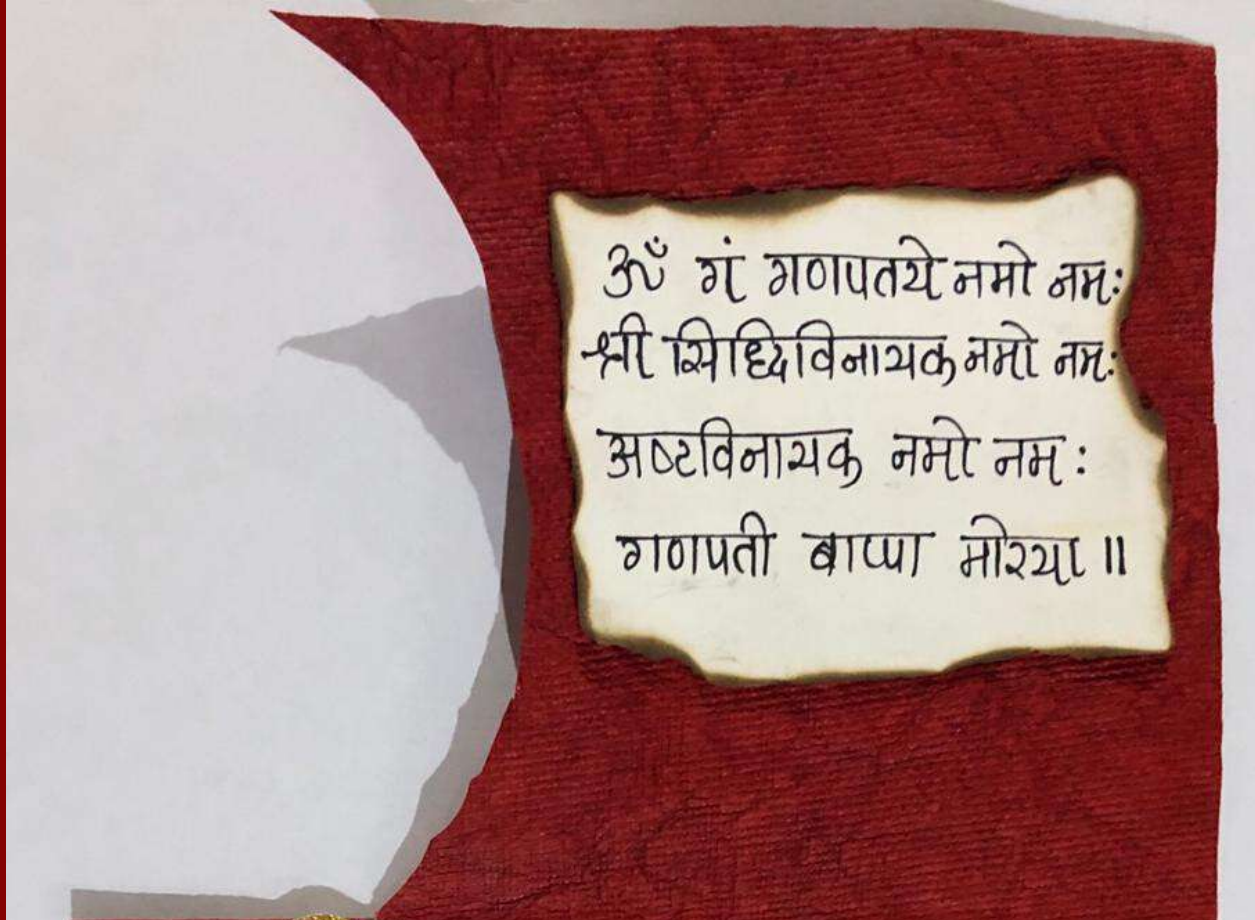

# THEME AND DECORATION

*Dipped in hues of love and unity, has come the festival of Ganesh Chaturthi*

# invites and posters

Respected Sir/Madam,  
 On this auspicious festival of Ganesh Chaturthi, We invite you all to seek the blessings of the holy deity Lord Ganesha, on 2<sup>nd</sup>-6<sup>th</sup> September, 2019.  
 Kindly grace this event with your presence.

Respected Sir/Madam,

## WHAT IS YOUR BLOODY AGE?

From their mystic arches to their cryptic loops, fingerprints have ruled the forensic medicine world in criminal identification for a long time, but, now it's time for the most dramatic element of any crime to take over the job.

In a study conducted by The University of Albany, Chemistry professor, Jan Halamek and his team have discovered that blood can be used to determine the age of a criminal.

By analysing alkaline phosphatase levels, a biomarker found in all body tissues, his team can tell if the person to whom the blood belongs to is over or under 18 years of age. It can also be used to determine the time since the deposition of the blood spot.

Along with Halamek, another chemistry professor Igor Lednev has come up with laser technology that uses Raman spectroscopy and advanced biostatistics to estimate the time since deposition of blood stains upto 2 years.

The principle used is the fact that no two compounds produce the same Raman spectrum on scattering light with a specified intensity.

## BLISTER AT A TOUCH

Singapore is battling a catastrophic sickness- a genetic condition known as Epidermolysis Bullosa. To quote KK Women's and Children's Hospital's Consultant, Mark Koh, "Their skin comes off with the mildest trauma, just like a butterfly's wings. It is very fragile!" Cases of this rare disease have been identified in France and India as well. Living in agony, parents of the diseased children confess that even a hug might tear their skin apart and the slightest friction causes blisters. It takes a lot of gentleness and patience to even bathe these babies. Science however, promises a ray of hope by skin replacement therapy in which cells taken from the patient's skin are genetically corrected and grafted onto the areas with extensive skin loss. This therapy is being currently spearheaded by Brigitte Jane the executive director of Singapore's Institute of Medical Biology.

## METRO: CONNECTING THE UNCONNECTED

They say that the road to recovery begins with a small incision, but these surgical cuts bring along them the risk of hernias and reopenings.

To triumph over the struggles of suturing, biomedical engineers from the University Of Sydney have collaborated with their counterparts from the United States and developed METRO: an elastic glue that seals wounds in under 60 seconds! Especially in body tissues that possess tendency to expand like lungs and arteries. On applying over the cut, it solidifies and cross links with tissue structures. It is treated with UV light along with an in-built degrading enzyme that can be used to modify the time for which the glue lasts so that the underlying wound can heal completely.

Assistant professor Nasim Annabi, the lead author in the study said that, "The beauty of the Metro formulation is that, as soon as it comes in contact with tissue surfaces, it solidifies into a gel like phase without running away."

## HUNTINGTON'S 'CURIA'

Huntington's is a disorder that causes irreversible damage affecting movements, behavior and the ability to think. It is caused by an inherited defect in a single section of DNA present on chromosome number 4. In a breakthrough research at the Lenoard Woolfson Experimental Neurology Center, London; professor Sarah Talazaris and her team have developed IONIS-HTT (Rx) that promises some relief to long suffering Huntington's patients. This drug kills the messenger RNA that is generally translated into a degenerative protein and prevents the creation of damaged proteins.

## MELANOMA MANAGED

(FEBRUARY, 2018)

According to the research done by Robert Cook, PhD, San Diego, the use of 31 gene expression profile, test resulted in change in the clinical management of melanoma patients in almost half the cases ensuring better prognosis. The test known as Decision- DX Melanoma was designed to identify high risk stage I and stage II patients based on biological information from 31 genes within their tumor tissue.

# ANTIBIOTIC RESISTANCE: A GROWING PROBLEM?

by Kalyani Joshi, II/II MBBS

"If at the first sign of infection, you always jump into antibiotics, you do not give the immune system a chance to work and grow

Antibiotic resistance is a major concern in today's time, so much so that there is talk about the world moving back to the pre-antibiotic era which in effect, could bring an end to modern medicine. It won't be long before a major pandemic with resistant strains of bacteria proves to be devastating to humanity.

The ability of bacteria and other microbes to resist the effects of an antibiotic to which they were once sensitive is regarded as antibiotic resistance.

The modern era of antibiotics was started with the discovery of penicillin by Sir Alexander Fleming in 1928. Since its discovery, it has transformed modern medicine and saved millions of lives. With its overuse, however, penicillin resistance became rampant. So in response, new beta-lactam antibiotics were discovered and were used. Gradually, resistance was seen against almost all the antibiotics subsequently developed.

"The public will demand the drug and then will begin an era of abuses."

-Sir Fleming

Sure enough, overuse became a major fountainhead in the genesis of antibiotic resistance. How?

- In bacteria, genes can be inherited from related or nonrelated bacteria on mobile genetic elements like plasmids. This horizontal gene transfer (HGT) allows antibiotic resistance to be transferred among different species of bacteria.

- It can also develop spontaneously due to mutation.

- Antibiotics remove drug-sensitive competitors, which leaves drug resistant bacteria behind to proliferate.

At least 30% of antibiotic courses prescribed in the outpatient setting are unnecessary, meaning that no antibiotic is needed at all. Most of this is for acute respiratory conditions, such as colds, bronchitis, sore throats caused by viruses, and even some sinus and ear infections. Total inappropriate antibiotic use (which includes unnecessary antibiotic use plus inappropriate antibiotic selection, dosing, and duration) may approach 50% of all outpatient antibiotic use.

Noncompliance from the patient is also a reason for the development of antibiotic resistant bacteria, especially in India due to illiteracy, poverty, taboo towards modern medicine and ignorance. Antibiotics are widely used as growth supplements in livestock, to promote growth and to prevent infection thereby improving the overall health of animals in order to produce larger yields & high quality products. However, these antibiotics when ingested by humans, result in transfer of resistant bacteria. Children and elderly people are at an especially higher risk because these groups have the highest rates of antibiotic use.

Development of new antibiotics by the pharmaceutical industry is no longer considered to be a financially wise investment as antibiotics are used for relatively shorter periods & are often curative. Therefore, they aren't as profitable as drugs that treat chronic conditions like diabetes or hypertension. Which is why the industry is in a sense, stagnant.

All of these factors have led to the development of different strains of resistant bacteria. A few examples are: Penicillin Resistant strains, Methicillin-resistant Staphylococcus aureus, Vancomycin resistant Coagulase Negative Staphylococci.

Naturally, it is imperative that steps be taken in order to combat this growing problem. A few of these could be:

- Adopting antibiotic Stewardship Programme: It involves usage of antibiotics only when needed, in proper dose, choice of drug & duration in every case.

-Improvement of prescribing practices: Educational campaigns regarding antibiotic resistance need to be implemented among medical organizations.

-Optimized Therapeutic Regimens: It has been shown that extended duration of treatment is unnecessary and shorter courses of therapy are just as effective as longer ones.

-Improvement of diagnosis and diagnostic tools: This is perhaps the most effective way to reduce antibiotic use by improvement of diagnosis.

- Prevention of transmission of bacterial infections: There is a risk of drug resistant infections to be passed on from one patient to another via the hands of health care personnel or objects used in healthcare. Diligent hand hygiene to be maintained for the health professionals.

- Government & International Initiatives: Public Health messages should be spread to avoid antibiotic abuse.

The prudent use of antibiotics in practice may help us survive this mountainous crisis of antibiotic resistance. This, although a herculean task for the medical field, needs to be taken care of, for the future of humanity.

Hey there  
Humanity!  
We need you  
here in this  
world.

Loads  
of you.

We failed you again Nirbhaya' by Niranjan Thorve, II/II MBBS

# 9:30 PM

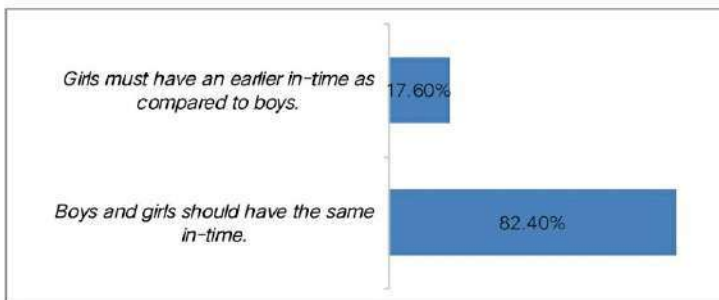

A SURVEY BY MRUJA BHATT, II/II MBBS

The increasing atrocities against women and children has got me wondering how things like hostel in-time affect us or what the root cause of our problems is. This survey is a small step to help us understand the areas we need to work on, as we are the youth that demands change.

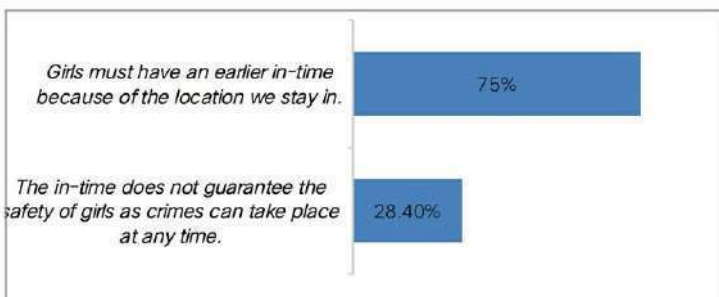

Sample size- 200 students.

Here are the questions and their recorded responses.

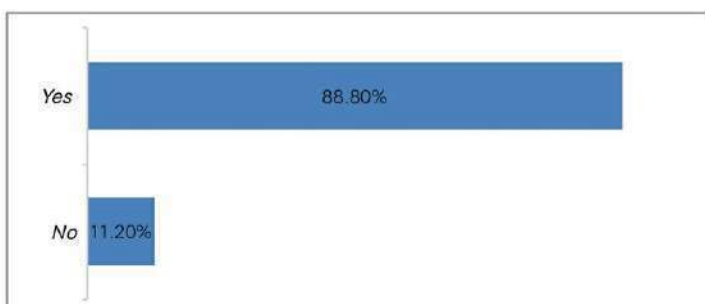

According to me,

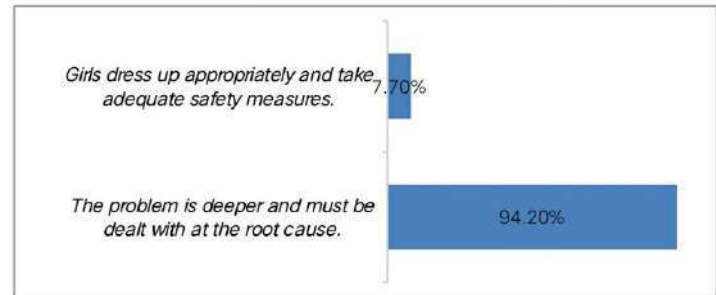

I believe,

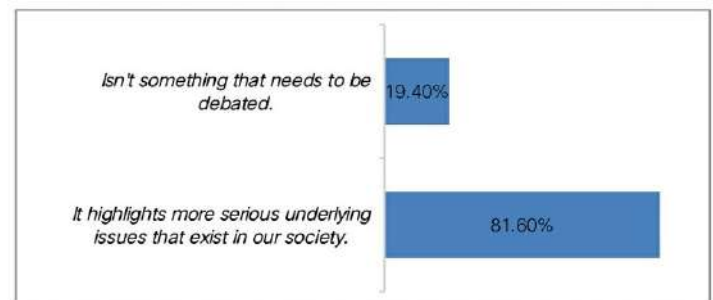

I feel, the Hostel in-time must be extended for the purpose of the use of the Central Library..

I think the issue of girls' safety can be solved if,

According to me, this topic, the Hostel in-time,

"Be safe". People invariably tell us whenever we step out in the evening. At best, the words sound like a challenge; at worst, a threat as stated by Srila Roy.

Whether in the rural lands or in urban areas, Indian women of different castes, classes, and religions face restrictions on a day to day basis. Heinous crimes such as eve teasing, molestation and rape are rampant in our society and the most appropriate solution that we as a society have accepted, is restricting the movement of women rather than addressing the problems at its root. Encouragement to stay at home, to remain in tightly regulated places like women's hostels, to return home early, or to avoid taking public transport are presented as cautious solutions to safety which, has led to further restrictions on women's freedom. In India, the feeling of self-blaming is so internalized that we do not even challenge the notion. Many campaigns such as Why Loiter, Blank Noise, Take Back the Night Kolkata, and Pinjra Tod have been organizing different public awakening programs since a long time. We hope to see a change, not overnight but, eventually and it is each one's responsibility to make sure that it happens so that the future generation live in a more liberated, open and positive society.

Hey Girl,

Before I start off this letter, I just want you to know that you are simply amazing. You are beautiful inside out and I am writing this letter to you, because I believe that you will understand it.

Today, something strange happened. I had a good day at college and after my evening walk in the park, I was heading back to the hostel. I was lost in my thoughts, when I heard some girls at the hostel discussing how they supported feminism. I just smiled and went to my room.

When I came out to eat dinner, I heard the same girls discussing someone else's clothes, how shabby they were. and not "lady-like".

As I replayed their words in my mind, I realized a deeper issue which is almost parasitic to our self-confidence. Its women judging other women! None of the women I have had the pleasure of knowing, need to dress a certain way, behave more lady-like and most of all, they do not need to be told what to do. Each one of us is unique and amazing in our own way. We don't need to be more like anything, except ourselves. We live in a free country and we have the right to expression.

There is a gap that exists between each one of us. A gap, that needs to be filled with nothing but appreciation. Appreciate every woman and accept everyone around you. If women stopped judging other women, the world would be a better place. Trust me.

Yours,  
The Other Girl

PS: Don't judge me

# IN A BLOODY WORLD

by Aparna Suresh and Ariana Patel, I MBBS

Menstruation has been a taboo topic everywhere for far too long. So, it doesn't come as a surprise that most people don't know much about sanitary pads and tampons. In India, the sanitary pad is the most widely used method of menstrual management. The pads we use are mostly made up of synthetic, bleached material. Until recently, before disposable pads were invented around 1888, most women used rags, cotton, or sheep's wool in their underwear to plug the flow of menstrual blood. Knitted pads, rabbit fur, grass and as unbelievable as it sounds, even sand was used, by women in order to handle their periods. It would surprise you all to know that some of these objects are still used by women in some parts of the world.

Even though technological advancements have made menstrual management easy, it comes at a heavy cost. On an average each woman uses around 16,800 pads in a lifetime, where each pad equals to the waste generated by 4 average size plastic bags. 353 million women in India need to dispose their menstrual waste. Often in rural areas menstrual waste is thrown in rivers affecting primary source of water supply. On a survey taken in 2012, it was found that the most common ways of disposing off sanitary napkins was either burning them or disposing them in the drainage systems. The biodegradability value of pads is extremely low considering they are primarily made up of plastic. The waste disposal system is greatly insufficient while dealing with menstrual waste leading to extremely hazardous effects in the environment.

Pads are made up of toxic materials, highly aromatic substances and 90% plastic all of these coming in contact with the sensitive vaginal areas. These have been proved to have carcinogenic effects especially in recent times. Toxic Shock Syndrome is an actual life-threatening infection which can occur with excessive usage of tampon. Usually precipitated by *Staphylococcus Aureus*, characterized by hypotension and, multiple organ failure.

Due to the hazards of sanitary waste there are multiple alternatives in the market. Cotton reusable pads, menstrual cups, menstrual sponges. They are good for the environment. Menstrual cups collect blood from your period and you dump it out only every 10-12 hours, which means you rarely have to head to the bathroom while you use them. You could use a single cup over a span of a year.

Menstrual sponges look a lot like regular bath sponges and they work the same way. They are easy on your wallet too. These alternatives are a win for the environment since 20 billion pads and tampons end up in the landfills every year. 'Aakar Innovations', an Indian company developed a low cost sanitary napkin machine that makes biodegradable sanitary napkins using materials such as banana grass, water hyacinth and pulp fibers at just Rs 2 per napkin. They are sold under the brand name ANANDI. They are UV sterilized and a 100% biodegradable. GOONJ a non-profit organization based in New Delhi makes sanitary pads out of waste cloth for the rural women. Jivika pads produced by the Srikakulam chapter of Association of India's development offers low cost menstrual pads made out of cotton, khadi and even flannel.

You don't entirely have to forget about pads and tampons since reusable ones are now in the market. You can also make them yourself. Like a DIY pad! Beauty and feminist bloggers, take note.

While a large portion of our country is just beginning to adapt to the usage of pads, we as educated individuals should take note of certain things. We must make ourselves and others aware about all the options available for the management of menstruation. Menstruation is accompanied with a lot of malaise for many women as your body is going through some, not so subtle changes. Therefore, we must make use of something that not only makes us feel comfortable but, is safe. Wouldn't it be amazing if it is environment friendly at the same time? Periods were and are, nothing to be ashamed of. It's a part of every woman's life. We must spread awareness about all the options we have available and be able to talk about them!

A menstrual cup

# THAT'S HELA REVOLUTIONARY!

by Simran Kapoor, II/II MBBS

What if a couple of cells that were plucked out of your body without your consent, led to a medical revolution that you're completely unaware of?

Henrietta Lacks, a patient of cervical cancer was admitted to John Hopkins hospital in January 1951. She succumbed to death 10 months later. A small piece of cancerous tissue that was carved out of her womb for a biopsy at Dr. Gey's laboratory, unveiled yet another artwork of the human body. Most cancer cells die within a few days, however, a cluster of this patient's cells not only survived, but panned out, doubling every 24 hours. These cells, coined as the HeLa cells, became the only human cells to be grown outside the body. Following the discovery of these cells, innumerable studies were conducted to gain insight into the cure for cancer. It was not until 20 years later, that the name that called upon the war against cancer was revealed to the world.

Henrietta Lacks, whose cell line HeLa has been a fundamental element in the treatment for Hemophilia, Herpes, Influenza, Leukemia, Parkinson's disease, The Polio vaccine, Chemotherapy, Gene mapping as well as In Vitro Fertilization, will continue to live immortally in the eyes of science. Henrietta Lacks died in 1951, but left behind a genetic miracle for the scientific community to marvel at for many decades to come. However, neither Henrietta nor her family was aware that her cells were used for such revolutionary medical developments. The medical community never got her consent and treated her family with disrespect for years. Henrietta's story isn't just about her contribution to medicine; it's also one of disregard for ethics in biomedical research. Nevertheless, the HeLa cell line remains a strong pillar upon which rests the past, present and future of medicine.

Henrietta's story has been immortalized via page and the big screen!  
Do look for it, it is worth it.

# HUMANITY'S ENEMY

BY ANAMIKA PRASHANT, II/II MBBS

**The butterfly seems busy  
Sucking nectar from a flower  
I look at it feeling dizzy  
Wish my life was something like that**

**Rain drops trickle down the window pane  
At the same speed of my tears  
They both don't erase the pain  
But, tonight I am going to wipe my fears**

**No longer am I going to be the girl  
Who is called the broken pearl  
No longer am I going to be the one  
Whose life has changed a ton**

**You are still there fighting inside  
But I have faith, love and God by my side  
I know you are the one throwing people in the dark  
But tonight I'll throw you in the dark**

**Not only tonight but for the rest of my life  
Not only will I do it, but so will everyone you know  
Even if in the end you get our lives  
So for your own safety lay low**

**Throw all that you can throw at me  
Since everything for you seems to be free  
You took away from me my normal life  
Now I take away from you your multitudinous life**

**If I die tomorrow, today or now  
I hope I have inspired those there right now  
Fighting it like I have fought  
Forming a Resistance to your onslaught**

**So I hope you must have guessed it by now  
That those days are long gone by now  
When all your victims were forever yours  
When their pain, sorrow and life were favorite toys of yours**

**So fight little soldiers fight  
Until everything turns right  
Until cancer takes its own flight  
Fight little soldiers fight.**

Background Art by  
Kirti Rodge, II/I MBBS

# An interview with Saurabh Limaye

Q-What do people not know about you?

I'm from a small town called Lanja in the district of Ratnagiri, famous for Alphonso mango and cashews, I did my schooling there and moved to Pune for my last two years of high school. I was earlier interested in and wanted to pursue a career in subjects like physics and mathematics. I had even gotten a seat in COE, Pune, before finally ending up in MIMER.

Q-What was your inspiration?

My parents and Grandparents. They are amazing people who have worked hard and inspired me through their work every day.

Another individual who I find inspiring, Mr. Steve Jobs. I read his book and learnt a lot by his approach towards life and his work ethics

Q-Tell us about your ultimate stress buster.

My parents are my mentors and counselors. They've helped me in ways I find hard to put into words. The preparation for NEET during my internship was a bit stressful. Listening to music, Coldplay and Shankar Mahadevan helped calm my nerves.

Q-What was the biggest obstacle you've had to overcome?

The loss of my grandfather last year in July. He practiced as a GP for almost 50 years. It was a very difficult period for me and not something I have overcome, but, something I've made peace with over time.

Q-What do you plan to do further?

I want to do my post graduation in General Medicine which is a very dynamic branch. Since my days as an under graduate, I was good at subjects like Physiology, Pharmacology and Medicine itself. I can't wait to learn more about medicine and dive into the bottomless abyss of knowledge.

Q-What will you miss the most about MIMER?

There's a list, actually.

Firstly, I will definitely miss the location, beauty of Talegaon and its surroundings. The college atmosphere. We have a very friendly atmosphere, teachers and seniors are all very helpful and I've come across many inspiring people. MIMER is definitely my second home and the people here are my family.

---

## M.I.M.E.R.'S MUSE

Our desperation to know your inspiration

Khushboo Savla, III/I MBBS

The inception of the goal of becoming a Doctor dates back to when I was in the 3rd grade. There was no dramatic turning point- Its just what I saw myself doing and there has been no turning back ever since. Or as my Mother says, rather dramatically, "I was born to be a doctor." While my mother was expecting me, she was also nursing my grandfather who was diagnosed with bladder cancer. I dont know how true the concept of 'education in the womb' is, but it seems to be a factor that contributed to my love for caring and my passion for Medicine. I want to be a doctor because it is the best and highest pursuit of a life's work for someone who loves solving problems. Someone who is a curious interrogator of the smallest bit of information that is fed to them. That is who I am. My motivation is the sheer happiness that studying medicine gives me. The human body intrigues me. It is so fascinating how an organised collection of flesh, bones and neurons work together in synchrony so meticulously yet, so effortlessly. There are so many aspects of the human body, the depth of which i cannot fathom, it is this state of not knowing that keeps me going.

# DIALOGUE

## Col. Dr. Thind HOD Radiology in conversation with Riya Barar & Damini Narkhede

Q-Where did you do your under graduation and post- graduation from?

A-I did both from AFMC, Pune.

Q-Did you always want to join the army?

A-Yes, I had grown up living in a cantonment area and I was truly inspired by the people around me. I wanted to be an officer in the army. Unfortunately, I was two inches shorter than the required height to join the army. However, as fate would have it, I got an opportunity to join AFMC and serve my country in a way different from what I had imagined.

Q-What are some of the most memorable experiences from your days in the army?

A-I learnt horse riding and hunting. I learnt to treat head injuries and broken bones, which were common while performing such activities. The days we spent horse riding were some of the best days of my life. I was young and enthusiastic back then, I almost volunteered to be in the army my whole life.

Q-What are some of your other interests?

A-I have always enjoyed reading books. I remember how I used to go to the library as a fourth grader and borrow books which I would spend most of my time reading. I am also someone who loves sports. I have played nearly every game. I still go back to AFMC every college day to play a game of basketball. I can't play an entire game anymore though.

Artwork by Niranjan  
Thorve, II/II MBBS

Q-What would you like to say to the younger generation of doctors in our country?

A-I would like to tell them, that they're going to have a tough life. However, they've joined a unique profession. A profession that is defined by their dedication to the community around them. The joy one experiences after seeing the look of relief on a patient's face is unlike any other. All the money in the world will not give you that joy. I would also like to remind them that their profession is in turmoil today but, we must remember to do our jobs honestly.

Q-How has teaching changed you?

A-I've realized that teaching and being a clinician are widely different. The requirements of being able to pass on knowledge are unique and the intricacies of medicine are endless. I enjoy teaching because the curiosity of students leads them to ask interesting questions. Teaching for me, has been a learning experience.

Q-What advice would you give your younger self?

A-I probably wouldn't tell my younger self anything. Because the fellow that I was, I would have ignored my own advice.

Q-What do you feel about Radiology gaining popularity as a field today?

A-I believe that a lot of people see Radiology only for the machines and the beautiful images. They're tempted by the glamour. However, Radiology is hard work. It is an ever changing and fast evolving field and I welcome those who love to learn, into this community.

Q-What is your opinion on the topic of rural postings that was recently up for debate during Plexus?

A-I remember it was many years ago when I was still in the army, when I was called to a nearby village for a medical emergency. A man had walked many kilometers in search of a doctor as he had cut his fingers and was bleeding profusely. All I did was cleaned the wound, dressed it and gave him a tetanus shot. This may not mean much to us, but it is everything to them. Rural postings should be compulsory for those receiving medical education at a subsidized rate.

Q-What would you like to say to the students of our college?

A-To them I would say, "You have come here to train as a doctor. You are among those lucky few. A medico, however, must develop a sense of balance. Just books, isn't the answer. One must always engage in activities that are stimulating to the mind and prepare for the day when a patient comes up to you and recognizes you, because that is the best feeling in the world."

The arts committee, we are more or less invisible to the others (I guess that's our super power), but our work isn't. It starts much before the theme has been revealed. We have fought over the last pair of scissors, snatched brushes and markers from each other, and wracked our brains to make each prop perfect. We worked day and night and could not have accomplished what we did without the help of our

*mamas and kakis*

Finally, the look of admiration on everyone's faces when they walked into the auditorium on the first day made it all worth it.

All our sweat, tears and blood (literally) were forgotten and a strong sense of contentment and happiness prevailed!

- Kosha Gala

PLEXUS, the most awaited event at MIMER. It's not just a gathering, it's about togetherness and the responsibilities of a CS and team to make the event worth the wait! It is about making MIMER dance, sing, play and celebrate as a family. My journey as a CS wasn't just about organizing but also about prioritizing commitments over emotions. It was about opening the auditorium at 8am, working tirelessly till evening and still managing to look presentable for all the photographs! It was about making people believe in me.

I thank PLEXUS 2018 for giving me this opportunity. It was a wonderful journey. Despite all the hiccups, I truly believed that my faith had to be greater than my fears.

- Diya Garg, Cultural Secretary of Plexus 2018

PLEXUS might be just a college event for others, but, for the organizing batch it's an emotion. Somewhere between enjoying the cultural events and cheering for the sports events, we made imagination meet reality through 'THE NEXT DIMENSION'. All through the ups and downs in the journey of PLEXUS, we realised that happiness does not come from doing easy work but, from the afterglow of satisfaction that comes after achieving a difficult task that demands our best.

Here's to the 14 days of teamwork, hardwork and most importantly togetherness!

- Munazza Shaikh, Ladies Representative of Plexus 2018

**BHAVESH KANKRIYA    DIYA GARG    HRUSHIKESH HENDRE    MUNAZZA SHAIKH    SHEHROZ NAGDAWALA**

Believe in YOURSELF! These are the simple words which make you strong enough to handle any situation you come across. Organizing sports wouldn't have been possible without the guidance of Dr. Vivek Nirmale, the best mentor the sports committee could have! With the sports secretary, stand his batchmates and the ex- Sports secretary offering all the help and support crucial to these events. I feel fortunate to have been given this opportunity. The participants set an example with their sportsmanship and fair play. Sports unites us all and I feel happy to have been a part of making that possible. We also witnessed the first ever girls football match in MIMER this year, and I hope to see the legacy continue!

- Bhavesh Kankriya, Sports Secretary of Plexus 2018

Plexus. Much like it's medical meaning, is an event where all students, teaching staff and non teaching staff come together. As the popular saying goes, "All work and no play makes Jack a dull boy." It gives everyone a few moments out of their hectic schedules to enjoy and showcase their talents! Becoming the GS has been an overwhelming experience for me. It is under the weight of the work and responsibilities that I have learnt the true value of group work and partnership. Blessings from the faculty give you faith but their expert guidance and support on every step is what makes the event a grand success. I will miss every minute of this beautiful journey and am very grateful to have been a part of it.

- Hrushikesh Hendre, General Secretary of Plexus 2018

Plexus 2018 was a fun filled roller coaster. We juggled tirelessly between the auditorium, the college, the office, various departments and sponsorship meetings. Days turned to nights and we were still happy to work. We had impromptu chai and vada pav parties, laughed till our stomachs hurt, climbed on sky high ladders and threw paint at each other! It was about respecting everyone's ideas, and moulding it into a realistic plan. It was about teamwork! I am grateful to my Co CS for supporting me through everything. We divided the task and multiplied the success. Plexus for me is always going to be special. It taught me more than I ever expected to learn, gave me memories to cherish and friends forever! I thank each and every MIMERite for making Plexus 2018 a grand success!

- Shehroz Nagdawala, Cultural Secretary of Plexus 2018

# THE CORE COMMITTEE

The theme of PLEXUS 2018 "The Next Dimension" itself has shown the perfect blend of determination, dedication and direction. All the students and mentor teachers of MIMER have taken lot of efforts to give a new dimension to this annual event whether it was sports, cultural or the debate competition. It's always a stress buster to attend plexus every year! It is great to see glimpses of PLEXUS in the Special PLEXUS Edition of 'The Grey Matter'.  
I extend my best wishes to the team for all their forthcoming editions.

-Dr. Suchitra Nagare, Executive Director of MIMER Medical College

It gives me immense pleasure that students of MIMER Medical College, Talegaon have celebrated Plexus 2018 so enthusiastically. It is amazing to know that in addition to academics, our students have immeasurable hidden talent in extracurricular activities. It is truly wonderful to see students dancing and singing. It was great to see the glimpses of Mrs Universe Pallavi Kaushik as the judge of MIMER'S fashion show. Students enthusiasm in all sports activities was unimaginable.

-Dr Rajendra Prasad Gupta, Principal of MIMER Medical College

Plexus as we all know is the network of nerves and vessels in the body. This name is perfectly apt as it connects two different streams together, making this festival a grand success. Plexus 2018 was extremely overwhelming. With its theme- 'The Next Dimension' this year, the concept being difficult as well as amazing took each one of us in a new era. The 2nd year BPT and MBBS students collaborated together for such a splendid outcome. It is more about connecting ideas, different visions of the students and their hardwork that results in this massive success. Just like every fest, there were certain disputes and differences in opinion but, they were mutually solved. I am extremely thankful to Dr. Sushma Sharma and Dr. Sandesh Gawade for their constant support and love for the students. The representatives worked together with their batchmates and their parallel mates and helped out everyone in keeping everyone's ideas in front and respecting each other's decision. Overall, it was an amazing event like every year.

-Dr Snehal Ghodey, Principal of MAEERS Physiotherapy College

Plexus-2018- It was my pleasure to work as the organizing secretary for this event. It is fun to watch students in their extracurricular activities including sports. I was fortunate enough to even be able to participate in two events and be part of these thrilling moments. I would like to thank the organizing batch and committee for putting up such a wonderful show.

-Dr Sandesh Gawade, Associate Professor ( Dept. of Surgery )

One of the perks of being a part of campus life is the opportunity to be part of various extracurricular activities. One such occasion was being one of the teachers involved in our annual college fest " Plexus 2018"! The organizing team was a pleasure to be with. Right from the theme to the various events, it was a show par excellence! All of it was an outcome of great planning, hard team work and talent galore. Salute to these young doctors to be. You sure make campus life lively and vibrant!

-Dr Sushma Sharma, Professor ( Dept. of Obstetrics and Gynaecology )

Every year, annual social gathering of MIMER Medical College has reached to its highest level of success and thus, every year we aim a step higher. PLEXUS-2018 included various events wherein students were given chance to think, step forward and showcase their talent. All events have their own colours and are very unique in their own way. These included Sports, Cultural, DJ night, theme based days, open mic event, traditional day and many more.

In order to nurture sportsmanship in students, several sports are also organized.

It includes outdoor sports like cricket, Basketball, Volleyball and Dodgeball.

Participants also enjoyed the thrill of indoor games like Table tennis, Badminton, Carrom, and Chess.

As we look forward to next year, this efforts of plexus are going to take all the students working together to keep the momentum for moving forward in life.

-Dr. Vivek Nirmale, Associate Professor (Dept. of Anatomy )

# THE ART OF LOSING

by Satyajeeet Rakh, III/I MBBS

Plexus season. A delightful period of fifteen days where everyone's attention shifts if only momentarily, to music, art, dance and sports.

It may seem funny that an article related to sports doesn't hold a more glorious title. I mean, would you ever read a book titled 'Losing'? Therein lies the problem.

I've always been an avid participant, be it an individual or team sport. Whenever I lose a match, I utterly, totally and completely lose it! I am inconsolable. I may tear up and even isolate myself.

Everyone comes up to me and says,

"Why are you feeling bad Satya?"

"It's just a game Satya."

"It's not your career year." Then comes the biggest sucker punch of all,

"It's just losing". That's when I go ballistic.

I hate losing. I detest the thought of it. I loathe it.

Every time I lose, I make it a point to let that feeling stay with me for as long as possible. I wallow in it and let it consume me till the point where my hate for it multiplies and makes me cringe. You may ask, 'Why?'

Why this self inflicted torture? The answer is pretty simple. The next time I am a goal down with a minute left, exhausted, demoralized and about to give up, I remember how bad it felt to lose the last time. That gut wrenching feeling gives me a second wind. What guarantees that I'll win the game? Nothing. However, it puts me a level above from the last time.

Losing is one of the purest feeling. Whenever you face a loss of any kind, an extracurricular competition or your exam percentage, embrace the feeling. Everyone in the world can deal with the happiness of winning but its the way you react and bounce back from the heartbreak of a loss which decides your mettle. It's about how you get back up after being knocked down. Your victories don't define you. Your losses do. Nobody in this entire world likes to lose but it is what keeps you going.

The most important thing is to not let that feeling stay upto a point where you get accustomed to it. So remember, It's okay to feel sad and low after a loss because today you'll cry tears of sadness but tomorrow they will create the wave upon which you will rise.

# THE SPORTS COMMITTEE

Where there is team work and collaboration, everything can be achieved.

Being a part of the sports committee was one of the best things that happened to us this year. We learnt to work as a team and learnt the importance of time management .

Although, we lost hours while keeping minutes, we managed to organize an additional event despite the time constraints. An event that was witnessed for the first time in MIMER, an event that opened doors for new opportunities and we hope this fire of girls football doesn't die out.

Here's to every Insurgent who was a part of Plexus'18 and who made this journey worthwhile.

-Simran Kapoor

# VOLLEYBALL

**WINNERS: RESIDENTS AND TEACHERS**  
**RUNNER UP: PHOENIX**

You never know whether it will be a smash or it will be up in the air, Three touches and you either lose a point or gain it. This makes the game of volleyball an adrenaline filled game, both for the audience and the players. The final match of Plexus 2018's Volleyball League was full of such splendid moments.

The match took place on Friday, 23rd February 2018 and the two teams who made their way to the final were- Team Phoenix and Team Residents and Teachers.

The court was prepared. Audience gathered and the whistle blew. The finals had begun. There was excellent co-ordination displayed by both the teams

After a very tough fight, the Team Teachers and Residents won 3 sets. 1. This was all possible because of the efforts taken by the organizing team which consisted of Pawan Tiwari, Darshan Bedekaye, Bhagyoday Hotkar, Aniket Puppalwar and Onkar Chavan.

The organizer Pawan Tiwari expressed this experience as "It was indeed a hectic task. Volleyball is one of the most popular games in M.I.M.E.R. You need to look after the court and make the ground even about 2-3 times per match. I am thankful to our seniors, batch mates and juniors for their help.

- Varun Dake, I MBBS

# BASKETBALL

**WINNERS:PHOENIX**

**RUNNERS UP**  
**GIRLS: MAVERICKS**  
**BOYS:INFERNO**

Zeal, ardor, dedication, team-play and most importantly sportsmanship, everything you can feel in a great sports match. The boys final basketball match of Plexus 2018 was full of all of these. The match took place on Wednesday, 21st February, 2018. Everyone was anticipating the match - team PHOENIX and INFERNO were about to face off to win the finals. Everything was impeccably organized by Amey Sonkusare with the help of Qais Naik and Bhavesh Kankriya.

The match consisted of 4 quarters, while each quarter lasted for 8 minutes. In the first two quarters, both the teams were almost equal on the scoreboard. The crowd was very excited and there were deafening cheers from both the sides. Everyone was eagerly waiting for the final two quarters. What a tensed atmosphere it was! Taking the lead was no piece of cake, but Phoenix did manage to get a lead and finally become the winners of PLEXUS 2018's Basketball League. The final score was 18-25.

The organizer, Amey Sonkusare shared his experience "It was a different experience, amazing and also a bit stressful at times. We needed teamwork to plan and execute the matches. the Sports Secretary helped a lot. Also I definitely appreciate the efforts of Was Naik and Siddarth Jaiswal" - Varun Dake, I MBBS

**WINNERS:PHOENIX**

# THROWBALL

**WINNERS: SPARTANS**  
**RUNNERS UP: INFERNO**

Winners are not people who never fail, they are people who never quit.

The final game of Throwball was a fierce match between team Spartans and team Inferno. There was no room for fumbling. With loud cheers from both sides and through the dust in the air, the Spartans emerged victorious.

-Riya Barar

# DODGEBALL

**WINNER: SPARTANS**  
**RUNNER UP: INFERNO**

Duck! Throw! Dodge and Run!

That's what the Dodgeball finals were about. With every player determined to put in their best, the teams stood full of spirit in their jerseys. The crowd cheered to every single hit and miss. In the end it was not about winning or losing but having fun.

-Shweta Gattaraddy

# CRICKET

## BLEED BLUE

The colour Blue symbolizes trust, wisdom, confidence and calmness. It was chosen because of the blue colour of the Ashoka Chakra in the Indian flag.

## WINNERS- PANTHERS (TEACHERS & RESIDENTS)

A large crowd, only two teams. The Panthers (teachers & residents) and the Titans, being the finalists, were in the spotlight. Naturally, there was a great deal of excitement both amongst players and the spectators. With 15 minutes for the match to begin, the stands were overflowing with anticipation. Our special guest for the match was the medical director of M.I.M.E.R. Dr. Suchitra Nagare ma'am, accompanied by our esteemed faculty members. The Panthers won the toss and put their batsmen over Dr. Kumar and M. Javali, their opening batsmen. This duo got off to a phenomenal start with stellar shots, but the Titans bagged two wickets early on in the match, including the crucial wicket of Dr. Harsh Trivedi. The crowd thought that the Panthers were setting a rather simple target, but Dr. Ajay Allamwar had something different in mind. He rained fours and sixes, taking his team to a bowling attack on the Panthers, they lost three wickets in quick succession leaving two new un-set batsmen on the crease. Nevertheless, a magnificent display by the Titans, especially Sandeep Nagre and Pushkaraj Dhakne, gave the Panthers a run for their money. Finally it all came down to the last over. The bowler held his nerve and the Panthers won by the skin of their teeth, beating the Titans by one run in a nail-biting, thriller of a match.

### RUNNER UP- TITANS

# CHESS

"After me and Rupert had finished filming our scenes, since most of the scenes in this film have me and Rupert together, we spent a good amount of time playing wizarding chess, and even though he won't admit it, I won almost every time." - Emma Watson.

## WINNERS

**PRANAV WABLE**

III/II MBBS

**AISHWARYA PURANIK**

I MBBS

Chess is the best sport to exercise the most important organ of our body- The Brain. As we were organizing chess for this year's plexus, with entries flying in with the names of talented chess players of MIMER, we thought that it would be a tough job. Surprisingly, it turned out to be fun! We not only got to organize, we got to play with each other, interact, share tips and various strategies. With each round, as matches went on, the games became more and more interesting. Finally, the most awaited finale came. Both the finalists were first year girls. With both the players giving tough competition to each other, I must say the wait was worth it. As the finals got over we knew that our job was done there, but, we had sweet memories to take home, the memories that we will cherish forever.

# MOZART AND MEDICINE

by Yash Kurmi, II/II MBBS

Are you an older Indian sibling? Then your parents have probably forced you to learn Bharatnatyam or play the Tabla. Were you also made to showcase your singing and dancing skills in front of relatives? I was. I was made to attend Tabla classes. I still remember the bus ride home after school.

I would think of every possible way to get out of attending these classes. Then I would turn my head only to find out that my Tabla teacher was on the same bus as me.

I remember being grumpy and unhappy initially. I even asked my father to let me learn a 'cooler' instrument like the guitar. It took me two whole months just to create the sound 'Na'. This was followed by the realization that this wasn't going to be easy. Learning more complex things was going to take a lot of effort.

Learning Tabla taught me discipline and the importance of hardwork. I developed an intense love and passion for percussion instruments. When I decided to pursue medicine, my Indian parents were overjoyed. Somewhere in the back of my mind I knew I wanted to do surgery. I also realized that my parents had probably hoped to make me a doctor all along.

My father said to me, "Tabla players are very dexterous and have amazing control over their hands and fingers which allows them to perform surgical techniques with great ease." He told me that I would make a good surgeon one day. In retrospect I feel that learning Tabla was the best thing that happened to me. I also learnt to play Dholaki, Pakhawaj, the keyboard, drums, Congo, Bongo, Djembe and the maracas. I still aspire to become a surgeon and hope to bring the same level of dedication that I have brought to my music.

*"The theatre was created to tell people the truth about life and the social situation"*  
 - Stella Adler

# THE SKITS

## THE PHYSIOTHERAPY SKIT

REPEATING ALMOST VERBATIM THE WORDS OF MINISTER FOR WOMEN AND CHILD DEVELOPMENT : MS MANEKA GANDHI, 'MARITAL RAPE' CANNOT APPLY IN INDIA BECAUSE OF FACTORS LIKE ILLITERACY, POVERTY, SOCIAL CUSTOMS, RELIGIOUS BELIEFS, AND THE "SANCTITY" OF MARRIAGE.

HOW ARE WE TO UNDERSTAND THIS? THAT IT IS OKAY FOR A MAN TO SEXUALLY ABUSE HIS WIFE BECAUSE THEY ARE POOR? BECAUSE THEY ARE ILLITERATE? BECAUSE THEIR MARRIAGE IS SOLEMNISED BY A RELIGIOUS RITUAL?

A WOMAN CAN PROTECT HER RIGHT TO LIFE AND LIBERTY, BUT NOT HER BODY, WITHIN HER MARRIAGE, WHICH IS JUST IRONICAL.

THE SAME WAS PORTRAYED IN THE SKIT PRESENTED BY THE STUDENTS OF 1ST B.PTH - TWO PERFECT PEOPLE, BUT NOT A PERFECT STORY.

IT WAS ALL ABOUT TWO INDEPENDENT PEOPLE WHO WERE PERFECT INDIVIDUALLY, BUT COULD NOT COPE UP WITH THE NORMS AND THINKING OF THE SOCIETY.

THE SKIT WAS AN ATTEMPT TO HIGHLIGHT THE GRAVE ISSUE AND TO REMIND ALL THAT THAT THE EXISTING LAWS IN INDIA AREN'T SUFFICIENT TO TACKLE THIS MENACE. THE SKIT PORTRAYS THE LIFE OF MEERA, AN INDEPENDENT CAREER ORIENTED WOMAN WHO FALLS PREY TO MARITAL RAPE. HER TRIES TO FIGHT BACK FALL WEAK AFTER RECEIVING NO HELP FROM HER FAMILY AND NO POSITIVE SIGNS FROM THE POLICE DEPARTMENT AS WELL.

THE PROTAGONISTS ANSH AND MEERA PLAYED BY YASH AND POOJA RESPECTIVELY, BROUGHT OUT THE BEST IN THE PLAY. THE WRITERS AND DIRECTORS OF THE PLAY - RUTUJA GHAG, AFIFAH DADANI AND CHINMAY KAREKAR PUT IN FULL EFFORTS TO CONVEY THE SERIOUSNESS OF THE ISSUE ABOUT CRIMINALISING MARITAL RAPE AS WHOLE.

HRUSHIKESH GAIKWAD WHO PLAYED THE ROLE OF VICKY, CONVENIENTLY CONVINCED THE AUDIENCE ABOUT THE IMPACT OF COMPANY WE KEEP AND THE MAJOR INFLUENCIAL EFFECT IT HAS ON A PERSON'S LIFE.

HERE'S WHAT THE WRITERS OF THE PLAY HAD TO SAY, "MARRIAGE IS NOT A CONTRACT FOR LEGAL SEX. ITS HIGH TIME OUR COUNTRY UNDERSTOOD THAT"

- SAUMYA KINE, II BPTH

## THE MBBS SKIT

DRAMA IS A WAY OF RELATING TO THE WORLD, IN WHICH A PERSON OR A GROUP CONSISTENTLY OVERREACTS OR GREATLY EXAGGERATES THE IMPORTANCE OF BENIGN EVENTS.

KEEPING THIS IN MIND, ON THE FIRST DAY OF THE CULTURAL EVENTS, THE FIRST YEARS OF MIMER MEDICAL COLLEGE PUT UP A HUMOROUS SKIT TITLED 'LIFE IN FIRST YEAR MBBS' WHICH HAD ITS CORE SET IN LIFESTYLE THAT MEDICAL STUDENTS ADAPT TO IN COLLEGE.

WITH HILARIOUS BACKGROUND MUSIC AND RELATABLE EVERYDAY SCENES, IT WAS A NICE EFFORT FROM THE JUNIOR MOST MEMBERS OF OUR FAMILY.

NOSTALGIA WAS IN THE AIR AND IT WAS A LIGHT-HEARTED PROGRAM WHICH LEFT EVERYONE WITH A WARM FEELING IN THE END. THE STUDENTS' EFFORTS WERE APPRECIATED WHEN AT THE SKITS END, THEY WERE MET WITH A LOUD APPLAUSE.

- APARNA SURESH, I MBBS

"DURING OUR THIRD YEAR UNIVERSITY EXAMS RELEASED THE SPECTACULAR SONG, GHOOMAR. I WAS PARTICULARLY OVERWHELMED BY DEEPIKA'S PERFORMANCE. THE THOUGHT OF PERFORMING A SOLO LINGERED IN MY HEAD AND I FINALLY DECIDED

TO ACT ON IT WHEN PLEXUS 2018 WAS ANNOUNCED. AFTER A LOT PRACTICE AND EDITING CAME THE DAY OF AURA. MY FRIENDS KEPT TELLING ME, " GIVE NICE EXPRESSIONS, DON'T PANIC AND PUT IN ALL THE ENERGY YOU HAVE IN THOSE FOUR MINUTES." I WOULD LIKE TO CONFESS THAT THIS PERFORMANCE WASN'T A SOLO, BUT A GROUP PERFORMANCE AND I WAS MERELY A REPRESENTATIVE ON STAGE. A BIG SHOUT OUT TO MY BATCH, PHOENIX, WITHOUT WHOSE CHEERING AND ENCOURAGEMENT THE ACT WOULD HAVE BEEN INCOMPLETE AND TO THE AMAZING ORGANISATION OF THE INSURGENTS". - SAKSHI VASANT

तुम्हें दुआ मिलेगी

कुर्बानी - इस शब्द का मानी समझने की कोशिश में ही लाखों कुर्बान हो गए।

कुर्बान थे वह जो अपने हिंदुस्तान को भारत में तब्दील करने की जंग में अंग्रेजों के हाथों मारे गए।

समय बीता है काफी उस आज़ादी की लड़ाई को लड़े,

लेकिन आज़ादी का नामोनिशा कहीं दिखाई नहीं देता।

एक वक़्त था ऐसा, जब कुर्बानी देने वालों को शहीद कहलाके उन्हें सजाया जाता था

आज जो कुर्बान हैं वह हैं हमारे ही भाई, बेटे और बाप...

वही लोग जो हमारे हिंदुस्तान के लाखों, करोड़ों को भूखा नहीं मरने देते।

आज वही शहीद किसान कहलाते हैं।

सोचता रह गया बस...

कुछ ही दिनों पहले की बात है, पानी के कुछ मूँट लेते हुए जब नजर गई गाड़ी के दरवाचे के बाहर

लहू से रंगे, सूखे सरसों के खेतों से पुकार सुनी,

"शोकेस पानी के छीटे हम पर भी छिड़क दो जनाब, तुम्हें दुआ मिलेगी!"

-सुचश गोरे

# TEACHER'S FASHION SHOW

COMMITTEE MEMBERS- SAIRAJA MAGGIDWAR,  
SHREYA DATAL

We always saw them take our classes but, this time they took the runway!

It felt amazing to be a part of something where the teachers came together to put up such a great show and have fun.

It would not have been possible without Ashwini Ghaisas ma'am. Her extraordinary energy, dedication and creativity was the reason behind such a great fashion show.

Dr. Ganesh Pentewar sir was the backbone of the event. His guidance set the entire event into motion! Dr Sushma Sharma ma'am and Dr Sandesh Gawade sir were always there to support me.

A huge thanks to the teachers and the residents for their valuable time and participation.

Enormous cheering from the audience is what made the event victorious. Hope that the tradition continues because it is one of the most awaited events of the year!

-Shreya Datal

# AAROHAN

*first* **TRILLUMINATI**

Final year BPTth

*second* **MERLIN SARA  
MATHEW**

I MBBS

*third* **PURVA SHINDE**

III BPTth

## **THE SINGING COMMITTEE**

From Left to Right-  
Dharmin Doshi, Damini  
Narkhede, Yash Kurmi

Organizing Aarohan has been such a fun experience. It all seems easy until the day finally arrives and you are frantically calling the participants to confirm their karaokes and sequence. Fortunately, our team though short, was extremely resourceful. Yash Kurmi handled all the instruments and Dharmin Doshi did the most amazing job with the AV demands of every contestant. It would not have been possible without the help of many other people who helped us through it and the advice of last year's singing committee. We hope to see more amazing talent next year from the audience!

-Damini Narkhede, II/II MBBS

# musical night

## HARMONIC SCALPELS

Yash Kurmi

From left to right- Neeyata Sinha, Vivasvan Borkar, Nihal Dubey, Damini Narkhede

## BLOOMERUST

From left to right  
Dr Aditya Chile,  
Vivasvan Borkar,  
Nihal Dubey,  
Satyajeet Rakh,  
Yash Kurmi

@bloomerust

## WINGS TO MINDZ

An upcoming band comprising of Abhigyan Das, Avishek Rai, Bharat Biswa, Himanshu Mishra, Aman Sunam

Wings To Mindz

MIMER Medical College, Talegaon Dabahde

Reports from Controller of Exam (COE) office/ Registrar evaluation mentioning the relevant details and the result analysis performed by the institution duly attested by the Head of the Institution

	Prajakta Kurhade	Awareness about adolescent changes in school and college going girls.	ICMR	Government	Psychiatry	2018	0.100	2 months
	Qais Shabbir Naik	Awareness of Bio-medical waste management among clinical teaching staff in a private medical college in a rural area of Maharashtra.	ICMR	Government	Community Medicine	2018	0.100	2 months
	Gayatri M.N.	Analysis of port site infection in basic laparoscopic surgeries at rural hospital	ICMR	Government	Surgery	2018	0.100	2 months
	Jayraj Patil	Study of Morphological types of Anemia in pregnant womwn with low socioeconomic status attending ANC at rural tertiary care hospital	ICMR	Government	Pathology	2018	0.100	2 months
<b>2017- 2018</b>	Narmrata Deshpande	Thyroid Status in Type II Diabetes Mellitus	ICMR	Government	Biochemistry	2017	0.100	2 months
	Rohit Telap	screening of kidney disease by proteinuria in a teachning hospital of maval taluka, pune	ICMR	Government	Biochemistry	2017	0.100	2 months

# MISSION ZINDAGI

What is the most difficult part about being a healthcare worker? The 5.5 years? Or the big books? Or the long working hours?

None. The most difficult part about being a healthcare professional is not being able to save a life merely due to the absence of resources.

We study in one of India's finest medical college with an extremely well known hospital. One looming factor restricts the ability of our doctors to provide for our patients: Blood!

Blood is a necessity. Blood is scarce. But blood is also wasted. Like every other commodity blood has an expiry date.

Blood donated from mass donation programmes are often conducted under unhygienic conditions at railway stations, schools, colleges and camps. They are often accumulated in large numbers which eventually expire if unused, creating a gap when there is an actual need for the blood in the hospitals.

We do not discourage anyone from donating blood. Instead we encourage you earnestly to donate blood, smartly.

Hence Mission Zindagi initiated **Blood on Demand**.

## AIM:

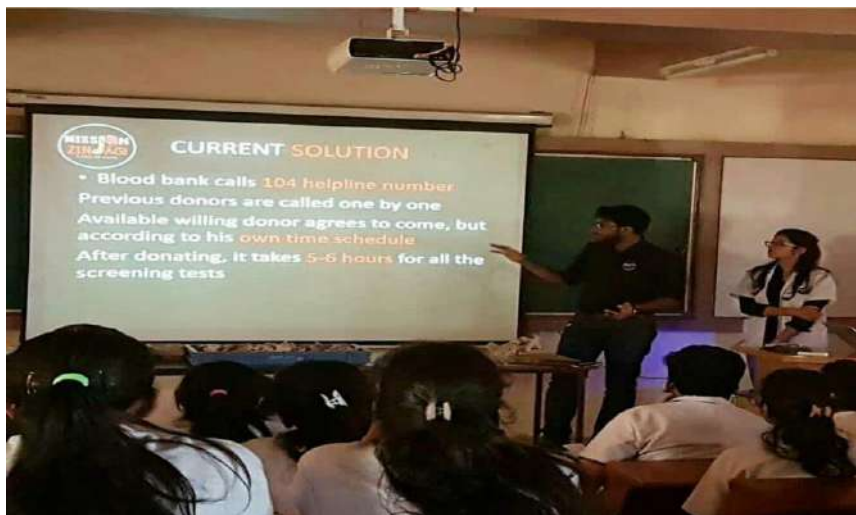

- To fulfil the never ending demand of blood in our hospital

## OBJECTIVES:

- To increase the number of volunteering donors by abolishing all stigmas and misconceptions about blood donation through education drives.
- To create a network of members by connecting them on individual blood segregated WhatsApp groups.
- To provide blood on demand emergencies on a daily basis through our membership network.
- To highlight the problems incurred in mass donation programs by awareness programs within the college and other local areas of Talegaon.
- To avoid mass donation programs and the substantial loss of blood caused by them due to wastage in our blood bank.

## WHAT EXACTLY WILL HAPPEN?

- In case of emergencies the blood bank would contact Mission: Zindagi Representatives and whatsapp message would alert the members.
- Volunteering members would be asked to report to the blood bank.
- With a smooth channel, the blood bank would notify mission zindagi with the names of the volunteers.
- This will be saved in our database and the donor will be notified after 3 months when he is again fit to donate blood.
- This would be possible only with the continuous efforts of the representatives who will visit the blood bank regularly to collect updates.

## HIGHLIGHTS:

A team of 11 volunteers from Facebook all the way from the United States of America visited the Mission Zindagi Headquarters at MIMER Medical College to understand the newly conceptualised plan to provide blood on demand. After healthy discussions and suggestions, they were amazed at the functioning of a rural hospital's blood bank relief measures.

We were featured in the newspaper which highlighted the need to shift to a blood on demand system rather than a blood donation drive.

## ‘मिशन जिंदगी’तर्फे आयोजित रक्तदान शिबिरास प्रतिसाद

तळेगाव स्टेशन : रक्तदान श्रेष्ठ दान यानुसार सामाजिक बांधिलकीची जाणिव ठेवून रक्तदान शिबिरास उत्तम प्रतिसाद ‘जायंट्स ग्रुप ऑफ तळेगाव दाभाडे’ व ‘मिशन जिंदगी’ यांच्या संयुक्त विद्यमाने आज रक्तदान शिबिराचे आयोजन ‘गरवारे ब्लड बँक’, जनरल हॉस्पिटल, तळेगाव दाभाडे स्टेशन येथे रविवार( दि.१८) रोजी करण्यात आले. सध्या रक्ताचा तुटवडा जाणवत असल्यामुळे आणि गरजूंना रक्त मिळणेस मदत व्हावी यामुळे रक्तदान करण्याचे आवाहन ब्लड बँक तर्फे करण्यात आले होते. या आवाहनास दोन्ही संस्था व तळेगावकर नागरिकांनी उत्तम प्रतिसाद देत ३० दात्यांनी रक्तदान केले. जायंट्स चे अध्यक्ष अॅड. देविदास टिळे, उपाध्यक्ष नितीन पाटील, संचालक आण्णाराव कोळी व इतर सभासदांनी रक्तदान केले. संस्थापक संदीप गोंदेगावे, उपाध्यक्ष हिरामण बोत्रे, संचालक ज्ञानेश्वर लोखंडे, राजेश बारणे, मानंद सदस्य व सामाजिक कार्यकर्ते दिलीप डोळस आदी उपस्थित होते.

We have collaborated with MSAI in 2018 and 2019 blood donation day to spread awareness about the same.

#### **FUTURE:**

We hope to transform our organisation into an App created for our college management, faculty, workers and students. It's an attempt to centralise the system and channelise technology to provide for our organisation.

Date-05/12/2017

To,  
The Principal,  
MIMER Medical College  
Talegaon Dabhade

**Subject:-To get permission for our organization MISSION:ZINDAGI.**

Respected Sir,

We, the students of II/I MBBS students have decided to establish an organization related to blood donation. The brief details are as follows -

Name of Mission: - **Mission Zindagi**

Objectives:-

- 1) To ensure availability of blood of all groups in the Blood Bank.
- 2) To minimize wastage of blood.

Action Plain:-

- 1) To create and maintain a database of potential willing donors.
- 2) To form groups of donors according to their blood groups.
- 3) To convey the message to the donors according to the need of blood bank.
- 4) To create a regulatory system between blood bank & donors.

Method:-

- 1) To register the blood donors & to create their whatsapp groups according to their blood groups.
- 2) After getting informed about the demand from the blood bank, communicate to the respective whatsapp groups.
- 3) The donors will attend the blood bank to donate their blood.
- 4) This will help to keep sufficient stock of blood in the Blood Bank for routine requirement as well as for emergencies.

So hereby we request you to please allow us to organize this mission for noble cause.

Thanking you,

Yours faithfully

  
Ram Palleti

  
Shreya Datal
